

Selected Articles: UK Russophobia: Novichok 2.0

By [Global Research News](#)

Global Research, July 06, 2018

For almost seventeen years, Global Research, together with partner independent media organizations, has sought Truth in Media with a view to eventually “disarming” the corporate media’s disinformation crusade.

To reverse the tide, we call upon our readers to participate in an important endeavor.

Global Research has over 50,000 subscribers to our Newsletter.

Our objective is to recruit one thousand committed “volunteers” among our 50,000 Newsletter subscribers to support the distribution of Global Research articles (email lists, social media, crossposts).

Do not send us money. Under [Plan A](#), we call upon our readers to donate 5 minutes a day to Global Research.

Global Research Volunteer Members can contact us at crg.online@yahoo.com for consultations and guidelines.

If, however, you are pressed for time in the course of a busy day, consider [Plan B](#), Consider Making a [Donation](#) and/or becoming a [Global Research Member](#).

[UK Mounts Fresh Offensive Against Russia Following Second Alleged Novichok Poisoning](#)

By [Chris Marsden](#), July 06, 2018

Britain’s Conservative government has used a second alleged novichok nerve agent poisoning incident in the Salisbury area of England to launch a fresh provocation against Russia.

[The Skripals and a New Novichok Affair: No End in Sight?](#)

By [Dr. Ludwig Watzal](#), July 06, 2018

There was another Novichok attack on a couple that was found unconsciously at their British

home in Amesbury, UK, close to Salisbury where the Skripals were found sleeping on a park bench after being attacked by a nerve agent. After leaving the hospital, the Skripals are blocked off from the public.

[Novichok Hoax 2.0?](#)

By [Stephen Lendman](#), July 06, 2018

A man and woman identified as Charlie Rowley and Dawn Sturgess are hospitalized in critical condition. According to UK police, it's unclear how the two affected individuals came in contact with whatever made them seriously ill, or whether they were targeted.

Western media jumped on the incident, suggesting Russian responsibility. Novichok is virtual code language for alleged Kremlin involvement.

[The Amesbury Mystery. The "Novichok" Nerve Gas Used against the Skripals is "Extremely Persistent"](#)

By [Craig Murray](#), July 05, 2018

We are continually presented with experts by the mainstream media who will validate whatever miraculous property of "novichok" is needed to fit in with the government's latest wild anti-Russian story. Tonight Newsnight wheeled out a chemical weapons expert to tell us that "novichok" is "extremely persistent" and therefore that used to attack the Skripals could still be lurking potent on a bush in a park.

[We're Protesting Trump's Visit by Flying an Inflatable Trump Baby Over London](#)

By [Leo Murray](#), July 06, 2018

Theresa May practically fell over herself to invite the orange sex pest here, despite nearly two million people signing a petition asking her not to. And that was before he started snatching babies from their parents at the border and locking them in cages. Any 'special relationship' May tries to sign us up for with the Trump regime is obviously going to be an abusive one.
