Guests are:

Dr. Katarina Lindley, a family physician and owner of a direct primary care clinic. She is President-Elect of the Texas Chapter of the Association of American Physicians and Surgeons (AAPS), and World Council for Health Welcomes Steering Committee member.

Dr. Robert Verkerk, founder, Executive & Scientific Director of Alliance for Natural Health (ANH). ANH works towards protecting, developing and implementing innovative and sustainable approaches to natural and sustainable healthcare.

This session is about a new analysis on survey data by the Control Group project, which reveals how over 300,000 people from more than 175 countries have fared without taking a COVID-19 vaccine.

The analysis reveals that the control group did not place a disproportionate burden on health systems and severe COVID-19 disease has been rare. Nine days after the survey report was uploaded, ResearchGate removed it.
