Global Research, September 09, 2011

6 September 2011

September 11, 2001 provided a justification for waging a war without borders. Washington's agenda consists in extending the frontiers of the American Empire to facilitate complete U.S. corporate control, while installing within America the institutions of the Homeland Security State.

With the 10 year anniversary of 9/11 fast approaching, Global Research wants to let our readers know how they can participate in commemorative conferences and get more information on the event which so drastically affected the course of geopolitics, global militarization and international law in the last ten years.

To understand the complex web of deceit aimed at luring the American people and the rest of the world into accepting a military solution which threatens the future of humanity, get your copy of the international bestseller:

 *America's "War on Terrorism"* by Michel Chossudovsky

In this expanded edition of Michel Chossudovsky's 2002 best seller, the author blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by "Islamic terrorists". Through meticulous research, the author uncovers a military-intelligence ploy behind the September 11 attacks, and the cover-up and complicity of key members of the Bush Administration.

Reviews

"Chossudovsky starts by dispelling the fiction that the US and Al Qaeda have been long-term adversaries. [He] also probes US oil policy, which is obviously of particular concern to George W. Bush. Chossudovsky argues that the US has a much different relationship between Russia and China than is ever indicated in the mainstream (or progressive) press. Simply put, the US is moving into the countries which neighbor Russia and China in order to plunder natural resources and expand the reach of the US Empire. Pakistan's Directorate for Inter-Services Intelligence (ISI) has been playing a key role in destabilizing the region as well as offering support in other intelligence matters... War and Globalization is full of surprises, even for those of us who consider ourselves well-informed. Chossudovsky is examining the

true nature of US foreign policy and arguing that the terrible events of 9/11/01 have changed little of it... Material this provocative and well-researched is ignored by the left at great peril."

- Scott Loughrey, *The Baltimore Chronicle & Sentinel*

"Canadian professor of economics Michel Chossudovsky contains that rare gift of a writer who can compile massive documentary evidence, then propound it in a succinct, lucid manner. In this illuminating work the host of the critically acclaimed Global Research website takes widely acclaimed and often repeated media assumptions and sharply refutes them, providing a chronology and road map behind 9-11 and related events... A large part of the book involves a necessary topic area that has been nervously glossed over by conventional American media sources for good reason; it hits too close to home and indicts the largest international energy conglomerates. The author spends much time examining the link between big oil and public policy. In terms of providing vital information, this compact volume provides more valuable information in one chapter than so many contemporary volumes do with many pages on 9-11 and related events... Chossudovsky demonstrates that the frequently repeated and fallacious Bushie shibboleths of getting Saddam before he gets us are rhetorical sallies designed to inflame public opinion by skirting around the important truths that only a few courageous authors such as himself dare reveal... Its bullseye clarity cuts through the morass of Bush verbage, daring readers to examine the pure, unvarnished truth of a nation using its military and intelligence capabilities to control the global oil market on the pretext of making the world a safer place."

- William Hare, *Florida United States*

Michel Chossudovsky is the author of the international best-seller "The Globalization of Poverty " published in thirteen languages. He is Professor of Economics (emeritus) at the University of Ottawa and Director of the Center for Research on Globalization which hosts the critically acclaimed website: www.globalresearch.ca. He is also a contributor to the Encyclopaedia Britannica.
