Global Research Editor's Note and Update

The outcome of this legal procedure was not in favour of Patrick King.

Although successful in the court of public opinion, Patrick did not win the court case, at least NOT YET.

Patrick King has been trending on twitter due to a viral video where it is claimed that the province of Alberta rolled back on their lockdown measures as a result of Patrick's court proceedings and this is not true as Patrick states "I Wasn't Successful, No I did Not Win The Court Case".

In this video Dan Dicks of Press For Truth speaks with Patrick King in order to clear up some discrepancies in regards to what is happening with his case.

Patriot Patrick King represented himself in court after being fined \$1200 dollars for protesting against the Covid-Hoax, he slew the beast and emerged VICTORIOUS.

He issued a subpoena to the Provincial Health Minister for proof that the so-called Covid-19 Virus exists, and they were forced to admit that they had no evidence whatsoever. The virus has never been isolated, and thus the government had no legal grounds to impose any of the punishing restrictions they have inflicted on society.

Since this shocking confession came to light, the Province has since rescinded all Covid-Restrictions and now officially treats Covid-19 as nothing more than a *mild flu*! WE WON!

King has shown the template to be followed WORLDWIDE. This is what can happen when

you are not re-presented by a BAR (British Accredited Registry) Lawyer who's first obligation is to the Corrupted Courts and not their client.
