President Barack Obama is stuck between false flag operations and political circus?

“I am deeply offended by the lies being told by the US Government – and more specifically, by the Central Intelligence Agency (CIA), Federal Bureau of Investigation (FBI), and Department of Homeland Security (DHS) with the explicit approval of the Director of National Intelligence (DNI) and the President – with respect to the Russians “hacking” the US election. Robert David Steele, Intelligence expert

– I am reminded of the 935 now-documented lies told by Dick Cheney to justify a \$5 trillion war and multiple occupations from Afghanistan to Niger – or in more Nordic terms, the falsification by the Swedish military, in collaboration with the North Atlantic Treaty Organization (NATO) and CIA, of a Russian submarine that never existed, allegedly “invading” Swedish waters.

As a CIA spy, I have faked intelligence, lied to government leaders, and managed a modest false flag operation (no one died). This is what CIA does. I accuse John Brennan, Director of the CIA, of being a liar who is in betrayal of the public trust with his lies. The most recent DHS-FBI report – and related reports from small companies seeking to curry favor with the Deep State – are absolute crap.

I was the author of the first letter to the White House warning of our cyber-security shortfalls, in 1994. In the same year I was the opening speaker for Hackers on Planet Earth. The year before, in 1993, I introduced NSA to hackers — of the 900+ participants in my

international conference roughly 60 were from NSA, bused down from Fort Meade to listen to a panel led by Emanuel Goldstein, founder of 2600.

Here are the facts as I understand them, augmented by public statements from Julian Assange, Craig Murray, William Binney, James Bamford, Ray McGovern, Philip Giraldi, and John McAfee – and others who do not wish to be named.

- The only people “hacking” the US election have been the two political parties. The Democratic Party actively conspired against Bernie Sanders and actively stole thirteen primaries from Bernie Sanders using electronic ballot tampering. The Democratic Party also organized roughly three million dead, duplicate, and illegal alien voters. The Republican Party used various means to repress a million black voters.
- The Russians – as well as the Israelis, French, Germans, Chinese, and everyone else on the planet with any curiosity – have absolutely been conducting electronic espionage against US political targets. They have not “leaked” anything (generally intelligence services try not to demonstrate that they have successfully hacked in anywhere).
- The “leaks” from the Democratic National Committee (DNC) to WikiLeaks were a combination of disgruntled NSA officials furious with Hillary Clinton’s mis-handling of classified materials (including sending emails with classified information to IP addresses in Saudi Arabia and Qatar), and a DNC insider with authorized access who shared copies – all this according to William Binney, Julian Assange, and Craig Murray.
- The exposure (I use the term advisedly) of John Podesta as a very unethical political operative with very strong possibilities of also being a pedophile, resulted from a single phishing expedition by a single hacker who social engineered Podesta into changing his Google email password through an intermediate site that then was able to steal all of Podesta’s email. This hacker is in jail in the US and it is almost certain that he is collaborating with a US intelligence service, not the Russians.
- The final “leaks” came from the New York Police Department (NYPD) after it confiscated a laptop from Anthony Weiner that turned out to have – it is alleged – all 650,000 emails that included Huma Abedeen as an addressed. This is a mother lode. The FBI immediately sequestered this machine, but not before the NYPD copied many of the emails and leaked the fact that they provided evidence of treason by Hillary Clinton and Huma Abedeen in taking money from Qatar and Saudi Arabia in return for regime change in Syria and Yemen as well as classified information in passing; and information reinforcing the possibilities of female as well as male pedophilia in the highest ranks of the Democratic Party.
- The only intelligence services that persistently spy on US politicians across every device they own are the US intelligence services, specifically NSA, with CIA focusing on selected Senators and Representatives. NSA has explicitly spied on Barack Obama in detail since Obama was a junior Senator. The US media, very much under control, is both replaying the false narrative against the Russians, and strictly avoiding any independent commentary on the fact that it is US traitors, not the Russians, who are the threat to US peace and prosperity.
- It is highly likely that the neo-Nazi element in European leadership is conspiring with the neo-Nazi, neo-conservative element in US leadership, to start a war with Russia. The assassination of the Russian Ambassador in Turkey, the

assassination of the NATO chief auditor about to expose a Euro 250 billion black budget used by NATO to bribe politicians and carry out false flag operations, and the various false flag operations in France (these with Mossad assistance) and Germany and elsewhere are all part of trying to start WWII – war is a business model for the City of London and Wall Street, for the Vatican and the Rothschilds.

There is good news. It is my judgment that WWII has been averted by a combination of restraint on the part of Vladimir Putin, confident that Donald Trump will make things right (pun intended) once he is in office, and public intelligence. For the first time in history, a sufficiency of retired intelligence professionals and alert citizens have come together to demonstrate with compelling depth that both the US secret intelligence community and their fellow travelers, the US media (both mainstream and “progressive”) cannot be trusted to tell the truth about anything of import.

In my view, the truth at any cost lowers all other costs. The truth is not available from the US secret intelligence world or the US media – for truth, we must look to one another.
