eric\_j\_carlson Rest in Peace, my friend. Margot Muraszkiewicz passed away from complications with the ALS that she had been bravely battling. The second day I was ever on any set (Body of Proof) I was asked to replace a lead SI. I had no idea what a SI was. She told me, "Don't worry, I got you." And proceeded to give me the run down to get me through the day. We both stayed the season and became good friends. We stayed in touch when she moved with the production to Hollywood and then continued to SI for Jeri Ryan in all the new Star Trek stuff. And all the time we cheered for Tom Brady and the Boston sports teams together on FB because we were alone in that department in NY and LA. Beautiful, smart (Brown U) wonderful woman that had a positive impact on my life.

Rest well, beautiful Margot. ❤️  
Thank you from the bottom of my heart to  
all of you who donated to her GoFundMe.

### Today

by Joel Silberman, Organizer

Trek Family and Friends,

I am sad to share that Margot passed away on November 15th from complications of her illness. In the end, blessedly, it was a peaceful passing.

Please know that while saving her life from this illness was never possible, this community made the last year of it infinitely more livable than it would have been otherwise. I truly don't know what she and the people who loved her would have done without you all, and we are eternally grateful. We will be publishing a proper obituary soon and posting a link to it on [TrekAgainstALS.com](http://TrekAgainstALS.com), but we wanted to get a note up now in case there are contributors who knew her personally who we haven't otherwise been able to reach.

We are planning a virtual memorial so that people from all over the world can participate. If anyone who knew her would like to attend, please reach

[Oct. 2022](#) – She had been diagnosed in October 2022 and was given a prognosis of 2-3 years but died only 1 year later.

## Trek Against ALS

October 6th, 2022

 **Team fundraiser**

Joel Silberman and 2 others are organizing this fundraiser.

This is Margot. Margot is part of the STAR TREK family, having worked with Jeri Ryan as her stand-in on the last two seasons of STAR TREK: PICARD. Margot was recently diagnosed with Bulbar Onset ALS, a rapidly advancing form of ALS. In a matter of weeks, she went from living a normal life to having serious difficulty using her hands, speaking, and swallowing.

**Unfortunately, Margot's prognosis is 2-3 years.** Due to her growing inability to use the muscles in her body, she is unable to work and needs financial help to cover medical costs and living expenses as she prepares for the final years of her life.

The Trek community is coming together to ensure that Margot is able to live a happy, comfortable life as she faces this disease, as well as create a sizable donation to the ALS Association so that we can find a cure to this terminal disease and end the suffering it causes once and for all.

Please join us in helping Margot and our fight against ALS by donating to this cause and sharing it with others. The money donated to this gofundme will be placed in an account managed by Margot's dear friend Joel, the funds of which Margot and the ALS Association will both be beneficiaries.

Live Long and Prosper.

Nov. 6, 2023 – NY – Kevin Grimmer, SUNY Basketball Coach, died after recent diagnosis of ALS (credit: Resilient333 on X).

# Former Hamilton College athlete, longtime SUNY Poly coach, official Grimmer dies: 'He's a special person'

By Ben Birnell | Sports writer | BBirnell@RNYmedia.com Nov 6, 2023 0

Kevin Grimmer was a longtime coach and administrator at SUNY Poly. He was also a standout athlete at Notre Dame in Utica, as well as at Hamilton College. (Photo courtesy of SUNY Poly athletics)

NEW HARTFORD — Kevin Grimmer made his mark on the Mohawk Valley as a standout athlete, coach and administrator.

Grimmer, who was a star basketball player at Notre Dame High School in Utica and Hamilton College before transferring his skills to coaching as well as an administrator at SUNY Institute of Technology/SUNY Polytechnic Institute, died Monday. Grimmer, who was 64 years old, had been recently diagnosed with ALS, the rare neurodegenerative condition also known as Lou Gehrig's disease.

Longtime Notre Dame basketball coach Mike Durr said Grimmer was a "lifelong friend" and colleague. They played basketball together through grammar school and high school and later against each other at the college level. They were in each other's weddings, Durr said.

"Obviously, athletics was a huge thing his whole life," Durr said Monday in a telephone interview with the Daily Sentinel after traveling to the Mohawk Valley from out-of-state. "But, I think his legacy is that he always put his family first. His wife and his kids and his grandkids were the world to him."

Nov. 6, 2023 – 72 year old Carl Torbuch, college football coach, died a week after diagnosed with ALS.

When ETSU planned to reinstate football in 2013, Head coach Carl Torbush joined the Buccaneer family. He remained head coach until 2017, when he retired from the coaching profession.

Coach Torbush was a fan of many sports. As an athlete, his favorite was baseball. In his youth, he played with the Kansas City Royals rookie league team for a summer and continued playing baseball all his life.

Torbush passed away on Monday, Nov. 6, at the age of 72.

"Coach Torbush was a classy guy. I knew him for a long time, being from Jefferson City. He actually did his student teaching for my dad at the old Jefferson High School. There wasn't a time that I saw Coach that he didn't talk about how my dad swung the meanest paddle he'd ever seen," shared current head coach George Quarles.

"Coach was one of those guys who loved people and obviously was a great football coach that did it for a long time at a high level. It's a sad day because of the great impact he had on so many people. It was a life well lived for sure."

Torbush was a beloved and well-accomplished coach across all collegiate football. He held coaching positions across multiple universities like Ole Miss, the University of Alabama, Texas A&M, and the University of North Carolina, where he worked his way up the ladders to become head coach for the Tar Heels. Afterward, he came to East Tennessee State University.

#### Staff report

Carl Torbush, who grew up in East Spencer, died in his sleep on Sunday night.

He was 72 and had been diagnosed last week with ALS.

Oct. 25, 2023 – 47 year old Abdel Kharrazi, Moroccan professional soccer player, died from ALS on Oct. 25, 2023.

## Abdel Kharrazi Cause Of Death, Wife, Children, Net Worth, Illness

by Mary / October 27, 2023 / Celebrity

Abdel Kharrazi was brought forth into the world on September 20, 1976 and lived 47 years until passing away on October 25, 2023.

Kharrazi had following his birth grown to establish himself in a career as a Moroccan footballer. He had over the course of his career played in the position of a defender.

Kharrazi hailed from Errachidia, Morocco, his place of birth and passed away in Sète, France.

Oct. 7, 2023 – Cincinnati, OH – 59 year old teacher Tracy Ann Glick died suddenly after a “short battle with ALS.”

## Tracy Glick Obituary

Obituary published on Legacy.com by Arlington Memorial Gardens Funeral Home & Crematory on Oct. 17, 2023.

Tracy Ann Glick passed away on October 7, 2023, after a short battle with ALS, at the age of 59. Born on July 13, 1964, in [Cincinnati, Ohio](#), Tracy brought light and warmth to the lives she touched throughout her journey.

Tracy dedicated her life to education, channeling her passion for teaching into a career that positively impacted countless young minds. With a master's degree in education, she found her calling as an educator. Her unwavering dedication and patient nature made her a cherished mentor to her students, leaving an indelible mark on their lives.

Outside of her professional life, Tracy was a deeply loving and compassionate individual, demonstrating her immense capacity for forgiveness and understanding. She found solace in her family, cherishing the bonds she shared with her son, Jake Watters, her daughter in love, Leslie Watters, and her siblings, Alison Glick, Leslie Parsons, Craig Glick, and Jan Amshoff. Tracy delighted in the joys of her grandchildren, Ethan Watters, Kierstin Bruner, and Aiden Bruner, showering them with endless love and affection.

Tracy had a creative spirit and a love for the written word. She expressed her imagination and warmth through writing children's books, inspiring her grandchildren and everyone with whom she shared her stories.

Oct. 6, 2023 – Atlanta, GA – 57 year old Jim Poole, former MLB Baseball Pitcher died on October 6, 2023 from “complications of ALS” diagnosed 2 years earlier.

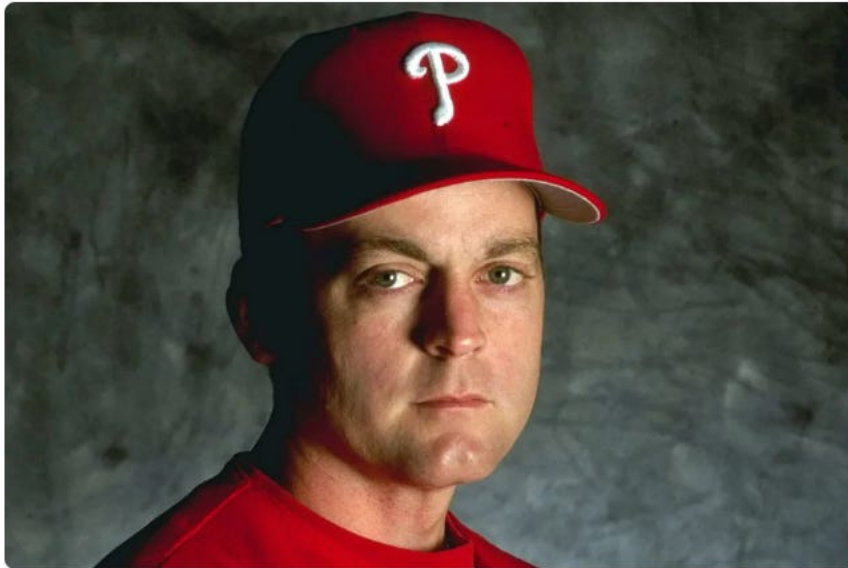

## Jim Poole, Former MLB Pitcher, Dead at 57: 'He Is and Will Remain an Inspiration'

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin*
