Introduction

A QR Verification Code is now being developed to be applied Worldwide simultaneously in 194 member states of the UN with a combined population of 7.9 billion people.

The Worldwide QR Global Verification Agenda is to be carried out under the auspices of the WHO in liaison with [ID2020](#) and the [Gavi Alliance](#), both of which are funded by the Gates Foundation.

Peter Koenig describes the QR Code as “an all-electronic ID – linking everything to everything of each individual (records of health, banking, personal and private, etc.).”

The QR Verification App potentially sets the stage for the instatement of “a global police state” controlled by the financial establishment. It’s part of what the late David Rockefeller entitled “the march towards World Government”:

*“...The world is now more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries.”
(quoted by [Aspen Times](#), August 15, 2011, emphasis added)*

The QR Code consists in scrapping civil liberties and fundamental human rights.

The QR Code and the Worldwide Digital Currency System (CBDC)

Consultations are also ongoing with the World Economic Forum and central banks with a view to implementing a so-called Central Bank Digital Currency (CBDC) network. According to [David Scripac](#)

“A worldwide digital ID system is in the making. ... the aim of the WEF—and of all the [central banks](#) [is] to implement a global system in which everyone’s personal data will be incorporated into the Central Bank Digital Currency (CBDC) network.

Once that goal is accomplished, *every* aspect of our lives will be controlled, from womb to crematorium, by the so-called 1% who run the world’s most influential institutions and comprise its bluest bloodlines.

(Yes, bloodlines. As in the Rockefellers, Morgans, du Ponts, Rothschilds, British royals, and Dutch royals, to name a few of the supposedly superior families whose wealth and power have been dominating the global population for centuries.)

What do I mean by “every aspect of our lives”? For starters, what we can purchase with our CBDC money.

And from there . . . whom we may—or may not—associate with. How much electricity we can use in our (rental) dwellings. What we are allowed to read, see, hear, say—and even eat.

Whether and where we can travel. The list of “forbiddens” will keep growing. And so will the social demerits we pile up for bad behavior. That is, for disobeying our slave masters.

“Digitization of the World”: The Global Features of the QR Verification App

The WHO has signed a major contract with Deutsche Telekom T Systems to develop a QR Verification App and Software which is to be applied Worldwide.

Sofar we have scanty details regarding the project which indelibly derogates on the rights of sovereign countries.

Has WHO Director General Dr. Tedros sought the approval of the WHO’s 194 member states?

With the exception of Reuters (see below) there has been no media coverage or analysis, nor has the WHO made a formal announcement of the project:

The World Health Organization has signed a contract with Deutsche Telekom ([DTEGn.DE](https://www.dtegn.de)) subsidiary T-Systems to build a software solution for global electronic verification of coronavirus vaccination certificates, the telecoms company said.

The QR code-based software solution will be used for other vaccinations as well, such as polio or yellow fever, T-Systems said in a statement ... adding that the WHO would support its 194 member states in building national and regional verification technology.

T-Systems previously worked with SAP ([SAPG.DE](#)) to develop Germany's Corona-Warn-App tracing and verification app and a Europe-wide digital COVID-19 vaccine verification system." ([Reuters](#))

According to a [Deutsche Telekom I-T Systems Communique](#) "The WHO's gateway service also serves as a bridge between regional systems", which essentially implies a coordinated global structure of QR surveillance, which oversees the entire World population.

And once established: it will police "every aspect of our lives", wherever our location on Planet location.

"It can also be used as part of future vaccination campaigns and home-based records."

According to the [CEO of Deutsche Telecom T Systems](#)

"Corona has a grip on the world. Digitization keeps the world running"

Who has the Grip on the World? A giant data bank pertaining to [7.9 billion people](#) controlled by Big Money.

"Keep the World Running" on Whose Behalf?

While Bill Gates funds both the WHO and ID2020, he also has a vested interest in Deutsche Telekom. In the late 1990s, Gates entered into negotiations on behalf of Microsoft with Deutsche Telekom's CEO Ron Sommer. The objective was to establish [a longstanding "Strategic Partnership"](#) between the two companies.

Confronting the Architects of Digital Tyranny

People Worldwide in a broad movement of solidarity must confront the architects of this infamous project of Digital Tyranny.

We will seek all avenues through peaceful means to disable and undermine this totalitarian project including dialogue with and within public and private institutions, law enforcement officials, members of the military and the judicial.

What is required is to break down the structures of corruption, hierarchy and abusive authority, namely to pursue what might be described as: "the democratization of decision-making within our institutions". (Michel Chossudovsky, [Chapter XIV of E-Book](#))
