The serial war criminality and immense cruelty of the US Alliance has been enabled by the extraordinary mendacity, genocidal racism and resolute exceptionalism of US Alliance governments and Western Mainstream media (MSM). Summarized below are the horrendous realities of the US Alliance-imposed Afghan Holocaust and Afghan Genocide that are ignored by deeply racist, genocide-complicit and genocide-ignoring Western leaders and MSM.

(1) Massive US lying enabled the 9/11 false flag excuse for the invasion and devastation of Afghanistan, Iraq and other Muslim countries. I.F. Stone: “Governments lie” and Gore Vidal: “Unlike most Americans who lie all the time, I hate lying”.

Numerous science, engineering, architecture, aviation, military and intelligence experts conclude that the US Government was responsible for the 9-11 atrocity (3,000 people killed) with some asserting Israeli and Saudi involvement, but US-beholden Western Mainstream media are united in blind belief in the “official version” of mendacious George W. Bush whose administration told 935 lies about Iraq between 9/11 and the invasion of Iraq.

Detailed scientific reports from the University of Copenhagen and the University of Alaska Fairbanks reject the lying Bush “official version of 9/11” and evidence the explosive demolition of the 3 WTC skyscrapers on 9/11 (that necessarily implies US Government involvement in that atrocity). Asserted “terrorism” is to the Zionist-subverted US Alliance state terrorists as asserted “antisemitism” is to the genocidally racist, Islamophobic, anti-Arab anti-semitic, anti-Jewish anti-semitic, holocaust-complicit and holocaust-ignoring Zionists and Apartheid Israel. Re state terrorism, the British have invaded 193 countries, Australia 85, France 82, the US 72 (52 after WW2), Germany 39 and Canada 25, as compared to Japan 30, Russia 25, Apartheid Israel 12, China 2, Afghanistan zero since 1760, Iran zero since the 7th century CE, and India and nearly all of the Developing World zero (0).

(2) The Afghan Holocaust and Afghan Genocide has been associated with 3.6 million under-5 infant deaths, 5.2 million avoidable deaths from deprivation, an estimated 1.6 million violent deaths, and 6.8 million deaths from violence and deprivation in US-, Australia- and NATO-occupied Afghanistan in 2001-2021. US-backed removal of a secular

Afghan government in 1978 precipitated the Russian invasion and war involving US-backed Islamists (avoidable deaths from deprivation 2.9 million, 1979-1989) followed by civil war won by the Taliban (avoidable deaths from deprivation 3.3 million, 1989-1999). The variously US-implicated and US-imposed 1979-2021 Afghan Holocaust has been associated with 13.0 million untimely Afghan deaths.

(3) Global Opiate Holocaust. The US rapidly restored the Taliban-destroyed Afghan opium industry from 6% of world market share in 2001 back to 90% by 2007, and caused 5.8 million opiate-related deaths world-wide since 9/11. The US Government has been successively involved in the opiate scourge in Turkey, South East Asia, Afghanistan and Latin America. US-threatened and US-sanctioned Iran leads the world in interdiction of US-protected Afghan opiates that presently kill about 0.3 million people annually. For religious reasons the Taliban banned alcohol, prohibited smoking for government employees, and banned opium production. Each year smoking, alcohol and illicit drugs kill about 8 million, 2.8 million and 0.8 million people each year for total of about 11.8 million people worldwide. In contrast, 7.4 million people presently die annually from deprivation on Spaceship Earth with the First World, notably the US, in charge of the flight deck.

(4) The US-imposed Iranian Holocaust has been associated with 4 million Iranian deaths in the 4-decade US-imposed Iranian Holocaust, comprising 1 million Iranian deaths in the 1980-1988 US-backed Iran-Iraq War, and 3 million avoidable deaths from US sanctions from 1979 onwards. Iran suffered huge famines associated with British and Russian occupation in WW1 (up to 8-10 million dying in the 1917-1919 famine) and in WW2 (up to 3-4 million dying in the 1942-1943 famine). Following US withdrawal from devastated Afghanistan, a nervous world asks: which impoverished country is next? Iran heads the list followed by Venezuela and Cuba (all subject already to unsuccessful armed US invasions). Iran has zero (0) nuclear weapons as compared to the US (5,800-6,185), Russia (6,372-6,490), China (300-320), France (290), UK (200-215), Pakistan (160), India (150), Apartheid Israel (90), and North Korea (30-40).

(5) The post-9/11 Muslim Holocaust and American Holocaust. The 2001-2021 Afghan Genocide and Afghan Holocaust (6.8 million deaths from violence and imposed deprivation) is part of a US-imposed, post-9/11 Muslim Holocaust and Muslim Genocide (32 million Muslim deaths from violence, 5 million, and imposed deprivation, 27 million, in 20 countries invaded by the US Alliance since the US Government's 9/11 false flag atrocity that killed 3,000 people). 1.7 million Americans die preventably each year from "lifestyle choice reasons" and from "political choice reasons". Thus 1.7 million per year x 20 years = 34 million Americans have died thus since 9/11. Since 9/11 Zionist-beholden US Administrations have spent \$6 trillion on killing over 30 million Muslims abroad rather than trying to keep over 30 million Americans alive at home. 30% of Biden's Cabinet are Jewish Zionists and the remainder are "moderate" Christian Zionists as opposed to the fervently Trumpist Evangelical Zionists.

(6) There have been 7,000 post-9/11 US combat deaths versus 146,000 US veteran deaths from suicide. About 7,018 American soldiers died in the post-9/11 US War on Terror in Occupied Iraq (4,566) and Occupied Afghanistan (3,452), but vastly more US veterans have died from suicide. The US Veterans Administration has found that an average of about 20 US veterans have suicided daily in the past few decades, and thus post-9/11 US veteran suicides have totalled (20 suicides per day) x (365.25 days per year) x 20 years = 146,100.

(7) China observes but the US Alliance grossly violates the Fourth Geneva Convention and the UN Genocide Convention. Killing in war occurs not just through violence (active killing) but also through avoidable deaths from imposed deprivation (passive killing). Mass mortality in a Subject population occurs in gross Occupier violation of Articles 55 and 56 of the Geneva Convention relative to the Protection of Civilian Persons in Time of War (the Fourth Geneva Convention) that unequivocally demands that the Occupier must supply its conquered Subjects with life-sustaining food and medical requisites “to the fullest extent of the means available to it”. Infant mortality (under-1 infant deaths per 1,000 live births) is 12 (China), 16 (Tibet), 6 (USA) and 111 (US Alliance-occupied Afghanistan). The Maternal Mortality Ratio (MMR) (maternal deaths per 100,000 live births) is 20-27 (China), 100 (Tibet), 14 (USA) and 400-1,200 (US Alliance-occupied Afghanistan). Contrary to US Alliance claims of a “Uighur Genocide”, in Xinjiang (50% Uighur and 50% Han Chinese) the maternal mortality rate was 27 per 100,000 in 2018, the infant mortality rate was 14 under-1 infant deaths per 1,000 live births, the average life expectancy was 74.8 years in 2015, and there has been no mass sterilization in the region. That said, China is legitimately criticized for harsh treatment of Uighurs (mass imprisonment of 1 million for re-education), dissidents and Hong Kong democracy protestors. Genocide is defined by Article 2 of the UN Genocide Convention as “acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group”. In relation to “the fullest extent of the means available to it” the GDP (nominal) per capita (US dollars, 2021) is as follows (in brackets) for Afghanistan (\$592), China (\$11,819), US (\$68,309), UK (\$46,344), Germany (\$51,860), France (\$44,995) and serial war criminal US lackey Australia (\$62,723).

(8) Nazi and US Alliance Occupied/Occupier death ratios of 10 and 1,970, respectively. In 1944 the Nazi Germany dictator Adolph Hitler ordered reprisals involving 10 Italian men and boys executed for every German soldier killed by Partisans (effected in the subsequent Ardeatine Caves Massacre). The Occupied/Occupier death ratio for the 2001-2021 Afghan War is accordingly $6,800,000 / 3,452 = 1,970$ or about 200 times greater than the 10 advocated by Nazi mass murderer Adolph. Hitler. Ignoring violent Afghan deaths, the Occupied/Occupier death ratio for the 2001-2021 Afghan War is $5,200,000 / 3,452 = 1,506$ or about 1,500 and thus 150 times greater than the 10 advocated by Hitler. The post-9/11 Muslim Holocaust deaths/ 9/11 death toll = $32 \text{ million} / 3,000 = 10,667$, 1,067 times greater than the Them/Us reprisals ratio of 10 ordered by Hitler.

(9) Vital post-war aid provision for tens of millions of Afghans versus extraction of tens of thousands of US Alliance personnel, collaborators and other anti-Taliban people fearing reprisals. Occupied Afghanistan was heavily dependent on international aid and Biden has threatened to hamper such aid and hence post-liberation recovery if the new regime doesn't play ball. Biden has already frozen the assets of impoverished Afghanistan, a move that will entrench Afghan mass mortality from dire deprivation. The Taliban have declared Amnesty for its opponents and proper treatment of women “under Islamic law” but many remain fearful based on harsh Taliban rule 20 years ago. For Occupied Afghanistan in 2020, under-5 infant deaths totalled 76,000 and avoidable deaths from deprivation totalled 106,000. In 2020 the “under-5 infant mortality as a percentage of total population” for Afghanistan (0.1950%) was a shocking 118.5 times greater than for Japan (0.00145%), evidence of gross violation of the Fourth Geneva Convention by the occupying US Alliance countries. To this carnage we must add the infant mortality and avoidable deaths from deprivation among the circa 3.3 million internally displaced Afghans and the 2.5 million registered refugees in Iran and Pakistan from Afghanistan (present population 39 million, half requiring aid). Those rightly supporting all human rights for all as set out in the 30

articles of the Universal Declaration of Human Rights (UDHR) should also spare a thought for the undoubted right of millions of ordinary Afghan women to see the survival of their children.

(10) Exposure of the perpetrators of the Afghan Holocaust and Afghan Genocide. This is an immense crime that demands war crimes trials of the perpetrators before the International Criminal Court (ICC). That is not going to happen because the US does not recognize the authority of the ICC whereas the ICC cravenly accepts the authority of the US. However international and intra-national war crimes trials by eminent humanitarians are feasible and urgently required. Establishment of the truth is more important than punishment of the guilty (the more so since the latter is unlikely to ever happen). Inspired by the Truth and Reconciliation Commission (TRC) in post-Apartheid South Africa, war crimes trials should be legislatively constituted on the basis that there should be no punishment for truth telling accompanied by sincere apology (see [Gideon Polya](#), "Afghan Holocaust - The Awful Truth Versus US Alliance Lies", Countercurrents, 22 August 2021).
