Closing down the Global Economy as a means to combating the Virus.

That's what they want us to believe.

If the public had been informed that Covid-19 is "similar to Influenza", the fear campaign would have fallen flat...

The data and concepts have been manipulated with a view to sustaining the fear campaign.

The estimates are meaningless.

The figures have been hyped to justify the lockdown and the closure of the national economy, with devastating economic and social consequences.

The Virus is held responsible for poverty and mass unemployment.

Note: According to scientific opinion, Covid-19 is akin (similar) to Seasonal Influenza (Flu) (Viruses A, B), Covid-19 is a coronavirus.

The common cold is often triggered by a coronavirus. "Common human coronaviruses, including types 229E, NL63, OC43, and HKU1, usually cause mild to moderate upper-respiratory tract illnesses, like the common cold."

Seasonal influenza is not a coronavirus.
