Dr. Vicky Jennings, a trauma surgeon in South Africa, used to post content online mocking people who questioned the safety of the mRNA injections.

For example, she posted a photo of herself encircled by the words:

Disinformation is Deadly

Vaccines Save Lives

Nice of her to weave a prime example of disinformation — “Vaccines Save Lives” — directly into her meme.

She even poked fun at the irrefutable reality of vaccine side-effects by saying that she was “waiting to grow my unicorn horn now” after submitting to the poison shot. Referring to the conspiracy theory that the injections contain self-assembling microchips, she added, “Bill Gates can start tracking my fascinating life.”

Dr. Jennings, however, has stopped posting these public disservice announcements... because her “fascinating life” has come to a sudden end at the age of 43.

South Africa’s [R News](#) published this statement on March 6th:

“Numerous tributes and messages of condolence poured into [sic] Dr. Vicky Jennings, an internationally respected and locally loved trauma surgeon, who died suddenly on Sunday.”

The official cause of death of this mother of two was a heart attack. She had no known illnesses.

It must be total coincidence she was fully boosted with an experimental technology known to cause myocarditis.

Just as Ian Vandaele’s death was also, surely, a coincidence. Vandaele was a Canadian corporate media journalist who publicly demanded that anyone who wasn’t vaccinated get hauled off to concentration camps (according to the [Lion of Judah Ministry Substack](#)). This evil fascist was “declared neurologically dead” at age 33 on December 5, 2023.

Again, it must also have been a coincidence that Lt. Col. Jered Little, commander of Public Health Activity (for Hawaii), died suddenly, on November 24th, at age 39 — after being [the triple-vaxxed poster boy](#) for the US Military.

All three of these vaccine evangelists believed they were doing the world a service by not only getting the clot shot themselves but encouraging, shaming and threatening others to accept vaccination as the one true path to respiratory salvation.

In the end, they have done us a service: they have shown that they were dead wrong.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
