Our humanity is obsessed with power.

The currently ongoing and devastating Ukraine-Russia war is the result of such power obsession. Let’s look back and analyze what may unfold, when we connect the dots; how the WEF may be crucially involved in this war. A war of Power towards the Great Reset?

Ever-so-often, one or a group of extreme power-crazy people wants to take over a country, a region – and even the world, as we see it happen now. And in the process thousands, or millions of innocent people die, or are thrown into abject misery. And that for the whim of power-thirsty people, whose mind for some sick reason has become “possessed” with evil and they believe they must control humanity and the globe’s resources.

Similar events, on much smaller scale, have happened many times in the past 100 years, let alone in the last 2000 years and all the way back, since humanity exists. Progress today of humanity, when all is said and done, despite all the so-called technical “advances”, is insignificant. And today’s perpetrators have similar motives like those of thousands of years back. They have similar mental diseases, thirst of domination, fed by hate, as they had then. They lead to similar criminal behaviors.

What is happening today and has been playing out over the past two years is a worldwide crime against humanity, of biblical proportions, never experienced in recent history.

It is maybe the largest and most illicit attempt at world control, to the point where it literally threatens the future of humanity. This has been prepared for decades, possibly for at least a century.

It has been cleverly planned in connivance with what humanity thought having created to

preserve peace, justice, nations' sovereignty and human rights – *with a deceptive United Nations*.

Today the playbook is called the UN Agenda 2030. The agenda is being disguised as a noble plan presenting to the world 17 so-called Sustainable Development Goals (SDGs), decided by a UN Summit of the same name, in September 2015 in NYC. Reaching these SDGs pretends to mainly lift the Global South out of poverty.

Any politician or serious economist who looks at these development goals, will soon see that implementing them is an absolute illusion, from points of view of costs, political will, implementation capacity and many more impending factors which are not even addressed in the 17 SDGs.

The political architects who designed them, or the masters behind them, know exactly that the SDGs are but a smoke screen, that they can never be fulfilled. So, what's behind this smoke screen?

An unbelievable deranged concept that was prepared by a long-hand, probably for decades or more; *a solid concept that is difficult – but not impossible – to undo*, especially because the people behind this global construct are powerful financial individuals or entities, that have no scruples, no remorse, no human conscience.

What could be the executing “construct” behind the monstrous plan? – Could it be the World Economic Forum (WEF) under its founder and eternal CEO, Klaus Schwab?

The WEF was created in January 1971, as an NGO. It is headquartered in Cologny, a lush suburb of Geneva, Switzerland. As of this day it remains an NGO – alas, by far the wealthiest most powerful NGO in the world, controlling or leveraging billions of dollars through associated businesses, corporations and financial giants. The WEF started as the European Management Forum, and converted in 1987, with the support of the European Commission, to today's WEF. More outreach – around the globe – more money – more power – more control.

The WEF's stated purpose: *Directly influencing global agendas & decision making, promoting public-private cooperation* – see [this](#).

Klaus Schwab is the ideal leader for the sick-wealthy multi-multi billionaire elite. This mentally deranged elite want to control literally the

entire universe, if they could. Just listen and watch Elon Musk with his space shuttle plans, attempting at controlling parts of the universe. They also want a globalist fully digitized One World Order – better called a *One World Tyranny (OWT)*, which Schwab also calls the 4th Industrial Revolution, alias, *The Great Reset*. Its Klaus Schwab's wet dream *numero uno*. And certainly, supported by lots of think-alikes around the globe.

He is well-qualified for carrying out their agenda. His influence peddling reaches “high-flyers”, politicians, industrialists, corporate managers, artists – anybody of “name and reputation” – around the world.

Through the now famous – some would call it infamous – annual meetings in Davos, Switzerland, where the elite and their associates meet, Schwab and his cronies intend to shape the world according to their own concocted scheme. Of course, Schwab also meets his power-friends and buddies through other special events and personal contacts, to concoct world-decision-making in private.

If you were to tell this story to an Alien from outer space, he / she would not believe it. Unless these “people” who intend to shape the world of some 7.9 billion people according to their will and image, are themselves unelected “aliens”.

Imagine, nobody has elected either Schwab or the WEF, or any of his wealthy corporate and finance cronies. Yet, they behave as if they owned Mother Earth – maybe the entire universe. A thought worth pondering about.

In the words of David Rockefeller:

“...The world is now more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries.”
(quoted by [Aspen Times](#), August 15, 2011, emphasis added)

We, the People, shall not accept any unelected self-imposed individual or entity – not Schwab, not the WEF, not the G-7, not the G-20 – not NATO – to decide over our lives, the lives of our children.

People, wake up!

The Great Reset emerged from Covid-19

The Great Reset which Schwab says emerged from Covid-19, seems according to Schwab to have the support of the world elite – not the world's population at all. It is, again according to Schwab, a unique opportunity to reshape the world. Unelected, but he and his cronies decide how 7.9 billion people must live.

Has he asked the people around the world whether they want to be reshaped according to his neoliberal dictatorial and people-enslaving, unfriendly ideas? No, of course not. Megalomaniacs never care for the people.

We, the People, shall not accept it; We, the People shall overcome.

The Great Reset and the Putin-Schwab Relationship

The WEF and Co, using their influence and even flexing their muscle, if they were interested in Peace, could stop the currently ongoing atrocious war in Ukraine. They could stop the atrocious killing. But the WEF remains silent except for removing any reference of Putin's relation to the WEF from the WEF's website. What does that say?

President Putin in his keynote address of the virtual "Davos" in 2021, boasted about his 30 years-old friendship with Klaus Schwab. Putin also attended Klaus Schwab's academy for "Young Global Leaders" (YGL).

All references and photos referring to this fact, disappeared from the internet. Putin's name was erased from the WEF's website. The WEF, alias Klaus Schwab, does not want the world to believe that he is associated with Putin. Obviously, such a relation doesn't usually disappear overnight. It's just no longer readily visible to the world at large.

These photos speak for themselves.

Below is Klaus Schwab's introduction of Vladimir Putin at the January 2021 virtual WEF Meeting, inviting President Putin to deliver a special address.

Vlad opens his speech by referring to his friend Klaus – mentioning that they know each other since 1992 – a 30-year long friendship (authors addition) –

see [full video \(43 min\)](#).

Has President Putin broken with Schwab, with the WEF, with the elite circles that run the west – and attempt to run Russia and the world? It is possible, but for now it remains an enigma. There are still too many dots that do not connect. For example, the Head of the Central Bank of Russia, Ms. Elvira Nabiullina.

Mr. Putin made every effort to have good relations with the west, to cooperate with Europe – to no avail. The more he tried, the more he was rejected. His relentless overtures towards the west, his diplomatic approaches, appeared to the outside observer almost as ridiculously subservient.

One of the latest incidents, is the apparent failure of having taken control of the Russian Central Bank, leaving it in the hands of an apparent western Fifth Columnist, Ms. Nabiullina; thereby losing most likely some US\$ 500 billion equivalent in Russian reserves, “blocked”, a euphemism for “stolen” – by the G7 countries.

Is this a planned farce, or real?

Ms. Nabiullina was also President Putin's economic adviser from May 2012 to June 2013, after serving as minister of Economic Development and Trade from September 2007 to May 2012.

As of 2019, Ms. Nabiullina was listed as the 53rd most powerful woman in the world by *Forbes*.

Only recently has Mr. Sergey Glazyev, an economic genius, returned to the Kremlin, as Mr. Putin's chief adviser. One of Glazyev's first brilliant advice, made reality by Putin, was a decision that all hydrocarbons sold by Russia to the west must be paid in Russian rubles.

As a consequence, the ruble's value jumped overnight to the highest level since the beginning of the war. It is poised to rise even further as the western world is desperate for energy – and Russia is a key supplier.

May we soon have a Petro-Ruble that would allow Russia to print illimited amounts of rubles, as did the US Treasury, when in 1973 the US-dollar became the OPEC currency for trading in hydrocarbons?

How would that fit the WEF's intentions of a globalized, digitized world under a One World Tyranny, with eventually one digitized currency – controlled, by whom else, the western financial oligarchs?

Then there is Ukraine's President Volodymyr Zelenskyy. He is no stranger to Klaus Schwab either. He seems to have rather a cozy relationship with Klaus Schwab. Was the WEF instrumental to put a former comedian at the helm of Ukraine? Maybe time will tell.

As of now, Schwab and the WEF appear to be equally silent vis-à-vis Zelenskyy, not even recommending an armistice *cum* Peace Agreement. One wonders why not?

One would have hoped, the WEF's influence would be there to stop the fighting, the insane

killing, by calling both sides to a negotiating table, by promoting Peace.

In the face of this senseless killing of tens of thousands of innocent people, destruction of entire cities, peoples' homes, why doesn't Schwab even try? What's his agenda? One just wonders whether the WEF has a Peace or War Agenda since the WEF's boss seems to be friendly with both leaders of this brutal war but remains silent, doesn't call them to reason for Peace Talks.

Maybe the war, like the Covid fraud before the war – are they part of Klaus Schwab's plan and dream of the Great Reset?

Assuming the Covid fraud was and is part of the Great Reset – since Klaus Schwab said jubilantly in the mid 2020's when his Reset-book was issued,

"The pandemic [Covid-19] represents a rare but narrow window of opportunity to reflect, reimagine, and reset our world".

Does Schwab know what is in the vaxxes that were hurriedly developed? That they may serve an eugenist agenda and over time resulting in contribute killing untold-millions, maybe resulting in hundreds of millions of deaths?

There are allegations that some of the vaxxes, especially the Pfizer and Moderna mRNA jabs, contain poisonous or deadly substances, like graphene oxide, the HIV-virus, and "adjuvants" (term used by Moderna) to sterilize women and to cause miscarriages. See [this](#). None of this is proven as of yet, and needs further investigation.

The Ukraine Crisis

Ukraine is the cesspool of the west, for trafficking of women and children, of drugs, of human organs; where billions upon billions of dollar-equivalents are laundered; where high-ranking US politicians and their sons do their shady businesses, among them, Hunter Biden, President Biden's son.

There are others, offsprings of US Senators, uncontrolled, because in a swamp only the mafiosi and – of course – white-collar criminals stay on top of the fraud and misdeeds that in any civilized country could not go unpunished – see also [this short article](#), including a 4-min video by American on-the-ground journalist Laura Logan. She leaves hardly a stone unturned.

The place of war – Ukraine – is a western-oriented country, but strangely none of the western leaders get seriously involved saying stop. It wouldn't have to be NATO, it could be any of the European brother-countries, in solidarity calling on Russia to stop and seek a peace agreement, or telling Zelenskyy to accept Putin's conditions for at least a ceasefire to seriously negotiating a peace agreement.

Anyone of these leaders (sic) could offer mediating. Strange, none of them does. All prefer sanctioning the "villain", knowing very well that the main sufferers of these sanctions are the European themselves.

Instead, there are rumors of a NATO impending attack on Russia. Lets hope and pray that they remain just rumors.

Is the western countries' inactivity towards Peace and instead committing economic suicide with boomerang-sanctions, part of their sacrifice for a bigger plan, they may have concocted with the WEF, a giant step towards The Great Reset?

Again, no matter, how many civilians, including children and women are killed in the process, these Globalists have no regard for human lives. Globalists are megalomaniacs, striving for a One World Tyranny (OWT).

In addition to the thousands killed, the war has already produced 2 to 3 million refugees fleeing to western Europe, where, on the surface, they are relatively well received. Their welcome is in direct juxtaposition of the way the west, speak mainly Europe, treats war or political and economic refugees from Africa, Afghanistan and other countries with colored-faced people. These colored faces, women and children and men, are frequently rejected and discriminated in Europe, though most of them come from utmost hardship situations and poverty.

As a sideline, doesn't that in itself already tell a story about the west? If they are capable of such ruthlessly flagrant and open discrimination – aren't they logically also capable of "colluding with the devil", arguably with the WEF and all those supporting and driving the Great Reset forward, towards a One World Tyranny?

The US has multiplied its weapons sales by a factor of 8 since the preparation to and the beginning of the war- most for export to NATO countries which then transship them to Ukraine, where they are being handed out to sometimes trained military or non-military personnel. For sure, many of these uncontrolled weapons that enter Ukraine will end up on the black market – with mafia-type organizations, or being re-exported.

US economic growth recovers:

"War is a condition for new growth, that is, it is the continuation not only of politics, but also precisely the continuation of the economy by other means." (Claudia von Werlhof, German sociologist and political scientist). The US economy depends to more than 50% on the military industrial complex, including other war-related industries and services.

Wars and conflicts would be needed in the future too, under a New World Tyranny (NWT), as long as we maintain the neoliberal financial and economic structure. Ukraine is just a precursor to more to come, with the world economy in shambles – planned shambles – creating the momentum for bringing in an all-digital currency financial system.

War is profitable. Killing is hugely profitable. Mass killing with weapons of mass destruction even more so regardless whether they are in the tens of thousands of western-loved Ukrainians – what a hypocrisy!

Death is profit.

And the omni-powerful WEF does not intervene for Peace, for stopping the killing? The so-powerful WEF that wants and pretends to reset the world, to make it a "better place", under its guidance?

And what about this jewel? BlackRock's Larry Fink in a recent letter to shareholders says, "But the Russian invasion of Ukraine, has put an end to the globalization we have experienced over the last three decades...." – Real or fake? See [this RT link](#).

Larry Fink alias BlackRock, is an intimate supporter of Klaus Schwab's and the WEF. What would a deglobalizing war mean for the Great Reset?

Ukraine war: Towards the "Privatization of Nuclear War"?

On 22 March 2020, Professor Chossudovsky wrote:

"... On August 6, 2003, on Hiroshima Day, a secret meeting was held behind closed doors at Strategic Command Headquarters at the Offutt Air Force Base in Nebraska."

"Senior executives from the nuclear industry and the military industrial complex were in attendance. This mingling of defense contractors, scientists and policy-makers was not intended to commemorate Hiroshima. The meeting was intended to set the stage for the development of a new generation of "smaller", "safer" and "more usable" nuclear weapons, to be used in the "in-theater nuclear wars" of the 21st Century." ([Michel Chossudovsky](#), August 2011)

This meeting was instrumental in setting the stage for ["the privatization of nuclear war"](#) leading up to Obama's \$1.2 trillion-dollar nuclear weapons program, which is now slated to increase (under Biden) to \$2 trillion by 2030. ([Ibid](#))

Is this an indication that there is no immediate end in sight for the Ukraine war? That it may turn nuclear?

Chossudovsky continues,

"The unspoken reality of a nuclear war is *Mutual Assured Destruction* (MAD) and the End of Humanity as we know it."

Privatization of the Russia-Ukraine war may arguably be an instrument to accelerate The Great Reset – alias, the completion of UN Agenda 2030. If so, it would contradict Larry Fink's prediction of the end of globalization. It would make the WEF's silent involvement in the war – by "tolerating" it – and Russia's actively playing along, as a highly valuable partner of the WEF, understandable, but never ever justifiable.

President Putin's closeness to Schwab and the WEF is further demonstrated by Russia's building a *"Centre for the Fourth Industrial Revolution"*. It will be hosted by ANO Digital Economy in Moscow. ANO (Autonomous Non-profit Organization) is a platform for public-private cooperation, promoting Digital Economy, coordinating the participation of expert and business community. *"It will work across the global network to maximize the benefits of technologies such as Artificial Intelligence and Internet of Things, while minimizing its risks."*

On 13 October 2021, the WEF published: [Russia Joins Center for the Fourth Industrial Revolution Network](#).

Moscow, Russia, 13 October 2021 – Russia will take a leading role in shaping the trajectory of the Fourth Industrial Revolution. Today, leaders from the Russian Federation and the World Economic Forum announced the Centre for the Fourth Industrial Revolution Russia.

Part of the Forum's global Network, the new Centre will bring together leading

businesses, policy makers and members of civil society to co-design and pilot innovative approaches to technology governance.

Over the past five years, the World Economic Forum Centre for the Fourth Industrial Revolution Network has expanded to 15 countries. Project teams worked across public and private sectors to built new policies for drones and commercial aircraft to fly in the same airspace, government procurement of artificial intelligence and accelerated responsible blockchain deployment across the global supply chain.

The Centre for the Fourth Industrial Revolution Russia will be hosted by [ANO Digital Economy](#) in Moscow. It will work across the global network to maximize the benefits of technologies such as Artificial Intelligence and Internet of Things, while minimizing its risks.

Given these precedents of a relatively close relationship between President Putin and Klaus Schwab, the WEF, the question emerges – is this war furthering the WEF’s agenda of a globalized world, a One World Tyranny? Or is Mr. Putin rather breaking with Schwab and the WEF, by a definitive separation from the west?

If so, it could mean an end to the Great Reset as planned and dreamt by Schwab and his cronies and a move towards a multi-polar world, with a massive Eurasian Pole, led by China and Russia, while preserving individual countries’ autonomy and sovereignty.

In the past few weeks, China has repeatedly told the world that a war was not the solution, that Peace Talks should be initiated and that a new world structure should be multi-polar (as opposed to unipolar, as per Klaus Schwab’s dream), and that nations’ sovereignty should be respected.

While it may be too soon to come to a final conclusion, it is never too soon, to remember that with the *unelected WEF* and the associated obscure oligarchs, We, the People, are in the process of being enslaved by an unelected, nefarious dark cult and we will not allow it.

People! Stand up in Peace and for Peace.

We, the People, reject the WEF’s Great Reset, reject UN Agenda 2030;
We, the People, reject an all-digitized, fully controlled and surveilled world;
We, the People, will never-ever accept a One World Tyranny.

Let's return to sovereign nations' states, seeking real democracy, where people decide their lives and their future.

And finally, let's forgive them, they don't know what they are doing.
