We are at the crossroads of one of the most serious crises in World history. We are living history, yet our understanding of the sequence of events since January 2020 has been blurred.

Worldwide, people have been misled both by their governments and the media as to the causes and devastating consequences of the Covid-19 “pandemic”.

Below is a detailed Timeline

For further details see Chapter II of Michel Chossudovsky’s E Book (13 Chapters) entitled

[The 2020-21 Worldwide Corona Crisis: Destroying Civil Society, Engineered Economic Depression, Global Coup d’État and the “Great Reset”](#),

To access the E-Book click the link above

The Covid-19 Timeline

.

Prior to January 2020

August 1, 2019: Glaxo-Smith-Kline (GSK) and Pfizer announce the establishment of a corporate partnership in Consumer Health Products including Vaccines.

September 19, 2019: The ID-2020 Alliance. Establishing a Vaccine Digital Passport

GAVI held their Summit in New York, entitled “Rising to the Good ID Challenge”. The focus was on the establishment under the auspices of GAVI (Alliance for Vaccine Identity) of a vaccine with an embedded digital passport. The stated objective was the creation of a [global digital data base](#).

“[Digital ID is being defined and implemented today](#), and we recognize the importance of swift action to close the identity gap,” said Dakota Gruener, executive director of ID2020:

[“With the opportunity for immunization to serve as a platform for digital identity](#), the program harnesses existing birth registration and vaccination operations to provide newborns with a portable and persistent biometrically-linked digital identity. The program will also explore and assess several leading infant biometric technologies to offer a persistent digital identity from birth ...

“We are implementing a forward-looking approach to digital identity that gives individuals control over their own personal information, while still building off existing systems and programs,”

October 18, 2019. Event 201. The 201 Pandemic Simulation Exercise

The coronavirus was initially named [2019-nCoV by the WHO](#), the same name (with the exception of the placement of the date) as that adopted at [the October 18, 2019 201 Simulation exercise](#) under the auspices of the John Hopkins Bloomberg School of Health, Centre for Health Security (an event sponsored by the Gates Foundation and World Economic Forum).([Event 201](#))

“A Global Pandemic Exercise”

“In October 2019, the Johns Hopkins Center for Health Security hosted a pandemic tabletop exercise called [Event 201](#) with partners, the World Economic Forum and the Bill & Melinda Gates Foundation. ... For the scenario, we modeled a fictional coronavirus pandemic, but we explicitly stated that it was not a prediction.

Instead, the exercise served to highlight preparedness and response challenges that would likely arise in a very severe pandemic. We are not now predicting that the nCoV-2019 outbreak will kill 65 million people.

Although our tabletop exercise included a mock novel coronavirus, the inputs we used

for modeling the potential impact of that fictional virus are not similar to nCoV-2019. “We are not now predicting that the nCoV-2019 [which was also used as the name of the simulation] outbreak will kill 65 million people.

.Although our tabletop exercise included a mock novel coronavirus, the inputs we used for modeling the potential impact of that fictional virus are not similar to nCoV-2019.”

December 12, 2019 — “The Wuhan Municipal Health Commission claims this date to be the earliest original onset date of the 59 patients with unexplained viral pneumonia. ([Timeline and Early Chronology](#))

December 31, 2019: First cases of pneumonia of unknown cause detected in Wuhan, Hubei Province. reported to the WHO. “A total of 44 cases were reported: 11 patients are severely ill, [while the remaining 33 are in stable condition.](#)”

January 2020

January 1, 2020: Chinese health authorities close the Huanan Seafood Wholesale Market in Wuhan following Western media reports claiming that wild animals sold there may have been the source of the virus. This initial assessment was subsequently refuted by Chinese scientists.

January 7, 2020: The Chinese authorities “identify a new type of virus” which (according to reports) was isolated on 7 January 2020. No specific details were provided regarding the process of isolation of the virus. According to several scientists, the identity as well as the process of the isolation of the virus have not been confirmed. (For further details, see Chapter X). The number of cases is exceedingly low. “[44 cases of pneumonia](#) even though viral-specific nucleic acids were found in only 15 patients”. No evidence of an unfolding epidemic in China.

January 11, 2020 – The Wuhan Municipal Health Commission announces the first death caused by the coronavirus.

January 22, 2020: WHO. [Members of the WHO Emergency Committee](#) “expressed divergent views on whether this event constitutes a PHEIC [Public Health Emergency of International Concern] or not”. The Committee meeting was reconvened on January 23, 2020, overlapping with the World Economic Forum meetings in Davos (January 21-24, 2020). The small number of cases in China did not justify a PHEIC.

The meeting of the Emergency Committee convened by the WHO Director-General under the International Health Regulations (IHR) (2005) expressed divergent views on whether this event constitutes a PHEIC or not. At that time, the advice was that the event did not constitute a PHEIC, but the Committee members agreed on the urgency of the situation and suggested that the Committee should be reconvened in a matter of days to examine the situation further.

Video: click the lower right corner to access full-screen.

.

January 21-24, 2020: The Role of the World Economic Forum (WEF)

January 21-24, 2020: Consultations at the World Economic Forum, Davos, Switzerland under auspices of the Coalition for Epidemic Preparedness Innovations (CEPI) for development of a vaccine program. CEPI is a WEF-Gates partnership. With support from CEPI, Seattle based Moderna will manufacture an mRNA vaccine against 2019-nCoV,

“The Vaccine Research Center (VRC) of the National Institute of Allergy and Infectious Diseases (NIAID), part of NIH, collaborated with Moderna to design the vaccine.”

The evidence suggests that the 2019 nCoV vaccine project was already underway in 2019. (See Chapter VIII). It was officially announced at Davos, 2 weeks after the January 7, 2020 announcement by the Chinese authorities, and barely a week prior to the official launching of the WHO’s Worldwide Public Health Emergency on January 30.

The WEF-Gates-CEPI Vaccine Announcement precedes the WHO’s Public Health Emergency of International Concern (PHEIC).

[See WEF video](#)

Dominant financial interests, billionaire foundations and international financial institutions played a key role in launching the WHO Public Health Emergency (PHEIC).

In the week preceding this historic WHO decision. The PHEIC was the object of “consultations” at the World Economic Forum (WEF), Davos (January 21-24). The WHO Director General Dr. Tedros was present at Davos. Were these consultations instrumental in influencing the WHO’s historic decision on January 30th.

Was there a [Conflict of Interest as defined by the WHO](#)? The WHO’s largest donor is the Bill and Melinda Gates Foundation, which together with the WEF and CEPI had already announced in Davos the development of a Covid-19 vaccine prior to the historic January 30th launching of the PHEIC.

The WHO Director General had the backing of the Bill and Melinda Gates Foundation, Big Pharma and the World Economic Forum (WEF). There are indications that the decision for the WHO to declare a Global Health Emergency was taken on the sidelines of the World Economic Forum (WEF) in Davos (January 21-24) overlapping with the Geneva January 22 meeting of the Emergency Committee.

The WHO’s Director General Tedros was present at Davos 2020.

January 28, 2020: The US Centre for Disease Control and Prevention (CDC) [confirmed that the novel corona virus had been isolated](#). (See Chapter X of E- Book)

January 30, 2020: The WHO’s Public Health Emergency of International Concern (PHEIC)

The first stage of this crisis was launched by the WHO on January 30th. While officially it was not designated as a “Pandemic”, it nonetheless contributed to spearheading the fear campaign.

From the very outset, the estimates of “confirmed positive cases” have been part of a “Numbers Game”.

In some cases the statistics were simply not mentioned and in other cases the numbers were selectively inflated with a view to creating panic.

Not mentioned by the media: The number of “confirmed cases” based on faulty estimates (PCR) used to justify this far reaching decision was ridiculously low.

The Worldwide population outside China is of the order of 6.4 billion. On January 30, 2020 outside China there were:

83 cases in 18 countries, and only 7 of them had no history of travel in China. (see [WHO](#), January 30, 2020).

On January 29, 2020, the day preceding the launching of the PHEI ([recorded by the WHO](#)), there were 5 cases in the US, 3 in Canada, 4 in France, 4 in Germany.

There was no “scientific basis” to justify the launching of a Worldwide public health emergency.

Region of the Americas	United States of America	5
	Canada	3
European Region	France	4
	Germany	4

[Screenshot of WHO table, January 29, 2020,](#)

Those low numbers (not mentioned by the media) did not prevent the launching of a Worldwide fear campaign.

January 31, 2020: President Trump’s Decision to Suspend Air Travel with China

On the following day (January 31, 2020), Trump announced that he would deny entry to the US of both Chinese and foreign nationals “who have traveled in China in the last 14 days”. This immediately triggered a crisis in air travel, transportation, US-China trade relations as well as freight and shipping transactions.

Whereas the WHO “[did] not recommend any travel or trade restrictions” the five so-called “confirmed cases” in the US were sufficient to “justify” President Trump’s January 31st 2020 decision to suspend air travel to China while precipitating a hate campaign against ethnic Chinese throughout the Western World.

This historic January 31st decision paved the way towards the disruption of international commodity trade as well as the imposition of Worldwide restrictions on air travel. It was eventually instrumental to the bankruptcy of major airlines.

“Fake media” immediately went into high gear. China was held responsible for “spreading infection” Worldwide.

Early February 2020: the acronym of the coronavirus was changed from nCoV- 2019 (its name under the October Event 201 John Hopkins Simulation Exercise before it was identified in early January 2020) to SARS-nCoV-2. Covid-19 indicates the disease triggered by SARS-CoV-2

February 20-21, 2020. Worldwide Covid Data Outside China: The Diamond Princess Cruise Ship

While China reported a total of 75,567 cases of COVID-19, (February 20) the confirmed cases outside China were abysmally low and the statistics based in large part on the the PCR test used to confirm the “Worldwide spread of the virus” were questionable to say the least. Moreover, out of the 75,567 cases in China, a large percentage had recovered. And recovery figures were not acknowledged by the media.

On the day of Dr. Tedros’ historic press conference intimating that a pandemic was imminent (February 20, 2020) the recorded number of confirmed cases outside China was 1073 of which 621 were passengers and crew on the Diamond Princess Cruise Ship (stranded in Japanese territorial waters).

From a statistical point of view, the WHO decision pointing to a potential “spread of the virus Worldwide” did not make sense.

On February 20th, 57.9 % of the Worldwide Covid-19 “confirmed cases” were from the Diamond Princess, hardly representative of a Worldwide “statistical trend”.The official story is as follows:

- A Hong Kong based passenger who had disembarked from the Diamond Princess in Hong Kong on January 25 developed pneumonia and was tested positive for the novela coronavirus on January 30.
- He was reported to have travelled on January 10, to Shenzhen on mainland China (which borders on Hong Kong’s new territories).
- The Diamond Princess arrived at Yokohama on February 3. A quarantine was imposed on the cruiser [See NCBI study](#).
- Many passengers fell sick due to the confinement on the boat.
- All the passengers and crew on the Diamond Princess undertook the PCR test.
- The number of confirmed cases increased to [691 on February 23](#).

FIGURE 2

Infected Passengers and Crew Members on the Diamond Princess. (All Data Were Retrieved From Press Releases By the Ministry of Health, Labour and Welfare of Japan.⁶)

Scan Source: [NCBI Study](#)

Read carefully: From the standpoint of assessing Worldwide statistical trends, the data doesn't stand up. Without the Diamond Princess data, the so-called confirmed cases worldwide outside China on February 20th 2020 were of the order of 452, out of a population of 6.4 billion.

Examine the WHO Graph below. The blue indicates the confirmed cases on the Diamond Princess (international conveyance) (which arrived in Yokohama on February 3, 2020), many of whom were sick, confined to their rooms for more than two weeks (quarantine imposed by Japan). All passengers and crew took the RT-PCR test (which does not detect or identify Covid-19).

Needless to say, this so-called data was instrumental to spearheading the fear campaign and the collapse of financial markets in the course of the month of February 2020.

Other						
International conveyance [†] (Diamond Princess)	621 (79)	0 (0)	0 (0)	0 (0)	621 (79)	2 (2)

[†]Case classifications are based on [WHO case definitions](#) for COVID-19.

[‡]Location of transmission is classified based on WHO analysis of available official data and may be subject to reclassification as additional data become available.

[§]Cases identified on a cruise ship currently in Japanese territorial waters.

Figure 3. Epidemic curve of COVID-19 cases (n=1073) identified outside of China, by date of report and likely exposure location, 20 February 2020

WHO Director General Tedros Adhanom Announces that the Pandemic Is Imminent

February 20th, 2020: At a press conference on Thursday the [20th of February afternoon](#) (CET Time) in a [briefing in Geneva, the WHO Director General](#), Dr Tedros Adhanom Ghebreyesus, said that he was

“concerned that the chance to contain the coronavirus outbreak was “closing” ...

“I believe the window of opportunity is still there, but that the window is narrowing.”

There were only 1076 cases outside China (including the Diamond Press:

The data from China continue to show a decline in new confirmed cases. Once again, we’re encouraged by this trend, but this is no time for complacency.

Outside China, there are now 1076 cases in 26 countries, with a total of seven deaths.

[Screenshot, WHO Press Conference, February 20th, 2020](#)

Region of the Americas	
United States of America	15 (0)
Canada	8 (0)
European Region	
Germany	16 (0)
France	12 (0)
The United Kingdom	9 (0)
Italy	3 (0)
Russian Federation	2 (0)
Spain	2 (0)
Belgium	1 (0)
Finland	1 (0)
Sweden	1 (0)

Note: The tabulated data above for February 20, 2020 indicates 1073 cases. 1076 cases in WHO Press Conference)

These “shock and awe” statements contributed to heightening the fear campaign, despite the fact that the number of confirmed cases outside China was exceedingly low.

The February Financial Crash

February 20-21, 2020 marks the beginning of the 2020 Financial Crash (See Chapter IV of E Book)

Excluding the Diamond Princess, 452 so-called “confirmed cases” Worldwide outside China, for a population of 6.4 billion recorded by the WHO on February 20th, 15 in the US, 8 in Canada, 9 in the UK. (See table right, February 20, 2020). Those are the figures used to justify Dr. Tedros’ warnings: “the window is narrowing”:

A larger number of cases outside China were recorded in South Korea (153 cases according to WHO) and Italy (recorded by national authorities).

WHO data recorded on February 20, 2020, at the outset of the so-called Covid Financial Crash (right)

The statement by Dr. Tedros (based on flawed concepts, statistics and ridiculously low numbers), set the stage for the February financial collapse. (See Chapter IV).

February 24: Moderna Inc supported by CEPI announced that its experimental mRNA COVID-19 vaccine, known as mRNA-1273, [was ready for human testing](#).

February 28, 2020: [A WHO vaccination campaign was announced](#) by WHO Director General Dr. Tedros Adhanom Ghebreyesus.

More than 20 vaccines are in development globally, and several therapeutics are in clinical trials. We expect the first results in a few weeks.

It is worth noting that the campaign to develop vaccines was initiated prior to decision of the

WHO to launch a Global Public Health Emergency. It was first announced at the WEF meeting at Davos (21-24 January) by CEPI.

Early March: China: More than 50% of the infected patients recovered. A total of 49,856 patients had recovered from COVID-19 and were discharged from hospitals in China. (WHO).

What this means is that the total number of “confirmed infected cases” in China was 30,448. (Namely $80,304 - 49,856 = 30,448$ (80,304 is the total number on confirmed cases in China (WHO data, March 3, 2020). No evidence of a pandemic in China.

These developments concerning “recovery” were not reported by the Western media.

March 5, WHO Director General confirms that outside China there are [2055 cases reported in 33 countries](#). Around 80% of those cases were from three countries (South Korea, Iran, Italy).

March 7: USA: The number of “confirmed cases” (infected and recovered) in the United States in early March was of the order of 430, rising to about 600 (March 8). A rapid rise in covid positive cases was recorded in the the course of month of March.

Compare these figures to those pertaining to Influenza B Virus: The CDC estimated for 2019-2020 “at least 15 million virus flu illnesses... 140,000 hospitalizations and 8,200 deaths. ([The Hill](#))

March 7: China: No Pandemic in China. Reported new cases in China fall to double digit. [99 cases recorded on March 7](#). All of the new cases outside Hubei province were categorized as “imported infections”(from foreign countries). The reliability of the data remains to be established:

99 newly confirmed cases including 74 in Hubei Province, ... The new cases included 24 imported infections — 17 in Gansu Province, three in Beijing, three in Shanghai and one in Guangdong Province.

March 11, 2020: The Historic Covid-19 Pandemic, Lockdown, Confinement, Social Engineering, Closing Down of 190 National Economies

The WHO Director General had already set the stage in his [February 21st Press Conference](#) .

“the world should do more to prepare for a possible coronavirus pandemic”. The WHO had called upon countries to be “in a phase of preparedness”.

The WHO officially declared a Worldwide pandemic at a time when there were 118,000 confirmed cases and 4291 deaths Worldwide (including China). ([March 11, 2020, according to press conference](#)). What do these “statistics” tell you?

Globally

125 260 confirmed (6741 new)

4613 deaths (321 new)

China

80 981 confirmed (26 new)

3173 deaths (11 new)

Outside of China

44 279 confirmed (6915 new)

1440 deaths (310 new)

117 countries/territories/
areas (4 new)

The number of confirmed cases outside China (6.4 billion population) was of the order of [44279 and 1440 deaths](#) (figures recorded by the WHO for March 11, (on March 12) (see table right). These are the figures used to justify the lockdown and the closing down of 190 national economies.

(The number of deaths attributed to Covid-19 outside China mentioned in Tedros's press conference was 4291).

In the US, recorded on March 11, 2020, there were according to John Hopkins: 1,335 "cases" and 29 deaths ("presumptive" plus PCR confirmed). No evidence of a pandemic on March 11, 2020.

Immediately following the March 11, 2020 WHO announcement, the fear campaign went into high gear. (The economic and financial impacts are reviewed in Chapter IV)

March 16, 2020: Moderna mRNA-1273 is tested in several stages with 45 volunteers in Seattle, Washington State. The vaccine program started in early February:

"We don't know whether this vaccine will induce an immune response, or whether it will be safe. That's why we're doing a trial," Jackson stressed. "It's not at the stage where it would be possible or prudent to give it to the general population." ([AP](#), March 16, 2020)

March 18, 20. 2020. Lockdown in the United States

November 8, 2020. The Covid-19 Vaccine is launched

Mid to Late December 2020: Worldwide Implementation of the Covid-19 vaccine program

January 20, 2021. The WHO Confirms that the Covid-19 PCR Test is Flawed

What this implies is that the [estimate of Covid-19 cases are totally invalid](#)

For details see Chapter III of E-Book.

January 2021 Onwards): Rising trend in vaccine related deaths and adverse events.

May- June 2021; The Delta Variant and “The Fourth Wave” are announced.

The alleged dangers of the Delta Variant are being used to speed up the vaccination program as well as the imposition of the vaccine passport.

August- October 2021: The imposition of a vaccine passport in several Western countries.

The above text is based on Chapter II of Michel Chossudovsky’s E-Book (13 Chapters) entitled

[The 2020-21 Worldwide Corona Crisis: Destroying Civil Society, Engineered Economic Depression, Global Coup d’État and the “Great Reset”,](#)

About the Author

[Michel Chossudovsky](#) is an award-winning author, Professor of Economics (emeritus) at the University of Ottawa, Founder and Director of the Centre for Research on Globalization (CRG), Montreal, Editor of *Global Research*.

He has undertaken field research in Latin America, Asia, the Middle East, sub-Saharan Africa and the Pacific and has written extensively on the economies of developing countries with a focus on poverty and social inequality. He has also undertaken research in Health Economics (UN Economic Commission for Latin America and the Caribbean (ECLAC), UNFPA, CIDA, WHO, Government of Venezuela, John Hopkins [International Journal of Health Services](#) (1979, 1983)

*He is the author of twelve books including *The Globalization of Poverty and The New World Order* (2003), *America’s “War on Terrorism”* (2005), *The Globalization of War, America’s Long War against Humanity* (2015).*

He is a contributor to the Encyclopaedia Britannica. His writings have been published in more than twenty languages. In 2014, he was awarded the Gold Medal for Merit of the Republic of Serbia for his writings on NATO's war of aggression against Yugoslavia. He can be reached at crgeditor@yahoo.com
