

Selected Articles: The Corona Virus Vaccine

By [Global Research News](#)

Global Research, February 13, 2021

Global Research brings to the attention the attention of our readers a selection of articles on the coronavirus vaccine.

"The Second Wave of the pandemic commenced in October 2020. The Pfizer Moderna corona vaccine was launched in early November 2020.

Worldwide, people are led to believe that the corona vaccine is a solution. And that "normality" will then be restored.

How is it that a vaccine for the SARS-CoV-2 virus, which under normal conditions would take years to develop, was promptly launched on the 9th of November 2020?

Moreover, the vaccine announced by Pfizer and Moderna is based on an experimental gene editing mRNA technology which has a bearing on the human genome. Coupled with the vaccine initiative is the development of a so-called digital passport which will be imposed on entire populations.

And why do we need a vaccine for Covid-19 when the WHO, the US Center for Disease Control and Prevention (CDC) as well as numerous scientists have confirmed unequivocally that Covid-19 is "similar to seasonal influenza". (Michel Chossudovsky)
