What is Agenda ID2020?

Behind its development is the Bill and Melinda Gates Foundation – with support of the Rockefeller Foundation – and others belonging to the sinister all-digitization, depopulation and eugenics agenda.

It is an alliance of public-private partners, including UN agencies and civil society.

It's an electronic ID-program that uses generalized vaccination against Covid-19 as a platform for digital identity.

It is an all-electronic ID – linking everything to everything of each individual (records of health, criminal, banking, personal and private, etc.), being managed by a state agency or in extremis, by the private sector. – Imagine – an insurance company or bank handling your private records, converted into an electronic and eventually “chipped” ID.

Privatization of your personal records may sound far-fetched, but the Swiss government tried to get a privatized Agenda ID2020 quietly past the people. But the people found out and launched a referendum against Agenda ID2020. The idea was rejected with a margin of 2:1 in July 2021.
