In-depth Report: [IRAN: THE NEXT WAR?](#)

Several ex-CIA officers including Robert Baer and Ray McGovern with inside information on the plans of the White House strategists have recently raised the [alarm](#) that the Bush administration is intent on waging a military attack against Iran in a few months. Only mass action can stop a catastrophic new war in the Middle East which would dwarf the permanent carnage the US and the UK and their allies have created in Iraq.

As in the run-up to the illegal invasion of Iraq in 2003, the drumbeats of the march to war against Iran are pounded into the US public by the neo-conservative cheerleaders of the FOX news network.

The Campaign Against Sanctions and Military Intervention in Iran calls on all its supporters and the international community to sign the [on-line petition](#) to urge major media networks not to follow FOX down the road to war against Iran.

Please take a few minutes to watch the video and sign the petition, and ask all your friends and contacts to do the same. In the US we also urge you to contact all your [local advertisers](#) on FOX and ask them to support this campaign.
