A constitutional claim against Canadian government actors for their actions in COVID-19 has just been filed at the Superior Court in Toronto, Canada.

A lawsuit against the Trudeau Government for its handling of the COVID-19 Crisis has been launched.

What is at stake is the violation of the fundamental rights of Canadians.

"The mass and indiscriminate containment of citizens, the restriction of access to parliament, the courts, medical and educational services, the destruction of local economies and livelihoods, and the requirement to physically distance, along with the forced use of non-medical masking are extraordinary measures that have never before been imposed on the citizens of Canada."

The Lawsuit against the Federal and Ontario governments [is now in the Ontario Superior Court](#). Listen to Constitutional Lawyer Rocco Galati

Canadians should support this legal initiative, which has barely been acknowledged by the mainstream media. In fact there is a total media blackout.

The legal action against the Trudeau government is not an object of media attention.

Let us not be under illusions. The lockdown, the fear campaign, social engineering not to mention "corrupt science" and "fake data" constitute a criminal undertaking which has resulted in mass unemployment, poverty, famine, and despair. And much more.

Things are not going to "go back normal" unless people across the land, nationally and internationally confront the architects of this diabolical project (including the governments, the financial elites as well as the WHO).

Remember the 2009 H1N1 Pandemic. It turned out to be Fake. Lots of people in Canada fell sick after receiving the H1N1 ArepanrixTD vaccine.

And that vaccine killed a little girl called Amina Abu, which then led to a ten year lawsuit against GSK. That legal procedure is still ongoing.

It was a criminal undertaking on behalf of Big Pharma. There was ample evidence of corruption at the WHO and at the highest levels of government.

Today's COVID-19 pandemic is far more serious. Governments are using the virus as pretext to close down a large part of the global economy, with devastating economic and social consequences.

Politicians are either stupid or totally corrupt. They believe in their own lies. And the lie has become the truth.
