Dear Readers,

More than ever, Global Research needs your support. Our task as an independent media is to "Battle the Lie".

"Lying" in mainstream journalism has become the "new normal": mainstream journalists are pressured to comply. Some journalists refuse.

Lies, distortions and omissions are part of a multibillion dollar propaganda operation which sustains the "war narrative".

While "Truth" is a powerful instrument, "the Lie" is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.

In fact, all US major trading partners were quickly suspended from the tariffs—except for China.

By [Mark Taliano](#), May 03, 2018

The late Zbigniew Brzezinski was an architect in the use of fanatical terrorists to invade and destroy countries. Washington used the tactic in Afghanistan, and Washington is still using so-called “jihadi” terrorists to destroy non-compliant countries. Washington has been destroying Syria with these anti-democratic, extremely misogynist, cult-intoxicated “Wahhabi” terrorists for over seven years now.
