

Twenty-one Years Ago, Global Research Embarked on Its Mission to Spread the Truth

By [The Global Research Team](#)

Global Research, September 08, 2022

Just two days before the 9/11 attack, Prof. Michel Chossudovsky singlehandedly launched the Global Research website.

Among the first articles was a coverage of the events surrounding the “terrorist attack” and the subsequent US invasion of Afghanistan on October 7, 2001.

Since then, Global Research has been committed to delivering facts that are buried elsewhere — from US-NATO imperialistic ambitions, war crimes, crimes against humanity, to worldwide COVID-19 tyranny, and the imminent danger of nuclear war.

So much has changed since 2001 but our mission remains the same — to uphold the fight for truth, peace and justice.

On our 21st anniversary, we would like to extend our deepest gratitude to our authors and readers for all their contributions and support all through the years. Our thanks also to all independent voices, journalists, scholars, lawyers, scientists, medical doctors, health professionals and activists for challenging the establishment’s lies at the expense of their career and safety.

Even before but more so at the onset of the pandemic, we have been the object of censorship that has affected our worldwide reach. We’ve been blocked from mainstream social media platforms. In April this year, we were threatened with coordinated cyberattacks emanating simultaneously from five countries targeting Global Research with several hundred million “malicious DoS requests” (“A Denial of Service”).

For this year onwards, we only have one wish: that more and more people will awaken to the truth and fight for freedom and rights.

Help us sustain our mission and fulfill our wish:

1. Become a member of Global Research and be our messenger to the world.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
