The fear campaign was sustained by political statements and media disinformation.

People are frightened. They are encouraged to do the PCR test, which is flawed. A positive PCR test does not mean that you are infected and/or that you can transmit the virus.

From the outset in January 2020, there was no "scientific basis" to justify the launching of a Worldwide public health emergency.

In February, the covid crisis was accompanied by a major crash of financial markets. There is evidence of financial fraud.

And on March 11, 2020: the WHO officially declared a Worldwide pandemic at a time when there were 44,279 cases and 1440 deaths outside China out of a population of 6.4 billion (Estimates of confirmed cases based on the PCR test).
