Aug. 21, 2023 - Loveland, CO - Emma who is a young teacher and soccer coach was attending a game, when she received a soccer ball kick to the head, had a seizure and was found to have a brain tumor.

Emma's Update

Journal Entry by Kristin Good — August 26, 2023

August 21, 2023 (Monday): After teaching, Emma went to the boy's varsity soccer game, as assistant coach. Usually, Emma only goes to Thursday games. Thankfully, another assistant coach decided to switch this week.

During the game, a ballgirl kicked a ball into the back of Emma's head. The impact triggered a 2 minute seizure. This seizure was localized in her face and Emma was conscious throughout. Recently, two players moved to Timnath, and their dad made a last minute decision to come to the game instead of his wife. He happens to be a Neurosurgeon (Dr. Jon Bledsoe). During Emma's seizure, Dr. Bledsoe walked Emma through the seizure as it happened. Dr. Bledsoe strongly advised Emma to get a CT scan. A client cancelled Claire's (sister-in-law) last therapy session, so she was able to pick up Emma and Robbie (brother) to go directly to the hospital.

The CT scan revealed a tumor in Emma's brain, located in the right frontal lobe. She then received a MRI.

Travis shared this news with our knight in shining armor, Dr. Bledsoe, who connected us to Dr. Regina Bower and the Medical Center of the Rockies (MCR) for a 3:30 pm consultation at the ER.

August 22, 2023 (Tuesday): Emma was transferred from St. Anthony's to MCR. Close family (Trav, Ang, Robbie and Claire) met with Dr. Bower to discuss the initial MRI. Dr. Bower cleared her schedule for a Friday surgery. Emma then underwent another MRI in order for Dr. Bower and team to plan for surgery.

Emma was discharged from the hospital to be with friends and family Wednesday and Thursday nights.

Aug. 15, 2023 - Allentown, PA - Julia Dweck, a teacher, fell ill with a series of blood clots, strokes and was found to have Stage 4 pancreatic cancer.

Help Julia Dweck and Her Family

Julia Dweck is organizing this fundraiser on behalf of Shep Dweck.

Julia Dweck is experiencing a life threatening medical emergency. This was a huge surprise and is very scary for her and her family. Please consider chipping in financially to support her and her family during this difficult time. All funds donated will go directly to Julia. Thank you.

August 16th, 2023 by Shep Dweck, Beneficiary

Friends, colleagues and loved ones. It is with a heavy heart I must share the shocking circumstance of our beloved Julia falling ill to pancreatic cancer. Complications include a series of blood clots, which have led to multiple strokes she must now recover from.

She is fighting these battles with the same strength she has shown throughout her personal and professional life. She will miss the start of the school year, her students and the gifted curriculum. Rest assured, your gift of a donation will assist with the health care she will require moving forward. Please gather your most precious resource of faith and let us share with her all we find dear in our hearts and wish her wellness.

Aug. 4, 2023 - Woodbridge, VA - 45 year old Cristin Lee Kline, died August 14, 2023 at Inova Fairfax Hospital. She was a school teacher with Prince William County Schools.

Cristin Goree (Kline)

Holly Linkins is organizing this fundraiser on behalf of Rashad Goree.

I'm fundraising on behalf of Jewell (Cristin husband) and her children.

Cristin lost her long fight with cancer on August 4, 2023 leaving behind her wonderful husband and six children to carry on her memory and who she was. A mother, wife, daughter, sister , cousin , school teacher and friend to many. If you can donate to help her husband, Jewell with expenses, it will be appreciated more than words can say. Prayers needed too. Thanks

Aug. 3, 2023 - Cape Coral, FL - Julia Ringenberger McKinnon, Gulf Elementary School teacher, died after a 2 months battle with Stage 4 Gallbladder cancer.

Help a Mother,Wife, Teacher & Friend with CANCER!

Regina Notarianni is organizing this fundraiser on behalf of Julia McKinnon.

8/3/23: THE CRAPPIEST UPDATE YET: this is what Reggie posted today on Facebook: It is with the deepest sadness I want to let everyone know that Julia Ringenberger McKinnon is at peace with the Lord. My Liberty High School sweetheart is now resting. ☹️ 35+ years of love and memories came to an end in less than two months battling FN Cancer. I have spent two hours looking for a picture of Julie in her phone. But I know she would want me right next to her. Just how we have been all this time. In just the last few weeks I learned how powerful Julie's love was for all people. She leaned toward children and friends that need a shoulder and never questioned their struggles. She would share these times with me but I never realized how much impact she had on you all. I reached out to as many people as I could today with phone calls. I know I missed some of you and I'm sorry, Julie would kick my ass if I just sent a text. All my time has been focused on her since we went to the ER on June 8th. Now I have to be both of us and continue our lives in her memory. I will need all of you and I know you will be here to help us. I will live the rest of my life following what Julie and I wanted for our girls. Thank you everyone for all your stories and kind words. Julie is going to be with Payton and that rests my heart. Until we meet again...I Love You Julie...to the moon and back again. ❤️

EVEN CRAPPIER UPDATE 7/26/23: Hospice was not following Julia's medicine protocol so she was taken back to Gulf Coast Hospital where they are keeping her comfortable. PLEASE PLEASE PLEASE PRAY FOR A MIRACLE

CRAPPY UPDATE AS OF 7/25/23: Julia is still fighting, but unfortunately today she was moved to Hope Hospice in North Fort Myers. Please continue to say prayers for her and her family as she fights this cancer!

HEARTBREAKING UPDATE: Julia has been diagnosed with stage 4 [Gall Bladder Cancer](#). [This cancer is AGGRESSIVE and INOPERABLE](#) It started as a gall bladder mass with lesions on her liver and has now progressed to her abdominal area. PRAYERS ARE DESPERATELY NEEDED FOR THE FAMILY! Any monetary donation you can make to the family to assist with the ever growing medical bills is GREATLY APPRECIATED!!!

JULIA LYN MCKINNON

AUGUST 22, 1972 - AUGUST 3, 2023

Julia Lyn McKinnon, 50, a resident of Cape Coral, FL since 1998, formerly of Bethlehem, PA, passed away Thursday, August 3, 2023 in Fort Myers, FL. She was born August 22, 1972 in Indianapolis, IN.

Julia was of the Christian faith. Julia was a member of Liberty high school, Class of 1991, and a graduate of Penn State University, Class of 1995. She received a Bachelor of Science degree in the field of Education. She fulfilled her life's goal of becoming an educator, first teaching at Country Oaks Elementary, then Up-the-Grove Elementary schools in LaBelle. In 2007, she transferred to [Gulf Elementary School, in Cape Coral](#), the position she held until her death. Julia received such satisfaction in assisting her students, often going above and beyond. Julia also spent many hours participating in community activities, such as the Susan G Komen Breast Cancer events, Safe Kids Organization, and Gulf Elementary Drama department.

She is survived by her loving husband, Reginald McKinnon; children, Madison, Haley, Olivia, and Savannah; parents, James Ringenberger of Cape Coral, and Linda Waskevich (William) of Bethlehem, PA; mother-in-law, Beryl McKinnon; brothers, James Ringenberger III (Shannon) of Whitehall, PA and Jeffrey Ringenberger of Cape

Coral; brothers-in-law, Justin McKinnon (Stephanie) of Bethlehem, PA, and Donald McKinnon of Cape Coral, PA, as well as sister-in-law, Ann Marie McKinnon of Bethlehem, PA.

Aug. 1, 2023 - Boyce, LA - John Upton turned 30 years old, the next day he was found to have a brain tumor, Grade 4 astrocytoma, IDH mutant.

John and Lena Upton Medical Fund

 Shana Brundrett is organizing this fundraiser on behalf of Greg Upton.

John and Lena Upton Medical Fund

August 1, 2023

At the beginning of June, the day after turning 30 years old, John discovered he had a tumor growing in the right frontal lobe of his brain. Within the next couple of days, he was admitted to Houston Methodist Hospital where he underwent tests to determine the next steps. For nearly a month, Houston became home for John, Lena (his wife), Isabella (his then 6 week old daughter), and various family members. John's daughter Emily was also able to visit multiple times, even receiving a special stuffed animal from the hospital gift shop on her second birthday. In addition to medical bills, Lena and her girls endured the cost of living within the confines of a hospital in a big city.

As test results continued to offer more insight into the nature of the tumor, the medical team formed a treatment plan. At the hands of an excellent surgeon, John's tumor was successfully removed! Unfortunately, due to the removal of a tumor of this great size and nature, John experienced substantial cognitive regression and still needs to restore much of his physical strength.

John began to heal physically from the surgery, and the family waited in anticipation for the results of the biopsy. After some recovery time, John was healthy enough to move to the rehabilitation floor of the hospital, where he received physical, occupational, and speech therapy services. As John pressed on with rehab, more test results came in. The doctors confirmed that John's tumor is a high grade IDH-mutant glioma.

While John continues to push through four hours of therapy in the mornings and extra practice with Lena in the afternoons, the family was yet again awaiting a more definitive pathology report. Finally, the doctors were able to offer a more conclusive diagnosis of a specific glioma: grade 4 astrocytoma, IDH mutant. This particular form of brain cancer offers no cure, but does respond to treatment. As one can imagine, these treatments, coupled with the rehabilitation therapy, can be costly.

July 30, 2023 - Miami, FL - 37 year old non-smoker Christina Pakowitz is a 3rd grade teacher who was diagnosed with lung cancer.

Help Christina's Battle Against Lung Cancer

Jessica Lechuga is organizing this fundraiser on behalf of Christina Pakowitz.

Hello everyone, my name is Jessica Lechuga and I am fundraising for my sister Christina Pakowitz (aka Christina Guerra). My sister Christina was diagnosed with lung cancer on July 12th, 2023. She will be undergoing surgery to remove the malignant mass on her right lung along with 50% of her healthy lung tissue, to ensure the cancer does not spread. Christina may need radiation therapy (chemo) following surgery depending on her margin results.

Christina has been battling respiratory illness causing her to be out of work for almost a

July 29, 2023 - Milton, FL - 52 year old Janeire Brown is a Milton High School teacher who was diagnosed with Multiple Myeloma.

Janeire Brown

1 h · 🌐

29th July 2023

👁️ Cancer update: For those that don't know I was diagnosed with multiple myeloma the end of this last school year. The summer has been as series of scans, tests, and procedures. Recently we found out the cancer is confined to a mass on my spine. Will more than likely do radiation for treatment so that's good news. The cancer will always be there though. Thanks to all who have texted, called or came by with food. Continue to keep us in your prayers and thoughts. Thank you 🙏😊

July 25, 2023 - Santa Barbara, CA - 29 year old Tahnia Mark, is a devoted biology and math teacher at La Cuesta Continuation High School. She was diagnosed with Hodgkin's

Let's Help Tahnia Fight Lymphoma!

Team fundraiser

Mannie Singh and 2 others are organizing this fundraiser.

Created 4 days ago •  [Medical](#)

Lara, Natasha, and I are starting this gofundme to help our dear friend Tahnia kick lymphoma's butt. At only 29 years old, Tahnia faces an unexpected and challenging journey, having recently been diagnosed with Hodgkin's Lymphoma. Yet, amid the uncertainties, Tahnia approaches her 8-month leave for chemotherapy and recovery period with unwavering hope and resilience. Before you choose to donate, here's a bit more about our gal.

Tahnia Mark was born and raised in Santa Barbara. She enjoyed the Junior Lifeguards program and played water polo for SBWPC and Dos Pueblos High School. She's traveled the world, and has found her way back to SB as a devoted biology and math teacher at La Cuesta Continuation High School.

Tahnia's dedication to her students extends beyond the classroom. Within the walls of La Cuesta, she created an after-school puzzle club that became a haven for a group of teenagers seeking connection and understanding. Through puzzles and heartfelt conversations, she fostered a nurturing environment where her students could not only grow academically but also thrive emotionally.

July 23, 2023 - Alexandria, VA - Nikki Reed is an art teacher and a mom of a 5 year old and a 6 month old baby. She was just diagnosed with a glioblastoma brain tumor and a chest mass.

Nikki's Glioblastoma Fight Fund

Janet Doyle is organizing this fundraiser on behalf of Michael Reed.

Hi, we are Sam Jourden (Nicole's brother) and Janet Doyle (Nikki's sister-in-law, Mike's sister). We are reaching out to all of Nikki Reed's friends and family to rally around her and her family during her courageous battle!

On the 4th of July, Nikki spent the day at the pool with her family. That evening she had difficulty getting her contact out of her left eye and her earrings out. The next morning, she noticed more weakness on her left side. After a doctors appointment and further weakness, she went to the ER and a brain CT revealed a mass, which has now been determined to be a glioblastoma brain tumor. While these are not curable, they are treatable.

July 21, 2023 - Spearville, KS - Destiny Barnett was diagnosed with Stage 3 Lymphoma that spread to the spleen. She has 2 babies, 21 and 3 months old.

Melissa Barnett is organizing this fundraiser.

Hello! I have created this to help with the financial stressors that are upcoming for my daughter, Destiny Barnett. Destiny was diagnosed this week with Stage 3 Hodgkins Lymphoma that has spread to her spleen, which is a cancer that affects the immune system. She will be on an intense chemo composed of 4 different chemo medications every other week. She just recently moved with her husband and kids to Council Grove. She will be a 4th grade teacher at Council Grove Elementary this upcoming school year. She is a momma to 2 sweet babies, Briley who is 21 months and Swayde who is 3 months. She has been breastfeeding the baby but has been told she will no longer be able to do this due to the

July 20, 2023 - Norwich, CT - 27 year old Jordyn Brooks, who is a dancer and a teacher, was diagnosed with aggressive cervical cancer.

Jump for Jordyn - Help Jordyn Beat Cancer

Team fundraiser

Aleisha Jenkins and Michelle Mauro are organizing this fundraiser on behalf of Jordyn Brooks.

Hello, we are Alley Jenkins and Michelle Mauro, and we're raising funds on behalf of our dear friend, Jordyn Brooks, to support her fight against cervical cancer.

In June 2023, Jordyn was diagnosed with rare and aggressive cervical cancer at just 27 years old. She will now begin 8 months of treatment to save her life, which includes a hysterectomy and chemotherapy. She will also be undergoing a fertility procedure in an effort to maintain the possibility for her to have children in the future.

Update 🚩

Im still in shock that any of this is happening but that being said I know how important my positivity and mindset will need to be throughout this process. Im asking for you to send all of the love, support , and prayers you have my way. Im confident we can get through this and im so grateful and blessed to have such a strong support circle. God and the universe has a plan for me and this is part of it. Im taking it day by day and will keep you updated as I find out more ☐ as always I love you all and thank you for your continued support.

July 20, 2023 - Harmony, PA - Cheri Mihalik is a teacher of English at Seneca Valley, who was recently diagnosed with Stage 4 Colon cancer.

Support for Mrs. Cheri Mihalik and Family

 Trisha Butschle is organizing this fundraiser.

Created 2 days ago •  [Medical](#)

Cheri Mihalik has touched the lives of countless friends, students, and families. This amazing mother, wife, sister, teacher, and friend has recently been diagnosed with stage IV colon cancer which requires her to step away from her Seneca Valley English classroom that she so loves for a pathway of treatment.

July 19, 2023 - Nashville, TN - Amy Nocton, High School Teacher, was just diagnosed with triple negative breast cancer.

Help Amy Nocton kick cancer's ass!

Robin Hirsch Everhart is organizing this fundraiser on behalf of Amy Nocton.

Created 6 days ago •  [Medical](#)

Our dear Amy is fighting a battle against Triple Negative Breast Cancer. This fight will require all of our triple-positive support! Starting next week, Amy will be undergoing 5+ months of chemo followed by a double mastectomy and reconstruction, followed by more chemo. This will be a long battle requiring her resilience to be front and center. While her focus is on fighting cancer, her family's lives will take a toll as well. There will be a need for rides, meals, coverage of bills since she won't be working full-time,

July 18, 2023 - Athens, GA - Vickie Shell, is graduate of UGA and Georgia State, a member of the Delta Sigma Theta Sorority, and a teacher. She was just diagnosed with brain cancer, glioblastoma.

Help Vickie Shell Fight Cancer!!!!

ashley mcknight is organizing this fundraiser on behalf of Vincent Shell Sr.

My name is Al McKnight, I am starting this fundraiser on behalf of my sister, Vickie Shell who was diagnosed with brain cancer (glioblastoma) earlier this year. Her husband, Vincent Shell, and sons, Rock and Beau Shell have been devastated financially and emotionally. There is a treatment they are pursuing to give my sister the best chance of surviving this extremely aggressive cancer. This has pushed her family to financial exhaustion and they need help immediately. We are setting a goal of \$25,000 to help the family pay towards her treatment (including travel expenses) and related expenses. We are asking for donations toward this goal and to please share this with as many people as possible. Any amount is greatly appreciated as we try to help get them through this difficult time. Thank you.

[July 15, 2023](#) - Huntsville, TX - Nique Barnett, who worked with children, was forced to quit her job after she was diagnosed with AML (Acute Myeloid Leukemia). She will be treated at MD Anderson.

Nique's medical expenses

Marshall Barnett is organizing this fundraiser.

"My wife Nique was recently diagnosed with AML or Acute Myeloid Leukemia.

She has had to undergo many tests, blood transfusions, chemotherapy and other forms of treatment while staying at MD Anderson.

Unfortunately this condition has forced her to resign from her job, which she loved very much. A job that worked with children but could now compromise her health and immune system.

July 12, 2023 - Elton, MD - Dominick Massimiano is a 9th grade Health and gym class teacher, who was just diagnosed with Non-Hodgkin Lymphoma of his neck. He just had a baby born in Nov. 2022.

Raise Money For Coach Dom!

Sally Perrine is organizing this fundraiser.

Created 4 days ago •  [Medical](#)

Hi, we are a group of students that were previously in Dominick Massimiano's Ninth Grade Health and Gym class. Mr. Massimiano is a Health and Gym Teacher as well as Head Football Coach of Rising Sun High School. Mr. Massimiano was recently diagnosed with Non-Hodgkins Lymphoma in his neck. Mr Massimiano and his wife Anna (pictured) had a baby boy named Roman in November of 2022. He is loved by every student he teaches, and every student he coaches; not to mention the countless students he says 'hi' to in the gym or hallways. Help us raise money to help beat his cancer!

July 3, 2023 - Table Grove, IL - 34 year old Kirsta Anderson, a teacher, was diagnosed with Stage 4 colon and liver cancer.

Support Kirsta Anderson's Fight Against Cancer

 Kelsey Baxter is organizing this fundraiser.

Hi, my name is Kelsey Baxter. My sister, Kirsta Anderson, was diagnosed with stage four colon and liver cancer on April 3, 2023 at only 34 years old. She is married to her husband Eric and they have a five year old daughter named Emery. Kirsta is still having diagnostic testing done in Macomb, IL but we are hopeful that we can quickly get her to a specialized facility to begin treatments.

This means that Eric, Kirsta, and Emery will be staying away from home for an extended period of time. The cost of travel, lodging, dining, and medical bills can be overwhelming during a time like this.

July 2, 2023 - San Jose, CA - Mitzy Romero is a Behavioral Analyst and works with children who have special needs such as Autism Spectrum Disorder, ADHD, Down Syndrome. She was diagnosed with Stage 4 Non-Hodgkin's Lymphoma.

Mitzy Romero's Cancer Bills, IVF, & Wedding Fund

 Brian Loeswick is organizing this fundraiser.

I am starting a GoFundMe for my amazing fiancé Mitzy Romero. We have had a very difficult year and she deserves the world. This past January, Mitzy was diagnosed with Stage 4 non-Hodgkin's Lymphoma. What doctors had previously told us were ulcers were in fact a massive tumor in her stomach lining and several smaller tumors in her lower abdomen.

Mitzy is a caring, fun, outgoing and loving person who cares deeply for her family and friends. She is a Behavioral Analyst and typically works with children who have special needs such as Autism Spectrum Disorder, ADHD, Down Syndrome, and other comorbidities. For the last 10 years, Mitzy has been a source of love, compassion, and inspiration, making time for her

June 28, 2023 - Boca Raton, FL - Jamie Sabeeney is a Lynn University senior, studying Early Childhood Education and will begin graduate school in May 2023. She was just diagnosed with Hodgkin Lymphoma.

Support for Lynn University student, Jamie!

Team fundraiser

Lauren Campbell and 2 others are organizing this fundraiser on behalf of Jamie Sabeeney.

Hi everyone! My name is Lauren Campbell and I work in the Office of Admission at Lynn University. We recently learned that one of our Student Admission Ambassadors, Campus Visit Experience interns, and Lynn University senior, Jamie Sabeeney, has been diagnosed with Hodgkin's Lymphoma. Jamie is studying Early Childhood Education and will begin graduate school in May 2023. For those that know Jamie, she is the kindest, most positive team member and friend! She has the biggest heart and is always excited to come to work, represent Lynn, and make an impact on prospective students. With a big support system behind her, we are confident we will help Jamie beat cancer.

[June 8, 2023](#) - San Diego, CA - Meredith is a preschool teacher in San Diego who was just diagnosed with Stage IV Colon Cancer & Liver Cancer.

Help Meredith beat Cancer

Ariana Cervera is organizing this fundraiser.

Hello Friends, Family, and all.
Let us tell you about Meredith...

She is an amazing preschool teacher residing in Sunny San Diego, who loves and makes an impact on every student and family she encounters.

When she is not at school inspiring and molding young minds, she is a badass aspiring tattoo artist, and practices her fine line artwork on eager victims.

Our friend recently received the news that she was diagnosed with stage IV Colon Cancer & Liver Cancer, but within days doctors have told her it is going to be a tougher fight than we had anticipated for. As she goes through all the necessary surgeries and Chemo sessions, she continues to shine as bright as ever as she fights one of the hardest battles of her life.

Because cancer tends to stop us on our tracks in living our every day lives; from medical bills, to monthly living expenses, the expenses do not seem to halt.

June 6, 2023 - Cincinnati, OH - Jeff Clark, Indian Hill High School teacher died on June 6, 2023. He was diagnosed with Stage 4 colon cancer on May 19; "loved ones described the cancer as "extremely fast growing."

'We are devastated': Indian Hill community mourns the loss of beloved high school choir and theater director

Jeff Clark passed away from advanced stage four colon cancer

The Indian Hill community is mourning the loss of a beloved educator. Indian Hill High School Choir and Theater Director Jeff Clark died Tuesday from advanced stage four colon cancer. "The beloved, award-winning educator brought to life some of the most memorable productions to grace the Indian Hill High School Auditorium," the Indian Hill School District said. Clark has been with the district since 2016. He's been an educator since 2001. "We are devastated, with our students, our parents, and our community, at the loss of this passionate educator, who offered our students incredible, unparalleled experiences in the arts," said Indian Hill School District CEO/Superintendent Kirk Koennecke. "Our hearts are with Mr. Clark's family."

June 4, 2023 - Dover, NH - Erica Rosenson is a special education preschool teacher. She was diagnosed with a very rare brain tumor - Grade 3 infiltrating glioma.

Let's support Erica Rosenson ❤️

Jennifer Faro is organizing this fundraiser on behalf of Erica Rosenson.

On behalf of the Rosenson family, we would like to reach out to friends, family and the community to help support Erica and her children. Erica is an incredible mother to her two children Ethan (10) and Julia (7) and an amazing special education preschool teacher who has dedicated her career to helping young children. In September 2022, Erica had to unexpectedly leave work due to the detection of a brain tumor that caused her to have some seizures as well as some other side effects. In January 2023, she underwent brain surgery at Mass General Hospital to have the tumor removed. The tumor was rare and had to be sent to the NIH/National Cancer Institute. After months of waiting for the pathology results (and hoping to have naming rights) Erica has recently learned that she has a rare type of Grade 3 infiltrating glioma and will need to have 6 weeks of radiation and 6 months of chemotherapy. She also received the devastating news that the tumor will grow back and she will need to keep treating it until it can no longer be treated. Those who know Erica know that she is a warrior and will fight this with all the strength, sass, and incredible sense of humor she has.

June 1, 2023 - Santa Maria, CA - Jodi Maquinalez worked at Santa Barbara County Education Office for 23 years working with special needs kids, until recently when she was diagnosed with pancreatic cancer.

Jodi Maquinaldez Medical Fund

Melissa Wisz is organizing this fundraiser on behalf of Jodi Maquinaldez.

Hi, my name is Melissa Wisz and Jodi Maquinaldez and her husband Dave are dear friends of mine - which is why I am creating this GoFundMe.

Thank you in advance for reading their story.

Jodi and Dave have an amazing blended family. Their family unit is so very strong and in times like this will grow even stronger. This amazing couple is inspiring to so many, not only by their faith but by their testimony to true love, it is undeniable.

I am starting this GoFundMe because **Jodi was recently diagnosed with pancreatic cancer after being misdiagnosed in October 2022.**

June 1, 2023 - Missoula, MT - Michelle Lodato was working in a kindergarten classroom and teaching piano. She was also in pursuit of a Master's in Education from Eastern Washington University. She was diagnosed with 2 cancers - thyroid cancer and Hodgkin Lymphoma.

Help Michelle Lodato Heal from Cancer

Brooke And Brian Lodato is organizing this fundraiser.

Michelle is our sister and sister-in-law who was diagnosed with Hodgkin's Lymphoma stage 2-3 over this past Christmas. She started chemo immediately and is hopeful this will be the first step towards healing. Unfortunately, unplanned side effects have restricted her ability to drive, work, complete her Master's degree and take care of herself and her 3-year-old

May 31, 2023 - Philadelphia, PA - Jessica Leichtweisz, a teacher for children with autism, was diagnosed with a high grade, malignant grain tumor.

Conquering Jessica's Cancerous Brain Tumor

Ryan Leichtweisz is organizing this fundraiser on behalf of Jessica Leichtweisz.

Dear friends, family, and compassionate strangers,

I write to you today with a heavy heart and a respectful plea for your support. My sister, Jessica, has recently been diagnosed with a high-grade, malignant brain tumor, and she and our family are facing an overwhelming financial course as we fight for her life.

Jessica has always been a vibrant, compassionate, and strong-willed individual. She has devoted her adulthood towards teaching children with autism and helping those in need. But cancer has unexpectedly barged into her life, challenging her dreams of a long and happy future, and now she needs our support. Our family finds ourselves navigating the

May 19, 2023 - Longview, TX - 32 Year old Jarrett Van Curen is the lead Ag Science Teacher at Big Sandy ISD. On May 15 he had a seizure and was found to have a brain tumor that he was told is terminal.

Mr. Van Curen Boots the Tumor

Delaney Renee' Smith is organizing this fundraiser on behalf of Jarrett Van Curen.

Hello, my name is Delaney Davidson. I am organizing this GoFundMe for my teaching partner Jarrett Van Curen. I ask that you please take the time to read about his story and what has happened over the last week. We are not supposed to question why things happen the way they do. But, I'm personally struggling with that. My teaching partner, my best friend and the brother God knew I needed, is facing the greatest challenge of his life.

Let me fill you in on the events of this past week...

Mr. Van Curen and a few ag mechanic students went to Hewitts (a local hardware store) on Monday 5/15/23 at the beginning of 1st period. On the way back Mr. V had a seizure. The boys were quick on their feet and got the truck in park, called 911 and then me. I got there within minutes of it happening. After what felt like ages the ambulance arrived. It took him quite a while to "come to" but he was able to stand up and get on the stretcher. He doesn't remember anything except his mouth feeling funny while driving and then us asking him to sit on the stretcher. He was transported to UT North off of 155 from Winona, TX. There he got an EKG and a scan. The scan showed a 2.5" mass on the frontal lobe of the right side of his brain. They then sent him to the Neurosurgical Intensive Care Unit at UT Health (off of Beckham) in Tyler, TX.

After further testing on Tuesday, the mass was determined as a slow growing gliomas. It has been there for several years. **The doctor told the family that it is terminal, due to the inability of removing the entire tumor.** Thankfully, there are no other masses anywhere in his body. They operated on Thursday morning, and it took a total of 3 hours. The doctor said it was a smooth surgery, and he "removed the most that he could as safely as he could." We were able to visit with him shortly after he was wheeled to his room from surgery. He was able to move all extremities and talk with us. (Praise God!) By Friday (5/19/23) Jarrett was able to eat solid foods and make laps around the nurses station.

May 15, 2023 – Schenectady, NY – Ashley Armer is a music teacher at Central Park Middle School, and had a baby in October 2022. In Feb. 2023 she was diagnosed with Stage 3 Colon Cancer.

Help Ashley & Her Family

Press **F11** to exit full screen

Katie Walters is organizing this fundraiser on behalf of Ashley Armer.

Our school community at Central Park Middle School has had the privilege to have a wonderful music teacher for the last two school years. She has made such a difference in the lives of her students with her contagious enthusiasm and passion for teaching. Ashley is currently dealing with a very challenging situation and can use our support. Ashley is a single mother of two beautiful children. She has a 14 year old son, and this past October she gave birth to a baby girl. Just as she was settling into her new role as a mom of 2, she was given some very distressing news. She was diagnosed with stage 3 colon cancer in February 2023. Figuring out how to move forward has been challenging to say the least. Ashley has used all of her available sick days for the 6 weeks postpartum, and 3 weeks ago, started the long road of cancer treatment. This has required her to take extended time off of work again.

May 12, 2023, Decherd, TN – Chris Fowler is a teacher and defensive line coach for the football team at Jackson County High school. He was diagnosed with Hodgkin’s Lymphoma.

Our guy Chris Fowler has been diagnosed with Hodgkin's lymphoma and will be starting his journey to beat cancer this Friday May 12, 2023. Chris, or as his former teammates call him "Fowl," will be undergoing treatment every two weeks for the next 6 months. His doctors are very optimistic and have called this type of cancer very treatable and curable.

The purpose of this Go Fund Me is to help raise monetary donations for Fowl and his amazing family. Chris is one of the most loving human beings that has ever graced this Earth. His passion for his family, his faith, his friends, and football are second to none. There isn't a better man you can run across than him. There isn't a more supportive wife and partner for Chris than his wife Dani. Chris and Dani have created an absolutely beautiful family full of boys (Waylen, Drake, & Beau). These two are also teachers at Jackson County High School and Chris is the defensive line coach for the football team.

May 12, 2023 - Watford City, ND - Rachel Meuchel is a school counselor at Watford City High School. She was just diagnosed with Grade 4 Astrocytoma brain tumor.

Rachel Meuchel's Fight

Olivia Dwyer is organizing this fundraiser on behalf of Corey Meuchel.

Rachel Meuchel is a school counselor at Watford City High School. She is also a mother to four handsome boys, a rancher/farmer's wife, a beautiful writer/singer and a wonderful friend.

After a Muffins for Mom event, Rachel became light-headed and started having spasms on her left side. She went to the hospital and found out there was a mass in her brain. The next 24 hours were a whirlwind. She was flown to Bismarck where she underwent an MRI. The results of the MRI led to brain surgery to remove as much of the mass

June 14th, 2023 by Olivia Dwyer, Organizer

Rachel's tumor was officially classified as a Grade 4 Astrocytoma. The genetic testing indicated a mutation called IDH which helps the prognosis. However, the treatment plan ahead is extensive. She underwent a 2nd brain surgery Monday, June 12. The Neurosurgeon was happy with the amount of tumor he removed. This should provide room for brain swelling that might occur during her 6 straight weeks of radiation. That will begin in a few weeks.

April 29, 2023 - Silsbee, TX - Cindy Lindsey, a 3rd grade teacher, was just diagnosed with Hodgkin's Lymphoma.

Cindy Lindsey's Medical Expenses

Teshauna Turk is organizing this fundraiser on behalf of Cindy Lindsey.

My name is Teshauna Turk. My dear friend and colleague, Cindy Lindsey, has been diagnosed with Hodgkins Lymphoma. Cindy is loved by all that know her. She works two jobs and has an amazing spirit. This young lady stacks bread at Wal-Mart early each morning then goes to school to teach her third grade students. Cindy is engaged to be married in June. This fundraiser will go directly to her to help with medical expenses related to her diagnosis. Cindy has given so much of herself to our town and students, let's help her now.

April 25, 2023 - Austin, TX - Lori Chester, a music teacher, was diagnosed with Stage 4 Diffuse Large B-Cell Lymphoma.

URGENT NEED Let's Help Lori Chester

Mari Lee Chartier is organizing this fundraiser on behalf of Lori Chester.

URGENT NEED Let's Help Lori Chester

Lori has recently learned that she has Stage 4 double hit diffuse large B cell lymphoma.

April 1 she called and asked me to help her get to the ER due to pain in her back. She has been on a roller coaster ever since.

Lori has dedicated her career to teaching private flute lessons to hundreds of students over the years. With her chemotherapy she will have an interruption in her income.

You might know that Lori is the sole parent for three children.

Chester, who is a college student. Pearl, who will graduate from high school this year.

Rose, who is a freshman in high school.

Let's show Lori our support for her battle.

April 24, 2023 - East Wenatchee, WA, Jessica Morlan, music teacher and mom of 5, died after a 9 month battle with Stage 3 T-Cell Lymphoma.

5littlehickies • Follow

5littlehickies God is good, merciful and faithful. He has heard and answered our prayers. Yesterday morning, my bride received her perfect and eternal healing. Jessica is in the presence of Jesus - no longer suffering and living in His perfect peace. Her life glorified the God that she loved and served. The impact of her life will ripple through eternity. She loved completely. Was loyal to the core. Spoke truth and was not afraid to stand alone. She changed my life and countless others. She suffered with grace and trusted Jesus through her final breath. I honor my bride of 27 years and our children call her blessed. I love you Jessica Morlan.

Last Tuesday I went to the ER due to intense belly pain- self diagnosing a gall bladder issue. After tests, I was told that I had a tumor in my small intestines that caused a bowel blockage that was ultimately caused by cancer. Not my Gall Bladder. 😞

Wednesday, I had emergency surgery to remove the grapefruit size tumor and also collect any available lymph nodes that were enlarged and fluffy. Friday of last week they narrowed down my cancer to lymphoma. Saturday, I was discharged to heal at home. Tuesday of this week I got staples out from my midline incision that is 8 inches. Yesterday, I got the particulars of the lymphoma. I have a rare aggressive T cell lymphoma. We met with my oncologist today. Next week I will have a port installed. I will also have a bone marrow biopsy. Next Saturday I will have a PET scan. By mid July I will start chemo. I need 3 weeks from abdominal surgery to start chemo because the medicine can aggravate my internal incision. I will have 6 rounds of chemo and then finishing up a bone marrow transplant. (Mind blown)

This is a lot, my friends! I know. We are spinning. It's crazy to think you are healthy one moment and very sick the next.

April 11, 2023 - Washington DC - Grace Lim is a public school teacher who was diagnosed with triple negative breast cancer.

Help Devoted Public School Teacher Defeat Cancer

 Jasmine Haddad is organizing this fundraiser on behalf of Grace Lim.

Hi, we are writing this GoFundMe campaign to ask for your help in supporting our dear friend and amazing colleague Grace. She has recently been diagnosed with Triple-negative Breast Cancer and the cost of treatment is substantial. We need your help to ensure she receives the care she needs. All proceeds will go directly toward the cost of Grace's medical treatment. Even the smallest contribution will go a long way. Thank you for helping in this time of need. Please keep Grace in your thoughts and prayers as she continues her fight against breast cancer.

March 20, 2023 - Scottsdale, AZ - 54 year old Lisa Domini, kindergarten teacher at Hopi Elementary School, died after a 5 month battle with Stage 4 Bile duct cancer (cholangiocarcinoma).

Honor MS. DOMINI & shine light on her beloved kids

Ashley Blalock is organizing this fundraiser on behalf of Lisa Domini.

Hi, my name is Ashley Blalock, and on behalf of our fantastic parent community at Hopi Elementary School, I am fundraising for our beloved Kindergarten teacher, Ms. Lisa Domini! To know Lisa is quite simply to love her. She has the most positively contagious and uplifting energy, and all of those young & old who come in contact with her are better for it. In 30 years, she has taught over 750 young students in the Valley, including my son and daughter. Kindergarten teachers have one of the most important and life-changing jobs, as they help our babies become independent, confident learners in ways that we, as parents, could not.

In mid-September 2022, Lisa went to her doctor because she had sudden stomach pain and nausea. The next day her symptoms worsened, and she noticed her eyes were yellowing, so she went to the Emergency Department. They did a CT scan and identified a mass in her liver and gallbladder. Further testing identified that she has bile duct cancer (cholangiocarcinoma). This is a rare and severe condition, with only about 8,000 cases identified in the U.S. annually. Lisa has chosen her care team at the prestigious Mayo Clinic in Phoenix, AZ, consisting of top-ranked oncologists and palliative care specialists. She is still waiting for her treatment plan due to a few hospitalizations and infections that have set her treatment back. Lisa is willing and ready to kick cancer's b*tt (remember... she's a Kindergarten teacher) at a moment's notice. She has much to live for and so much love and learning to keep spreading.

Today she is a master's prepared Kindergarten teacher at Hopi Elementary in Scottsdale. She is a single mom to three accomplished college students, Ally, Andrew and Nicholas. At night she teaches online classes at the University level, helping to educate new teachers-in-the-making in this time of great need.

My Take...

Special thanks to Twitter user [Janiesaysyay](#), for finding many of these tragic cases.

This is just a sample of the tsunami of aggressive (often Stage 4) cancers that are decimating teachers in the USA, who faced COVID-19 mRNA vaccine mandates in 2021 and 2022.

In this sample, this is how the cancers break down:

- lymphoma - 10
- brain cancer - 8
- colon cancer - 5
- pancreas, hepatobiliary, breast (both triple negative) - 2 each
- lung, cervix, thyroid, leukemia, multiple myeloma - 1 each

In my previous substack about [Turbo Cancer in nurses](#), the top 3 were:

- lymphoma (6), colon cancer (6) and breast cancer (5).

Pfizer & Moderna COVID-19 mRNA vaccines can cause (through damage to the immune system) aggressive turbo cancers which often present at a late stage (usually stage 3 or 4), grow very rapidly, spread or metastasize rapidly and are generally resistant to conventional cancer treatments (chemo, radiation).

CONCLUSION: It is shocking to see so many young teachers come down with such aggressive end stage cancers.

Oncologists cannot continue to ignore this new phenomenon of COVID-19 mRNA Vaccine Induced Turbo Cancer, forever.

There are definite patterns emerging here.

Lymphoma is clearly a big problem in the COVID-19 vaccinated.

But it's not just lymphoma – look at breast and colon cancers.

Why is breast cancer in the COVID-19 vaccinated usually triple negative?

Why is colon cancer in the COVID-19 vaccinated so aggressively metastatic?

Why so many aggressive and inoperable brain tumors?

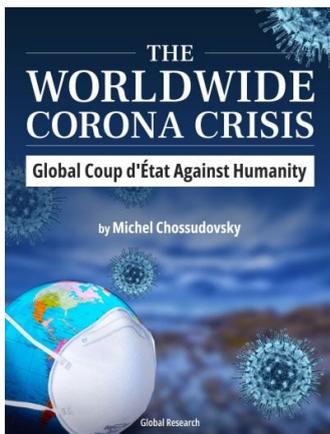

Look for these patterns in ALL COVID-19 mRNA vaccine mandated professions – doctors, nurses, teachers, police, firefighters, military, government workers, etc.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
