[Virus Contact-Tracing for All – Singaporeans to be Tracked by Gov't in Post-COVID World](#)

By [Zero Hedge](#), June 10, 2020

Singapore is on the cusp of rolling out a mandatory COVID-19 tracing program that will identify people who had come in contact with virus carriers. The program will distribute tiny microchips to all 5.7 million residents, in what will be the most extensive tracing program globally, reported [Reuters](#).

The brutal killing of George Floyd by police, followed by the president's calls for military intervention against protestors, are causing words like "dictatorship," "authoritarianism," and even "fascism" to become part of the national discourse. But the president has been dismantling constitutional safeguards for a long time, and the racism he and his administration have broadcast across the nation extends around the world, too.

[Rewriting History: The Problem with Toppling Our Monuments](#)

By [Johanna Ross](#), June 10, 2020

On Sunday a statue to the 19th century English merchant Edward Colston was seized from its pedestal and violently hurled into Bristol harbour by a group of protestors demonstrating as part of the Black Lives Matter movement. The incident has become the subject of fierce debate ever since. Edward Colston, like many wealthy Europeans of his time, was a slave trader, and the monument has become, for many, a symbol of racism of the type we must eradicate from our society for good.

[Two Million Arab Lives Don't Matter](#)

By [Kurt Nimmo](#), June 10, 2020

While BLM and identity activists dwell in OCD fashion on racist cops and “white privilege,” they completely ignore the organized mass murder of black- and brown-skinned people by a government that now “takes a knee” for a former criminal, beatified as a saint by the state and its propaganda media. Those responsible for the murder of George Floyd will undoubtedly spend years behind bars, as they should, but this will not quell the outrage and violence committed in his name.

[We Don't Need No Stinking Vaccine for COVID-19](#)

By [Jeff Harris](#), June 10, 2020

So if our lifestyle is very, very important to staying healthy as the good doctor says ask yourself this question? Based on the Web M.D. article virtually all the results of the lockdown serve to weaken our immune systems. The stress of unemployment, constant harping about infections and rising death rates, lack of exercise and now a crack in our food distribution system all are known to weaken the human immune system.

[Now Comes the Davos Global Economy “Great Reset”. What Happens After the Covid-19 Pandemic?](#)

By [F. William Engdahl](#), June 10, 2020

On June 3 via their website, the Davos World Economic Forum (WEF) unveiled the outlines of their upcoming January 2021 forum. They call it “The Great Reset.” It entails taking advantage of the staggering impact of the coronavirus to advance a very specific agenda. Notably enough, that agenda dovetails perfectly with another specific agenda, namely the 2015 UN Agenda 2030. The irony of the world’s leading big business forum, the one that has advanced the corporate globalization agenda since the 1990s, now embracing what they

call sustainable development ,is huge. That gives us a hint that this agenda is not quite about what WEF and partners claim.

[Militarized Police, A Gift from Israel?](#)

By [Philip Girdali](#), June 10, 2020

The killing of black man George Floyd by white Minneapolis police officer Derek Chauvin has produced the highest level of national unrest seen in the United States since the 1960s. Tens of thousands of protesters are demonstrating against racism and perceived police brutality. As it also comes at a time of coronavirus pandemic and record unemployment, it has the potential to change the U.S. in fundamental ways. The core issue is that many on the left, as well as some on the right, see America's police as something like an "occupying force," increasingly self-serving enemies of the people rather than careful protectors of the taxpayers' lives and property.
