In-depth Report: [SYRIA](#)

The authorities concerned in Sweida, in cooperation with the locals, seized on Sunday a vehicle loaded with large amounts of arms and ammunition in the western countryside of the southern province.

A source at Sweida Governorate told SANA that the vehicle was heading to the terrorist organizations operating in the eastern countryside of the neighboring Daraa province.

The arms and ammunition which were confiscated included 7 Israeli-made anti-tank rocket launchers, 62 shells, 128 RPG shells of different kinds, 43 120 mm mortar rounds, 42 82 mm mortar rounds and 100 23 mm machinegun bullets.

Earlier on Saturday, the authorities, in cooperation with the popular committees, seized hundreds of U.S. and Israeli-made anti-tank mines loaded in a pickup in the western countryside of Sweida. The weapons were bound for the terrorists in eastern al-Badiya (desert).

On January 20th, the authorities in Sweida foiled an operation to smuggle a large quantity of ammunition for medium-sized and heavy weapons from eastern Daraa to terrorist organizations in al-Badiya.
