The CIA created and accumulated from other sources a huge array of malware and cyber attack capability capable of stealing information from any individual, any government, any corporation, any intelligence agency and either leaving no trace or leaving a “fingerprint” of an innocent party.

The CIA, being arrogant and incompetent, lost control over its monster which escaped and now is in the hands of we know not who. Floating around the Internet, it was sent to WikiLeaks.

The prostitute media’s response was not outrage over the CIA’s criminal behavior, compounded by its incompetence in failing to keep the package from escaping. Rather, the US media turned on Julian Assange for making known what we need to know.

Brian Ross, the chief prostitute at ABC, wanted to know if WikiLeaks took money from Russia. Andrea Mitchell, faithful to the CIA, quickly got former CIA director Michael Hayden on TV to agree with her that “Wikileaks has struck again” and revealed information damaging to the US about the CIA’s foreign intelligence operations. You can see what a great lie Andrea and Hayden have conspired to tell by listening to Assange explain the information delivered into his hands.

The American print and TV media are servants of the police state. This makes the US media the principal threat that Americans face. The US media is the handmaiden of war, the police state, lies, and evil. The prostitutes have no shame over their lack of integrity and the risk of thermo-nuclear war to which they expose humanity.
