[The 'Twitter Papers' Reveal the Totalitarians Among Us](#)

By [Rep. Ron Paul](#), December 06, 2022

I admit to being skeptical of Elon Musk as a free speech hero. He has moved from one US government-subsidized business to another on his path to becoming the world's richest person. But there is no denying that his release of the "Twitter Papers" this past weekend, which blew the lid off government manipulation of social media, has been a huge victory for those of us who value the First Amendment.

By [Peter Koenig](#), December 06, 2022

The film based on the book of the same title, was released in the US in 1984, here available on Youtube in its original format. You [can watch here](#) or right below. Watching it gives you a similar impression as listening to and watching the 2022 World Economic Forum (WEF), that played out in Davos, Switzerland, from 23 – 26 May 2022. It displayed a dystopian world, where war is peace and peace is war, where lies are propagated 24/7, so you believe they are the truth, and when you finally look the truth into the eyes, you laugh, because it's so incredible, that you believe it is just another lie. We are living right in 1984.
