‘The evidence is overwhelming that there is an intent to harm people by the COVID 19 injections, [the] so-called ‘vaccines,’ Alexandria Latypova said. ‘We have to focus on ... prosecution and bringing those responsible to justice.’

Former pharmaceutical executive and researcher Alexandra “Sasha” Latypova has laid out compelling arguments for why the “cartel” that orchestrated the dissemination and uptake of “biowarfare agents” — marketed as “COVID-19 vaccines” — operated with “very clear intent to harm” and to execute a “mass genocide of Americans.”

[Latypova](#) worked more than 25 years in the pharmaceutical industry specializing in research and development, including data analysis, clinical trials, and technologies, while also co-founding multiple research organizations before retiring at a relatively young age.

Having been alarmed by government policy during the COVID crisis, she began conducting several levels of [investigation](#) that most recently [revealed](#) how the COVID-19 “vaccines” were fully produced, controlled and distributed by the U.S. Department of Defense (DoD) with pharmaceutical manufacturers such as Pfizer, Moderna, and Janssen only serving as “figureheads” in a broader public relations campaign to provide the product with an appearance of medical legitimacy.

As Latypova has [explained](#), the DoD managed to classify these “vaccines,” not as medicines or pharmaceuticals but as “COVID countermeasures” under the authority of the military, which means they are not required to comply with U.S. law governing the manufacturing quality, testing, effectiveness, safety, and labeling of medical products.

Yet while such laws did not apply to these “COVID-19 vaccines,” the government advanced an orchestrated public relations façade that standard testing, monitoring and approval processes were being strictly observed by the CDC and FDA, even as many thousands of injuries and deaths had been steadily documented and independent medical experts and media sounded alarms only to be canceled by legacy and social media corporations.

In an early December [video lecture](#), the former pharma executive laid out evidence for how the DoD, HHS, and other U.S. government agencies, along with other governments and pharmaceutical companies, were involved in “a conspiracy to commit mass murder through bioterrorism and informational warfare operations worldwide.”

“The evidence is overwhelming that there is an intent to harm people by the COVID 19 injections, so-called ‘vaccines,’ and other nonsensical COVID response measures implemented in lockstep by governments all over the world,” she explained.

Refusal to Intervene Despite High Injury Rates ‘Points to an Intentional Act’ to Inflict Harm

First, such intent is indicated by the fact that “these injections are toxic by design,” Latypova said. “We know this. There has been an extensive body of literature, studies, scientific discussions, [and] evidence published on this matter.”

“There are numerous mechanisms of injury built into the COVID 19 injections. The most important one being that these shots are designed to make your cells attack themselves, make your cells express antigens that are toxic spike proteins, and then create antibodies to attack the cells. So, it trains your body to destroy itself,” she explained.

Therefore, “there is definitely no safety in these shots,” the analyst said, referring to the well-known death and injury reports from [VAERS](#) and other data sources that show “millions of reports of injury, deaths, [and] permanent disabilities,” including these harms being inflicted on many children and young people.

In an earlier [presentation](#) to the Corona Investigative Committee (CIC), Latypova called these reports “absolutely alarming,” emphasizing that the safety signals were “obvious from the start.” And the fact that “no health authority ever noticed it” or intervened “points to an intentional act” to inflict harm.

She also highlighted one [incident](#) on January 18, 2021 when California health officials “paused” the use of one large lot of the injections from Moderna due to its “higher-than-usual number of possible allergic reactions.” However, just three days later, health authorities [said](#) it was “safe to resume” the use of the lot and these products continued to be injected in thousands of people across the U.S.

This batch of biological agents went on to generate “about 1,000 serious adverse events and close to 60 deaths,” Latypova explained. And thus, “all of those [deaths and injuries] should be deemed intentional because the authorities did flag it. They did find that it was generating abnormal adverse events, yet nobody did anything to stop it and they continued pushing it into people.”

The Broad, Systematic Omission of Safety Standards in Production Indicates an Intent to Harm

In addition, “there is no efficacy in these shots,” Latypova explained in December. “In fact, we know there is negative efficacy, meaning that these shots make you more likely to get sick and die.”

Also last month, highly acclaimed insurance analyst Josh Stirling [reported](#) that those who accepted the experimental gene-base COVID vaccine “have a 26% higher mortality rate,” including 49% for those under 50, and 145% for those who accepted just one dose of a two-dose regimen.”

And just before Christmas, Alex Berenson [reported](#) on two studies that showed those who received the shots “are at least twice as likely to be infected with the coronavirus as unvaccinated people,” and “the risk actually rises with the number of shots. People who had received three or more shots were more than three times as likely to be infected.”

Latypova continued focusing primally on her earlier work, asserting the “extensive evidence of bad manufacturing of these products,” including their “highly variable production.” Such manufacturers “are not compliant with good manufacturing practices and, importantly, there is no enforcement of good manufacturing practices worldwide for these products [by the regulators].”

Such a broad, systematic omission of safety standards in production indicates an intent to harm by the perpetrators as well, the former executive told CIC. If these individuals, government agencies and pharmaceutical companies had a legitimate medicinal intention to assist in the prevention of disease, then “the safety guidelines should [have been] followed, and they don’t follow a single one of them.”

Govt. ‘Lying,’ ‘Covering Up,’ and ‘Gaslighting,’ Demonstrates a ‘Very Clear Intent to Harm’

“There is obviously malignant policy from the government. We know that they’re lying. We know that they’re covering up. They’re gaslighting the families of those killed and injured by these shots,” Latypova summarized. And thus, this demonstrates a “very clear intent to harm through all these actions. And at this point, everything should be deemed intentional. All of the injury and death toll, should be deemed completely intentional.”

“We found that these products are dirty, contaminated, do not conform at all to what the label says. And they’re hugely toxic by design,” she said.

“They should all be stopped immediately, and this should be investigated properly. And we should bring those responsible to justice, to accountability. Until that happens, we cannot move on from this,” Latypova said. “We have to focus on this more and focus especially on prosecution and bringing those responsible to justice.”

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the

deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
