The UK government is funding a Nazi regime in Ukraine rather than prioritizing its domestic national interests.

Britain's parliamentary warlords have to date gladly provided £2.1 Billion to fund the Ukrainian war effort rather than budgeting to fix the UK's gutted NHS, declining educational system, historic poverty or ever-increasing homeless population. With the deplorable state of the UK in mind, why does the British public continue to ignore this national decline in favour of Ukraine's factual allegiance to neo-Nazism?

Answer: the lies of the British media.

It is high time to factually challenge the British media cover-up of Ukraine's neo-Nazi connection by exposing the inconvenient truths regarding its allegiance to Nazi-inspired Ukrainian leader Stepan Bandera, the Ukrainian Right Sector, and the Azov Battalion whose swastikas are steeped in the blood from the slaughter of 14,000 eastern Ukrainians.

The origin of the war in Ukraine and its propagation of neo-Nazism can be traced back to the 2014 Ukrainian *"Orange Revolution"* that saw America help overthrow the legitimately elected president Viktor Yanukovych and create the terror of Maidan Square. Months before, Assistant US Secretary of State Victoria Nuland had publicly stated that the US had spent US\$5 Billion to support US-style democracy in Ukraine. When that *"democracy"* spiralled into predictable national violence much to the dismay of European leaders, Nuland famously stated, *"Fuck the EU."* A three-word synopsis for US democratic diplomacy then and now.

Regionally and culturally Ukraine is divided East to West, on either side of the Dnieper River with the capital, Kyiv at the north end. Eastern Ukraine is primarily culturally Russian and has been for centuries. The 1939 Molotov/ Ribbentrop Pact divided Ukraine along new borders and today western Ukraine is far more aligned culturally and politically with western Europe and the US. For these reasons, western Ukraine has great animosity towards the East, hence the 2014 election was very close and violent.

Yanukovych was from the Donbas of far eastern Ukraine and until the 2014 election, the people of the city regions of Luhansk (LPR), Donetsk (DPR), and the Donbas had little to fear from the Ukrainian government. These regions are the important industrial, manufacturing and mining centres of Ukraine while the western half is far more agrarian. Regardless, east and west lived in relative harmony post-1939 until 2014. On Feb 20 that year pro-democracy snipers murdered in cold blood forty-nine innocent Ukrainians and four policemen in one night during the US-backed post-election protests against Yanukovych at Maidan Square.

The murders- falsely blamed on Russia- had the intended effect of sending Ukraine into a

tailspin of East vs. West anti-Russian ultra-violence. Yanukovich abandoned the presidency and went to Russia and the parliament installed [Arseniy Yatsenyuk](#) as temporary president until new elections brought to power Petro Poroshenko who was aligned with US interests and did nothing to restrict the growing influence of the neo-Nazi Right Sector or Azov Battalion.

Thus began the Ukraine war.

For the western media to cover up the neo-Nazi connection in Ukraine is the biggest lie of this war. I have recently returned from two months of reporting in and around Ukraine. Certainly, both sides are guilty of atrocity but I have seen a different kind of barbarity by the AFU that is beyond the pale of war because the AFU and the Avovs consider and treat all Ukrainian Russians, Jews and even peace advocates as vermin. They have given up all morality. I can bear witness to the killings of the innocent, the torture and killings of prisoners, the firing on civilian targets, the mining of the humanitarian corridors to prevent escape, and the execution of anyone who suggests peace much less negotiation, and I have seen the Swastikas and pro-Nazi tattoos scrawled on the hands, arms, necks and chests of the AFU killers.

This is evidenced by a Ukrainian politician, Andriy Parubiy. He has served as Deputy Speaker and Speaker of the Ukrainian parliament from 2014 to 2019, and Secretary of National Security and the Defence Council of Ukraine. [Andriy Parubiy is a Nazi.](#) He has proudly proclaimed this many times before his parliament, before the Ukrainian military and the public on TV.

When Poroshenko was elected, Washington used this opportunity to open the flood gates into Ukraine for US weaponry and military training in preparation for its eventual de facto assault on the East and Russian influence there. As such, Ukraine incrementally became the largest military in Europe. It was also at this time that the previously suppressed “Banderists” dominated the AFU and Ukrainian politics, much to the pleasure of the US and NATO.

The Right Sector is admittedly disciples of Stepan Bandera and exerts neo-Nazi influence as they act as a political watchdog propagating their philosophy across Ukraine. The AFU is not exclusively Banderist but the massive Azov battalion stationed in the east is predominately so. Like Bandera, they hate Ukrainian Russians and Jews. The United Nations Human Rights Commission reported that the Azovs have killed over 14,000 eastern Ukrainians since 2014, as the East begged Russia for military assistance to help their regional militias fight back.

To stop this slaughter in 2014 Russia brokered a truce called the Minsk Protocols which the AFU ignored. This was followed in 2015 by Minsk II which also had no practical effect on the AFU genocide. For seven years this terror continued unchecked as Washington salivated in the wings for more dead Russians.

In 2019 Volodymyr Zelenskyy, a comedian and actor famous for his role in the TV series, *Servant of the People*, defeated Poroshenko in a landslide by promising peace by honouring the Minsk accords and controlling corruption and the rising violence of the Right Sector. But it took mere months for the Ukrainians to become the brunt of this comedian’s dark joke that saw him become, not a leader for peace, but a US and Banderist puppet.

With the collapse of the Soviet Union and its divestiture of its many satellite countries in 1990, NATO had promised not to expand into these countries. However, almost without exception NATO expanded and began to ring Russia with US weapons and NATO influence. With Ukraine being the launching point for past wars against Russia, the Kremlin had made it clear to the US that Ukraine joining NATO was a red line.

For the UK media to suggest that Russia was *not* incrementally provoked into defending

both eastern Ukraine and its own national interests is to turn the truth on its head. With Spring being historically the best time to begin a war, during February Zelensky ordered the Azov Battalion and the AFU to begin amassing 100,000 troops and munitions towards the east in preparation for a massive attack designed to take back the autonomous eastern regions.

The DPR, LPR and Donbas militias again begged Russia for intervention but Putin still refused. Instead, the Russians tried diplomacy and repeatedly contacted Washington and Kyiv in an effort not to militarily intervene. The demands were simple and rational: Abide my Minsk I & II; not attack the East; de-Nazify the AFU and not join NATO.

The US and Kyiv did not so much as respond. In an effort to get a negotiated response, and with the AFU continuing to amass forces eastward, Russia began to prepare its army on the Russian/ Ukraine border. Instead of negotiating with Russia for peace, Ukraine and the western media falsely screamed "*Russian aggression.*"

Then on the last week of February Zelensky did the unthinkable. He informed the US that he was now willing to allow US nuclear weapons into Ukraine.

The next day, February 24th, the Russian army crossed into eastern Ukraine. Thus began the Russian / Ukrainian war and the incredible barbarity of the AFU.

For the western media to cover up the neo-Nazi connection in Ukraine is the biggest lie of this war.

I have recently returned from two months of reporting in and around Ukraine. Certainly, both sides are guilty of atrocity but I have seen a different kind of barbarity by the AFU that is beyond the pale of war because the AFU and the Avovs consider and treat all Ukrainian Russians, Jews and even peace advocates as vermin.

They have given up all morality.

I can bear witness to the killings of the innocent, the torture and killings of prisoners, the firing on civilian targets, the mining of the humanitarian corridors to prevent escape, and the execution of anyone who suggests peace much less negotiation, and I have seen the Swastikas and pro-Nazi tattoos scrawled on the hands, arms, necks and chests of the AFU killers.

Many facts are being covered up such as the network of US bio-weapons labs discovered across Ukraine and that the Ukrainian army is not winning this war, it is being decimated. Air Force, Navy, fuel refineries, supply and railway lines destroyed. 50,000 men dead with so many surrendering that the Russians are building larger POW camps. All men 16-60 being-by law- conscripted as replacements. NATO munitions supplies destroyed as soon as they cross the Polish border, and command and control communications centres are in ruins.

This day Boris Johnson's favourite democratic champion, President Zelensky signed a new law banning all opposition parties from existence after already arresting five generals and the main opposition leader, Viktor Medvedchuk as "*anti-heroes*" for the treasonous crime of suggesting peace.

Thus factually challenged here, the neo-Nazi connection properly exposed and the big lie of this war properly exposed *is it not* time for an increasingly impoverished Britain to now

demand of Mr Johnson, their parliament, and the British media the most fundamental, important *and intelligent* of age-old questions.
