There's only one conclusion when it comes to Israel, in fact it's almost like a tradition, it's definitely a meal ticket to political power for all US presidents, senators, congresspeople, governors, mayors from the past to the present who pledge their unconditional support for Israel.

US President Harry S. Truman, a Democrat, was the first world leader to recognize Israel in only 11 minutes as a Jewish state on May 14, 1948. Truman declared "I had faith in Israel before it was established, I have faith in it now."

Every US president since then has basically bent over forward for Israel. On September 10th, 1968, US President Lyndon B. Johnson (LBJ), another Democrat from Texas gave a speech at B'nai B'rith which is an organization that focuses on the security of the Jewish people and the State of Israel. They also fight antisemitism and other forms of discrimination. LBJ said the following:

Our society is illuminated by the spiritual insights of the Hebrew prophets. America and Israel have a common love of human freedom and they have a common faith in a democratic way of life ... Most if not all of you have very deep ties with the land and with the people of Israel, as I do, for my Christian faith sprang from yours the Bible stories are woven into my childhood memories as the gallant struggle of modern Jews to be free of persecution is also woven into our souls

War criminal and former Republican President, George W. Bush Jr gave a speech to the

Knesset on May 15th, 2008:

The alliance between our governments is unbreakable, yet the source of our friendship runs deeper than any treaty. It is grounded in the shared spirit of our people, the bonds of the Book, the ties of the soul ... My country's admiration for Israel does not end there. When Americans look at Israel, we see a pioneer spirit that worked an agricultural miracle and now leads a high-tech revolution. We see world-class universities and a global leader in business and innovation and the arts. We see a resource more valuable than oil or gold: the talent and determination of a free people who refuse to let any obstacle stand in the way of their destiny

Another war criminal and the first half-African American to become a US President, Barack H. Obama gave a speech on the 61st Anniversary of Israel's independence on April 28th, 2009:

The United States was the first country to recognize Israel in 1948, minutes after its declaration of independence, and the deep bonds of friendship between the U.S. and Israel remain as strong and unshakeable as ever

And of course, the former US president and GOP frontrunner, Donald J. Trump and Joe Biden also support Israel on every level. Bottom line, it seems that you can't be a US president if you don't support Israel. The Israelis, including the most powerful Jewish lobby in Washington, the *American Israel Political Action Committee* (AIPAC) and Jewish oligarchs literally fund and own US politicians and major several industries including Hollywood and the mainstream media.

Despite that fact, [Donald Trump still thinks that Israel don't control congress](#)

"The biggest change I've seen in Congress is Israel literally owned Congress — you understand that — 10 years ago, 15 years ago. And it was so powerful. It was so powerful. And today it's almost the opposite" he continued "You have between AOC (Rep. Alexandria Ocasio-Cortez) and [Rep. Ilhan] Omar — and these people that hate Israel. They hate it with a passion, they're controlling Congress, and Israel is not a force in Congress anymore. I mean, it's just amazing. I've never seen such a change."

So, according to Trump, Alexandria Ocasio Cortez who is known as AOC, Rep. Ilhan Omar, and other democrats in that circle control congress? That is pure nonsense, they don't control anything, they are just political puppets that will do whatever they are told. Trump believes that Israel should have the power over the US congress, not the US voters,

"And we're not talking about over a very long period of time, but I think you know exactly what I'm saying. They had such power, Israel had such power — and rightfully — over Congress, and now it doesn't. It's incredible, actually."

Most of the [Democrats and Republicans](#) who are running for the 2024 presidential election or other political offices in the future will support Israel, and that's a fact that cannot be denied.

Has Robert F. Kennedy Jr. Joined the Consensus?

Now we need to take a closer look at Robert F. Kennedy Jr. who also threw in his hat for the

2024 Democrat nomination is great on a host of major issues including his opposition to war, Covid-19 vaccine mandates, and government censorship. One of the best websites that targets Big Pharma is the [Children's Health Defense](#) which was founded by RFK Jr.

However, RFK Jr. has joined the political establishment and sold his soul to that same old foreign power that has controlled Washington, DC since 1948. The *Jewish News Syndicate* (jns.org) published '[Robert F. Kennedy Jr. affirms: 'I support Israel'](#)' on an interview from an [independent podcast co-host Craig Pasta Jardula](#) who asked Kennedy a legitimate question,

"a couple tweets were put up in support of Roger Waters and then taken down. You want to give us a little explanation of why they were taken down and also your stance on Israel and Palestine?"

RFK Jr replied

"I made the tweet applauding Roger Waters' courage in opposing the Covid mandates and the Ukraine war. I was unaware of his position on Israel. And when I learned that I immediately took it down."

What RFK Jr says next will allow you to conclude what his Middle East foreign policy would mean for the Palestinians and the rest of the Arab world,

"I support Israel. My family has a long relationship with Israel and supporting its right to exist and its right to protect its security."

Jardula then asked,

"And the Palestinians?"

Kennedy replied:

"And a humane outcome and a recognition ultimately of the aspirations of the Palestinian people is important for everybody."

It all sounds too familiar, it's like they are reading from a script.

The US political establishment, no matter who comes to power whether Democrat or Republican, they must support Israel if they want to run for political office despite that fact that the Israelis attacked the [USS Liberty on June 8th, 1967](#), or their involvement in the [September 11th attacks](#) in New York City or any other crimes including [espionage on US soil](#). Israel has all of the politicians in Washington in their pockets, they own the mainstream media, and they also have a say in US foreign policy matters when it comes to the Middle East.

RFK Jr is just another politician who will be subservient to the Zionist power structure in Washington and the Israeli government. On October 3rd, 2001, former Israeli Prime Minister, Ariel Sharon said

"I want to tell you something very clear: Don't worry about American pressure on Israel. We the Jewish People control America, and the Americans Know it."

I must admit, that was one of the most honest statements made by an Israeli Prime Minister

to this day.
