In it, Oliver Stone and his collaborators focus on the wars in both Iraq and Afghanistan during the Bush administration.

The Film presents how many American lives were lost as well as the torture incidents that American soldiers were involved in.

As for the conspiracies involved, it also presents the personal motive of Bush was more of a personal vendetta against Saddam Hussein rather than catching the terrorists who were guilty of the September 11 attacks in New York.

Added to that, it also tries to portray how the Bush administration attempted to manipulate the terror warnings to the Americans to fulfill their political motives.
