Worldwide, people have been misled both by their governments and the media as to the causes and devastating consequences of the Covid-19 “pandemic”.

The unspoken truth is that the novel coronavirus provides a pretext and a justification to powerful financial interests and corrupt politicians to precipitate the entire World into a spiral of mass unemployment, bankruptcy, extreme poverty and despair.

More than 7 billion people Worldwide are directly or indirectly affected by the corona crisis.

The COVID-19 public health “emergency” under WHO auspices was presented to public opinion as a means (“solution”) to containing the “killer virus”.

The video below is a recording of the March 31st, 2021 Global Research Webinar consisting of an introductory presentation by Prof. Michel Chossudovsky, followed by debate and discussion.

The webinar event was attended by 100 people, including Global Research readers and authors.

The Road Ahead

More than 7 billion people Worldwide are directly or indirectly affected by the corona crisis.

What is required is the development of a broad based grassroots network which confronts both the architects of this crisis as well as the national and regional governments (States, provinces) involved in carrying out the lockdown and closure of economic activity as a means to combating “V the Virus”. The legitimacy of politicians and their powerful corporate sponsors must be questioned, including the police state measures adopted to enforce the various policies. (Face masks, social distancing, public gatherings, etc.)

This network would be established (nationally and internationally) at all levels of society, in towns and villages, work places, parishes. Trade unions, farmers organizations, professional associations, business associations, student unions, veterans associations, church groups would be called upon to integrate this movement.

The first task would be to disable the fear campaign and media disinformation as well put an end to Big Pharma’s Covid vaccination programme.

The corporate media would be directly challenged, without specifically targeting mainstream journalists, many of whom have been instructed to abide by the official narrative. This endeavour would require a parallel process at the grassroots level, of sensitizing and educating fellow citizens on the nature of virus, the PCR test, the vaccine, the impacts of the lockdown, the face mask, social distancing.

“Spreading the word” through social media and independent online media outlets will be undertaken bearing in mind that Google as well as Facebook are instruments of censorship.

The creation of such a movement, which forcefully challenges the legitimacy of the financial elites as well as the structures of political authority at the national level, is no easy task. It will require a degree of solidarity, unity and commitment unparalleled in World history.

It will also require breaking down political and ideological barriers within society (i.e. between political parties) and acting with a single voice. We must also understand that the “corona project” is an integral part of the U.S. imperial agenda. It has geopolitical and strategic implications. It will also require eventually unseating the architects of this diabolical “pandemic” and indicting them for crimes against humanity.
