HEARTBREAKING tributes have been paid to a "beautiful" young Scots YouTuber who died suddenly at the weekend.

Nicole McGuire, from [Glasgow](#)'s Southside, passed away on Saturday afternoon aged just 26.

She was known online as Nicoleeo where she had gained a following as a YouTuber as well as producing content for [BBC](#) The Social.

A talented video editor, Nicole would use her colourful platform to discuss gaming and her passion for Korean pop music - known as K-pop.

Her grief-stricken mother Laura McGuire, 45, told to the Scottish Sun Online that her daughter was her "shining star."

In a touching tribute, her mum said: "My heart is breaking and our lives will never be the same again without Nicole."

Sep. 29, 2023 - Bolivian model, 28 year old Mayra Copas, was diagnosed with pancreatic cancer in October 2022. She died 11 months later on Sep. 29, 2023.

"Lost the battle against cancer": Exmiss Santa Cruz Mayra Copas passed away

The 28-year-old mother fought for almost a year against the diseases that affected her.

This Friday, September 29, sad news was released, the former Santa Cruz Mayra Copas lost the hard battle it faced against **pancreatic and lupus cancer**. The 28-year-old mother battled for almost a year, for her little ones, but her body did not resist it.

She was diagnosed in October 2022 with autoimmune disease after bowel surgery. With a force that only mothers can show, **she tried to overcome the diseases that afflicted her**.

Even though his body did not allow it, **Mayra's spirit fought for her three children of 8 years, 7 years and the youngest of only 1 year**. The beauty exreina spent several months in intensive care.

The tragic news was confirmed by her mother Julia Gaby Sadud, who burst into tears when she announced that her beloved daughter left this world. **The Santa Cruz population accompanied Mayra on her pilgrimage, in a noble objective that was not fulfilled.**

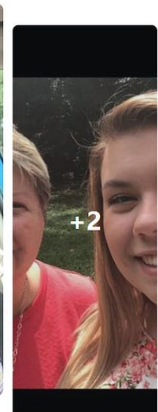

Sep. 28, 2023 – Cookeville, TN – 24 year old Autumn Rhea Brown had difficulty breathing and died unexpectedly from a blood clot in her lung (pulmonary embolism) on Sep. 28, 2023.

Many of you may have already heard our heartbreaking news, that last Thursday, Sept 28, we lost our baby girl, Autumn Rhea Brown. Autumn was in Texas with her boyfriend at the time. She experienced difficulty breathing and called 911, but unfortunately she passed away on the way to the hospital from a blood clot to her lung. It's the phone call no parent ever wants to receive, when the doctor who attended to her called and told me this devastating news. Randy and I are **still trying to come to terms with losing her, she just turned 24 on Sept. 9th**, and passed away on Randy's birthday. We are trusting that God will shower our family with comfort and peace, as we try to make arrangements. She was cremated and we will have a service at a later date. Your prayers and concern for all of us during this time means the world to us. Several have asked how they can help, and a family friend has set up a GoFundMe for final expenses if you would like to donate. The link to that site is : www.gofundme.com/f/in-memory-of-Autumn-Brown. We appreciate all of you keeping us close in your thoughts and prayers as we try and get through this difficult journey.

On Sunday evening she had gone to the emergency room of the Santissima Trinità hospital in Cagliari, accusing severe stomach pain. After a visit, the doctors gave her therapy and after a few hours they discharged her. Then on the morning of Monday 25 September a new illness and the phone call to 118 to request the intervention of the ambulance. That may have been the last call for Nicoletta Maria Manconi, the 24-year-old girl died before arriving at the Brotzu hospital. The student of the last year of Medicine in Cagliari, originally from Orgosolo, went into cardiac arrest during the ambulance trip to the hospital.

A tragedy that shocked the 24-year-old family, who died less than 12 hours after resigning from the hospital, where she had gone to be treated. Nicoletta's parents reported the story to the judiciary: on the case, the Cagliari prosecutor opened an investigation for manslaughter. The authorities have

Der 15.08.2023 veränderte unser ganzes Leben.

Unsere Tochter Lea-Josephine (21) erlitt am 15.08.2023 einen schweren Herzinfarkt, somit veränderte sich unser ganzes Leben.

Sie musste viele Operationen durchstehen, bis ihr kleiner Körper es nicht mehr schaffte diese ganzen Schmerzen zu überstehen.

Am 23.09.2023 verstarb Sie dann im Krankenhaus.

August 15, 2023 changed our entire lives.

Our daughter Lea-Josephine (21) suffered a serious heart attack on August 15, 2023, which changed our entire life.

She had to go through many surgeries until her little body could no longer handle all the pain.

She then died in the hospital on September 23, 2023.

Sep. 22, 2023 - Union, OH - 27 year old Lacey Hite (Medical Lab Technician) mandated to take COVID-19 mRNA Vaccines by her employer, collapsed hours before her wedding and died suddenly on Sep. 22, 2023.

My sweet and beautiful cousin [Lacey Hite](#) passed away completely unexpectedly yesterday afternoon. I wish I would have spent more time with her as an adult but I will forever cherish all the memories of when we were growing up.

I am completely devastated for my Aunt, her brothers and her fiancé whom she was supposed to marry just hours before she collapsed.

I pray she has found her peace and reunited with her Dad who just passed 6 months ago. Please continue to pray for my Aunt, her brothers and Fiancé. 🙏

Rest in Heaven Sweet Angel. 💖🕊️

The Mail reports that Ms Johnston had recently married her husband, Jesse, in 2022 and that the couple had been through two rounds of IVF before she became pregnant.

On May 19, after 25 hours of labour, she gave birth to her daughter Billy Mae. In the aftermath, midwives discovered a polyp on her cervix.

Tragedy as young mum, 29, dies months after giving birth to baby girl

Taylor Johnston, from Australia, was just 29 when she died from cancer on September 18, four months after giving birth to her baby Billie Mae.

A mum has tragically died just months after giving birth to her daughter through IVF.

Taylor Johnston, from Australia, was just 29 when she died from **cancer** on September 18, four months after giving birth to her baby Billie Mae.

Ms Johnston, who lived in Victoria's Mornington Peninsula, was told just 10 days after Billie's birth that she might have **cervical cancer**, a diagnosis that was later confirmed.

Ms Johnston's death was announced via a GoFundMe page set up by her family who said their "beloved Taylor" had "gained her angel wings".

On May 19, after 25 hours of labour, she gave birth to her daughter Billy Mae. In the aftermath, midwives discovered a polyp on her cervix.

Ten days later they were told it was cervical cancer and soon after Ms Johnston was told it had spread to her bone marrow.

As a result, Ms Johnston began chemotherapy soon after giving birth, a treatment which meant she was unable to have her daughter by her side.

Furthermore, due to the severe nature of her condition, testing to find out where the **cancer** had come from had to be abandoned to maximise the chemotherapy.

Sep 15, 2023 08:05 - Pasqualino Trubia

Trinità D'Agultu, 15 September 2023 - A young life broken too early. Ambra Deledda, 28, a beloved kindergarten teacher in the Gallura municipality, was found lifeless in her home in Cala Rossa. An unexpected tragedy that has left an unbridgeable void in the community and in the hearts of those who knew it. It was a night like many others, but that night brought with it a bitter surprise for Ambra's companion, who made the painful discovery in their home in Trinità D'Agultu. The carabinieri intervened and, although the first indications suggest that the death occurred due to natural causes, an autopsy was ordered. The young woman's body was then transferred to the Sassari hospital for the necessary investigations. Ambra, originally from Viddalba, it was a face known and appreciated not only in Trinità D'Agultu but throughout Gallura and Sassarese. His sunny personality and contagious smile had conquered everyone. His passion for teaching and love for children made him a constant and reassuring presence in the

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
