[“As hemp makes a comeback in the U.S.”](#) after a decades-long ban on its cultivation, scientists are reporting that fibers from the plant can pack as much energy and power as graphene, long-touted as the model material for supercapacitors. ...

Although hemp (*cannabis sativa*) and marijuana (*cannabis sativa* var. *indica*) come from a similar species of plant, they are very different and confusion has been caused by deliberate misinformation.”

[Marco Torres](#), Global Research, August 19, 2014

.

Abby Martin takes a look at the real reason why hemp is illegal in the US, the truth might surprise you.

The above video was originally published in March 2013.
