WTC Building exploding into fine dust (it is not burning down) by pre-planted explosives in an obvious controlled demolition. The arrow points to a “squib” of exploding gas which is commonly seen with controlled demolitions. Some of the “splinters” seen (the only solid objects that did not pulverize into dust) are actually chunks of steel beams that were being exploded upward and laterally. The nicely-sectioned steel beams and girders were soon ordered by New York Mayor Rudy Giuliani to be trucked away and shipped to China – an order that constitutes disturbing a crime scene – which is a federal crime.

[The Post 9/11 Era: Fifteen Years of America's "War on Terror". Years of Horror inflicted on the People of the Middle East](#)

By [Red Flag](#), September 09 2016

September marks 15 years since the US state turned the tragedy of the World Trade Centre attacks into a justification for years of brutality and horror inflicted on the population of the Middle East. The “war on terror”, launched by the administration of president George W. Bush in the weeks following 9/11, revealed the naked barbarity of US imperialism. It

extended far beyond the borders of Afghanistan, where the US first invaded, to subject the populations of Iraq, Yemen, Pakistan and beyond to sickening violence.

Noting the many shortcomings in Bažant's analysis, which have been studied and criticized extensively since 2001, Korol and his colleagues set out to apply a much more rigorous methodology for analyzing WTC 7, which, according to the National Institute of Standards and Technology (NIST), collapsed from normal office fires. Dr. Robert Korol, professor emeritus of civil engineering at McMaster University in Hamilton, Ontario, and a fellow of the Canadian Society for Civil Engineering, has led a team of academic researchers in preparing two peer-reviewed scientific papers on the destruction of World Trade Center Building 7.

In a few days it will be the 15th anniversary of 9/11, and this November 13 will be the 53rd anniversary of the assassination of President John F. Kennedy in Dallas, Texas. These two state crimes against democracy destroyed American democracy, accountable government, and the Constitution's protections of civil liberty. Years after the damage done by these events the American people no longer believe the official stories. Neither does the government, but the government will never validate the distrust that Americans now share of the oligarchs' government by acknowledging the truth.

If the Saudis were indeed the State sponsors of 9/11, why on earth did the US and the Atlantic Alliance (under the doctrine of collective security) choose to wage a “Just War” of retribution against Afghanistan. Did they get their countries mixed up?

[US Government Intentionally Destroys 9/11 Evidence](#)

By [Washington's Blog](#), September 04 2016

Presumption of a Cover-Up ... Judges and lawyers know that – if someone intentionally destroys evidence – he’s probably trying to hide his crime. American law has long recognized that destruction of evidence raises a presumption of guilt for the person who destroyed the evidence. So what does it mean when the US government intentionally destroyed *massive* amounts of evidence related to 9/11?

By [Chaim Kupferberg](#), September 07 2016

In the immediate aftermath of the destruction of the World Trade Center, the finger of guilt was directed toward the only plausible author for such a sophisticated and ruthless act of terror – Osama bin Laden. And while I was a bit taken at how quickly – and confidently – the fingers were pointing only hours after the 9/11 bombings, I was positively shaken by the first red flag that popped up. His name was John O'Neill – or more precisely, he is the seam that shows.
