*More fabricated photos (see info-graphic) have been used by al Qaeda groups and western media in the dirty war on Syria, the residents of the town of Madaya have been used as human shields by NATO backed terrorists*

Those same gangs used recycled photos to blame the Syrian Army and Hezbollah of starving civilians these photos are from from other years and other places

Several villages are in this stand-off situation, where both sides need to clear the way for aid convoys

Fortunately, on 8 January aid convoys broke through, reaching Madaya.

**The real story**

**89 year old man in Madaya:**  
 "The *mu3arada* ['rebels'] are trading in peoples' blood. They are the ones taking all the rice, then selling it for 80-90 notes ... cigarettes for 5,000 lira; a chocolate bar for 5,000 lira. And they butchered our children! Burned our trees! They caused all this. When aid arrived they stole it and are selling at high prices."
