This was posted on Youtube in 2011.

This is the full length 90 min. version of Bill Moyer's 1987 scathing critique of the criminal subterfuge carried out by the Executive Branch of the United States Government to carry out operations which are clearly contrary to the wishes and values of the American people.

The ability to exercise this power with impunity is facilitated by the National Security Act of 1947. The thrust of the exposé is the Iran-Contra arms and drug-running operations which flooded the streets of our nation with crack cocaine. The significance of the documentary is probably greater today in 2007 than it was when it was made.

We now have a situation in which these same forces have committed the most egregious terrorist attack on US soil and have declared a fraudulent so-called "War on Terror". The ruling regime in the US who have conducted the invasions of Afghanistan and Iraq, are now banging the war drum against Iran.
