Hear the cries of Aleppo dying? No?? Where is the outcry to save these people? All of the notorious empire-serving human rights organizations and the corporate media are silent, deliberately ignoring the plight of the people in Aleppo, Syria. The FUKUS axis is perpetrating a human disaster by arming and supporting terrorists within Syria who have cut off water and electricity to the people of Aleppo.

What comes to them as second nature is the commission of war crimes against civilian populations to “break their backs.” Under the 1949 Geneva Convention, collective punishment is a war crime. Article 33 of the Fourth Convention states: “No protected person may be punished for an offense he or she has not personally committed.”

Now if these terrorists are fighting for the people, as corporate western media claims, as Obama, Kerry and company claim, if these wrongly identified as “rebels” are part of the people and not foreign invaders, why are they creating a humanitarian disaster among the people? Obviously, they don’t care about the people. They only care about collecting their money as proxies of the cursed empire.

John Kerry, Barack Obama and Victoria Nuland are all lying sacks of trash, as we witnessed in Kiev and Southeastern Ukraine when their fascist Nazi proxies fired upon civilians with military hardware and burned Odessa residents in the Trade Union building. They perpetrated the violent overthrow of the democratically elected government of Ukraine, burning alive the police and firing upon civilians in a false flag operation.

It is time for the world to tell these sadistic, demonic cretins to shove their lies back into their duplicitous, hypocritical faces. They have massive amounts of innocent blood on their hands. Global domination is their only cause, forget the nonsense about freedom and democracy, they are the antithesis of the same.

The main source of drinking water in Aleppo, the Suleiman al-Halabi station, has been cut off for the whole city by FUKUS axis sponsored terrorists for over 10 consecutive days, sending water to Quiq River and wasting it to prevent citizens from having clean water.

Citizens of Aleppo, including children, have been seen desperately trying to collect stagnant water that is dirty and contaminated. This will lead to the spread of disease.

Water is one of the nature’s most essential gifts to mankind. The basic need for survival of the human being is water, even more so than food. Water is life. It is important for the sustenance and growth of human beings, as well as of all animals and plants. Our body needs water in many different forms in order to keep functioning. Clean water is absolutely essential for healthy living. I have seen estimates from 3 days to two weeks for how long a

human being in decent health can survive without water.

Dysentery, Cholera, severe diarrhea, Hepatitis A and lead poisoning, are among the diseases caused by drinking dirty, polluted water.

US half wits want everyone that won't obey American demands to be killed. US demonic monsters have murdered millions of women and children all across the globe. That such psychopathic creatures were born and live among human beings is unfathomable. That they find so many willing stooges and proxies to do their dirty work is even more unfathomable. They seem to have an endless supply. There is no terrorist or fascist they will refrain from using in order to achieve their nefarious goals.

In letters sent to the UN Secretary-General and the UN Security Council's President, the Syrian Foreign Ministry said that terrorists have been "punishing three million persons because they renounced the crimes committed by the terrorists, adding that this act is yet another crime committed by the terrorist groups against the city's civilians."

Aleppo civilians have been targeted for many months, with mortar and rocket shells which claimed the lives of hundreds of civilians, in addition to having supply lines cut off into the city to prevent food and medicine from being delivered to the citizens. Now water and electricity are cut off to the whole city.

Why is the world is silent as Aleppo slowly goes silent due to thirst and dehydration? There are about 3 million people without water in one of Syria's oldest cities.

The Russian Foreign Ministry condemned expanded US sanctions against Syria as "rude" and being imposed in violation of international law. This all occurs in the backdrop of a recent agreement for terrorists to withdraw from Homs...and just like magic, there is peace and rebuilding of the city without their presence.

Washington ignores the bloody, horrendous crimes of the terrorists in Syria, while punishing Syrian ministers whom it charges with allegedly escalating violence in the country.

We are entering a particularly interesting period of time where the cursed empire is no longer able, due to technology, to hide the crimes it commits or is complicit in. Let their "darling rebels" be put on notice that the world is watching, just like they were watching Odessa and Mariupol, and if they continue their crimes against humanity, they will pay the price. There is no immunity for such horrendous crimes against humanity, as established at Nuremberg, along with no statute of limitations. They will be found in whatever hole they choose to crawl into. You too, Obama, Kerry, Nuland!
