

Video: SAA Syrian Forces Give Turkish Army “A Whipping” in Eastern Idlib

In-depth Report: [SYRIA](#)

| 1

The Russian side officially confirmed that its warplanes supported the Syrian Army striking targets in Idlib. According to it, a battle tank, 6 armoured vehicles and 5 armed pickups were destroyed. Moscow says that Turkish artillery strikes injured 4 Syrian soldiers.

February is coming to its end and the Turkish ultimatum demanding the Syrians to withdraw from the liberated areas is expiring. The inability of Turkish forces to recapture even a single village from the Syrian Army already became a powerful blow to the public image of the Erdogan government. Therefore, it's likely that the Turkish Army will continue their attacks in Idlib paying with own blood for neo-ottoman dreams of Erdogan and its inner circle.
