It's called the ID2020 Agenda, which, [according to Peter Koenig](#) constitutes “an electronic ID program that uses generalized vaccination as a platform for digital identity”.

“The program harnesses existing birth registration and vaccination operations to provide newborns with a portable and persistent biometrically-linked digital identity”.

The founding Partners of ID2020 are Microsoft, the Rockefeller Foundation and the Global Alliance for Vaccines and Immunization (GAVI) among others.

ID2020 is part of a “World Governance” project which, if applied, would roll out the contours of what some analysts have described as a Global Police State.

The EU has adopted the Vaccine Passport.

Vaccine passport - the biggest attack on personal freedom since the creation of the EU.

What is the state allowed to do? What is unfair discrimination? Loss of compensation for vaccine injuries and ethics? Why do Danish authorities test in violation of WHO guidelines?

-Charter of Fundamental Rights of the European Union (Charter)
-European Convention for the Protection of Human Rights (ECHR)
-International Health Regulations from WHO (IHR)

Background & Highlights

The government intends to introduce a vaccine passport to give vaccinated people unhindered access to public space, to cross national borders, etc. Conversely,

ly, non-vaccinated people would lose fundamental freedoms or through burdensome and painful tests every 72 hours be able to maintain basic human rights.

Loud support is given to the proposal from the business community (DI, Horesta, Netcompany, the Danish Shipowners' Association, etc.) - with the aim of re-opening society *more quickly* by ending coronavirus restrictions - for part of the population - and for the sake of *economic growth*.

Let it be clear beyond any doubt: human rights violations for the sake of business are illegal. (Illegal) violation of human rights can be brought before the European Court of Human Rights (after Danish court proceedings) and

before the European Court (for an opinion in a case brought in Denmark, i.e., in the near future). EU law is superior to Danish law.

“It is a condition of EU membership that Denmark complies with the European Convention for the Protection of Human Rights (‘ECHR’).”

The European Parliament has laid down guidelines for a vaccine passport, in which a negative test
