In-depth Report: [UKRAINE REPORT](#)

What happened on May 2nd of this year in Odessa, Ukraine, was a complex event that has been glossed over by most news sources. The US corporate coverage has been criminal in its demonization of anti-Maidan/anti-coup activists. The propaganda narrative has even attempted to blame the victims for starting the fires that allegedly killed them. This is two levels removed from reality, and perhaps even three.

Much more information is available than has been reported in America's criminally-complicit mainstream news. But even alternative journals have failed to pursue the most damning, morally repugnant aspect to this story: *who started the violence, and why?*

When a massacre happens the horrors of the atrocities tend to distract the public's attention from the details of how it came to be in the first place. This is known to provocateurs, be they in Kiev, Moscow or in Langley Virginia. Langley is the home base of the Central Intelligence Agency, of course. The CIA director visited Kiev, confirmed by the White House on April 15th, and "[dozens](#)" of [CIA agents](#) are reported to be in Ukraine "advising" the unelected coup regime as I type this.

On May 2nd a series of events occurred that can be pieced together from the numerous videos and photographs. These show undercover police provocateurs dressed up as anti-Maidan/pro-Russian activists, but these are coordinated by a uniformed officer. The officer is identified, at [Oriental Review](#), as "Odessa Interior ministry branch Colonel Dmitry Fucheji."

[Confirmation and analysis](#) is provided by Russian news anchor Pavel Pchelkin at *Channel One Russia*. The gunmen, allegedly from the “pro-Russian” side were undercover agents coordinated by the Ukrainian interior ministry. A platoon of approximately 30 armed undercover agents fired numerous rounds at the football crowds, who were known to be “pro unity” or “pro Ukraine” and aligned with the Maidan coup government. The undercover/gunmen started a [street battle from behind police lines](#), hiding behind a wall of officers and instigating the football crowd to attack them.

The neo-Nazi *Right Sector* joined the enraged football crowd, and together they pursued

these provocateurs – who were dressed similarly to “pro-Russian” protesters – pursuing them all the way back to the Union hall, where the actual non-violent anti-Maidan activists had set up camp. Once this violence had begun it was easily turned against the real anti-Maidan activists, and the police provocateurs disappeared back into the police brigades.

Further confirmation comes from a Ukrainian official, [acting Prosecutor General Oleh Makhnitsky](#):

“This action [in Odessa] was not prepared at some internal level, it was a well-planned and coordinated action in which some authorities’ representatives have taken part.”

This is a false flag event.

Undercover provocateurs shot at the football crowds to initiate the violence.

The violence was led and drawn back toward the political targets: the anti-Maidan activists.

Mass murder followed.

The next level of reality that intrudes upon and discredits Western media reporting is the idea that the fires did the killing. This is also false. The victims inside the union hall were mostly murdered with gunshots, as well as strangled to death by the neo-Nazi *Right Sector* storm troopers, who also were seen inside the building waving flags and cheering.

Most of the bodies seen in photographs were burned in order to hide evidence of gunshot wounds (warning: [graphic photographs](#)). This is also not reported across the media spectrum, as if it were of no importance. If the fire is to blame, this is akin to an act of nature, rather than a series of cold-blooded murders by rampaging neo-Nazi thugs allied with our supposed good buddies in Kiev.

Western media, therefore, has become a complicit propaganda organ in spinning narratives for the US State Department and its Nazi partners in the Ukraine. It truly sickens me the depravity and gall of these psychopaths (in both nations) who, in broad daylight, support the worst of the worst, war criminals, mass murderers, racist violent lunatics. This has been true of Syria and Libya prior, and now it is true in the Ukraine.

These imperial games do not amuse the Russians, of course. Russia has an intimate history with Naziism in World War Two. More Russians died in that war than did Americans, Brits, Japanese or Germans. The US/EU empowerment of the most violent, sadistic and murderous forces in Ukraine has driven the world to a true crisis point.

Already [\\$3.2Bn has been dumped](#) on the neo-Nazi unelected coup government, and Obama has knowingly and deceitfully called them [“duly elected.”](#)

Since when is gaining power through Molotov cocktails, snipers and bludgeoning the police considered “duly elected?”

This neo-Nazi power seizure has been a US project for quite a while now. Obama’s neo-con strategist, Victoria Nuland, has [bragged that \\$5Bn of US tax money](#) has been poured into Ukraine since the fall of the Soviet Union in order to influence the political system there. Nuland was [caught on tape](#) choosing “Yats” to be the frontman for US/NATO interests.

Arseniy Yatsenuk’s own foundation website prominently lists, as William Blum [noted](#):

NATO, the National Endowment for Democracy, the US State Department, Chatham House (Royal Institute of International Affairs in the UK), the German Marshall Fund (a think tank founded by the German government in honor of the US Marshall Plan), as well as a couple of international banks. Is any comment needed?

US meddling in the 2004 Ukrainian elections was [already exposed](#). The [US corporate usual suspects](#) are salivating on setting up shop in their new Nazi utopia.

This latest manifestation of covert US foreign policy should shock the entire world to its core and cause them to question just about every assumption they may have had about the US. Actual voting – democracy – is demonized in Crimea and in the other eastern provinces of Ukraine, while firebomb tossing Nazi psychopaths, who gleefully rape and strangle to death pregnant women, are promised \$27Bn in IMF graft and loan guarantees to help cement their power over Kiev.

That message couldn’t be clearer.
