

# The Health and Environmental Dangers of 5G Technology. A Lethal Multi-Trillion Dollar Operation

Imposed by some of the most powerful entities on the planet.

By [Claire Edwards](#) and [Philip A Farruggio](#)

Theme: [Intelligence](#), [Media Disinformation](#)

Global Research, December 22, 2019

*Claire Edwards in conversation with Phillip Farruggio of It's the Empire, Stupid talking about the dangers of 5G, 4G, 3G, all wireless technology and cell phones. Claire explains the history of electromagnetic radiation's health effects and how the US military has hidden the devastating biological effects from the public in order to be able to develop microwave weapons; how the TETRA communications system used by the police in the US and Europe is deleting their capacity for empathy and pushing them to rage and violence; the devastating health consequences of 25 years of cell phone use, including astronomical rates of autism; the true cause of colony collapse disorder and much more ...*

... Use of the TETRA system by the police will lead to psychotronically controlled officers who may be totally controlled in any situation and are very useful for states of economic or social chaos where extreme and violent behaviour is needed without any conscious or moral compunction – so-called police robots. 30,000 transmitters will be placed around the country to maximise the effects on the local UK population – mass mind control. ...

Operation Gladio

[Operation Gladio](#) is undisputed historical fact. Gladio was part of a post-World War II program set up by the CIA and NATO supposedly to thwart future Soviet/communist invasions or influence in Italy and Western Europe. In fact, it became a state-sponsored right-wing terrorist network, involved in false flag operations and the subversion of democracy ...

To bee, or not to bee, that is the [five "G" question](#) – Olle Johansson

[Cancer trends during the 20th century](#)

Skin melanoma is a cancer that started to explode in 1955 (see Figure 3). It is interesting to note that a similar steep increase in melanoma mortality was also reported from Queensland, Australia, when comparing 1951-1959 with 1964-1967.<sup>10</sup> This increase was related to the introduction of high power TV broadcasting transmitters. Skin melanoma has also been associated with the expansion of broadcasting networks in Sweden, Norway, Denmark and USA. Lung cancer has an almost identical development as melanoma has had in Sweden with a scale factor of 10 (see Figures 3 and 4). Breast, bladder, prostate, lung, colon and cutaneous melanoma cancers are all associated with each other. Figures 15-17 and ref. 11 relate melanoma to radio-frequency EMF.

Alternatives

[SafeG](#)

What is SafeG? SafeG means safe, fast, reliable, secure Internet and telecommunications services brought into our homes and businesses by wired technology. It means technology that safeguards our health, privacy and security and that evolves over time with the goal of reducing exposure to harmful wireless radiation.
