There's a nonsensical statement appearing in [The Washington Post](#) (November 23, 2022)

“a majority of Americans dying from the coronavirus received at least the primary series of the vaccine.”

Dying from Coronavirus?

We should question the validity of this statement. Amply documented, the official data pertaining to alleged Covid-19 deaths are totally invalid.

The official covid mortality data are routinely used to obfuscate the REAL CAUSES of vaccine related deaths.

“The More Often Than Not” Diktat

While the CDC acknowledged the issue of comorbidities, it nonetheless enacted totally invalid instructions with regard to the death certificates.

Barely a week following the historic March 11, 2020 lockdown, specific guidelines were introduced by the CDC pertaining to death certificates (and their tabulation in the National Vital Statistics System (NVSS)).

[According to the CDC](#)

“The underlying cause depends upon what and where conditions are reported on the

death certificate. However, the rules for coding and selection of the underlying cause of death are expected to result in COVID-19 being the underlying cause more often than not.”

The certifier cannot depart from the CDC criteria. COVID-19 is imposed as a “More Often Than Not” Cause. There are no loopholes. There is no Autopsy.

Two fundamental concepts prevail throughout:

1. The “underlying cause of death”
2. The “More Often than Not” clause which falsifies the cause of death

Will COVID-19 be the underlying cause?

The underlying cause depends upon what and where conditions are reported on the death certificate. However, the rules for coding and selection of the underlying cause of death are expected to result in COVID-19 being the underlying cause more often than not.

What happens if certifiers report terms other than the suggested terms?

If a death certificate reports coronavirus without identifying a specific strain or explicitly specifying that it is not COVID-19, NCHS will ask the states to follow up to verify whether or not the coronavirus was COVID-19. As long as the phrase used indicates the 2019 coronavirus strain, NCHS expects to assign the new code. However, it is preferable and more straightforward for certifiers to use the standard terminology (COVID-19).

The above criteria were imposed despite the fact that the RT-PCR test used to corroborate the “cause of death” provides misleading results as acknowledged by both the WHO and the CDC. (For more details see Michel Chossudovsky, [The Worldwide Corona Crisis, Global Coup d'état against Humanity](#), page 38)

The WP article comes up with totally contradictory statements after having acknowledged that “Vaccinated people now make up a majority of covid deaths”:

“Fifty-eight percent of coronavirus deaths in August were people who were vaccinated or boosted” says the Washington Post.

“Being unvaccinated is still a major risk factor for dying from covid-19. But efficacy wanes over time, and [an analysis](#) out last week from the Centers for Disease Control and Prevention highlights the need to get regular booster shots to keep one’s risk of death from the coronavirus low, especially for the elderly.”

Those deaths were not caused by Covid-19. The mRNA vaccine has resulted in an upward movement in mortality, which is NOT under any circumstances the result of alleged Covid-19 infections as outlined by the Washington Post.

The increase in mortality among the vaccinated confirms that the mRNA vaccine is a “killer vaccine”

Media Disinformation

The underlying objective of the mainstream media (in a roundabout way) is to obfuscate the REAL causes of vaccine related mortality while upholding the legitimacy of the mRNA

vaccine on behalf of Big Pharma.

Vaccinated people now make up a majority of covid deaths

by McKenzie Beard

Washington Post, November 23, 2022

It's no longer a pandemic of the unvaccinated.

For the first time, a majority of Americans dying from the coronavirus received at least the primary series of the vaccine.

Fifty-eight percent of coronavirus deaths in August were people who were vaccinated or boosted, according to [an analysis](#) conducted for The Health 202 by Cynthia Cox, vice president at the Kaiser Family Foundation.

It's a continuation of a troubling trend that has emerged over the past year. As vaccination rates have increased and new variants appeared, the share of deaths of people who were vaccinated has been steadily rising. In September 2021, vaccinated people made up just 23 percent of coronavirus fatalities. In January and February this year, it was [up to 42 percent](#), per our colleagues Fenit Nirappil and Dan Keating.

"We can no longer say this is a pandemic of the unvaccinated," Cox told The Health 202.

Being unvaccinated is still a major risk factor for dying from covid-19. But efficacy wanes over time, and [an analysis](#) out last week from the Centers for Disease Control and Prevention highlights the need to get regular booster shots to keep one's risk of death from the coronavirus low, especially for the elderly.

Anthony Fauci, the nation's preeminent infectious-disease expert, used his [last White House briefing](#) yesterday ahead of his [December retirement](#) to urge Americans to get the recently authorized omicron-specific boosters.

"The final message I give you from this podium is that please, for your own safety, for that of your family, get your updated covid-19 shot as soon as you're eligible," he said.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
