

War Propaganda and the Fundamentalism of Western Media Control

There is nothing sadder and more pathetic, than a notorious liar insulting normal people left and right, while terrorizing those who are telling the truth.

Lately, the West has gone clearly berserk. The more it is scared of losing control over the brains of billions of people in all corners of the world, the more aggressively it is screaming, kicking and making a fool of itself.

It doesn't even hide its intentions, anymore. The intentions are clear: to destroy all of its opponents, be they in Russia, China, Iran or in any other patriotic and independent-minded state. To silence all the media outlets that are speaking the truth; not the truth as it is defined in London, Washington, Paris or Berlin, but the truth that simply serves the people, not the fake, pseudo-truth fabricated in order to uphold the supremacy of the Western Empire.

Huge funds are now being allocated for the mortal propaganda onslaught, originating predominantly in both London and Washington. Millions of pounds and dollars have been allocated and spent, officially and openly, in order to 'counter' the voices of Russian, Chinese, Arab, Iranian and Latin American people; voices that are finally reaching 'the Others' -the desolate inhabitants of the 'global south', the dwellers of the colonies and neo-colonies; the modern-day slaves living in the 'client' states.

The mask is falling down and the face of Western propaganda is being exposed. It is awful, frightening, but at least it is what it is, for everyone to see. No more suspense, no surprises. It is all suddenly out in the open. It is frightening but honest. This is our world. This is how low our humanity has sunk. This is the so-called world order, or more precisely, neo-colonialism.

*

The West knows how to slaughter millions, and it knows how to manipulate masses. Its propaganda has always been tough (and repeated a thousand times, not unlike corporate advertisements or the WWII fascist indoctrination campaigns) when it originates in the United States, or brilliantly Machiavellian and lethally effective when coming from the United Kingdom. Let us never forget: the U.K. has been murdering and enslaving hundreds of millions of innocent and much more advanced human beings, for many long centuries and all over the world. Due to its talent in brainwashing and manipulating the masses, Great Britain has been getting away with countless genocides, robberies and even managing to convince the world that it should be respected and allowed to retain both a moral mandate

and the seat at the U.N. Security Council.

The Western regime knows how to lie, shamelessly but professionally, and above all, perpetually. There are thousands of lies piling up on top of each other, delivered with perfect upper-class 'educated' accents: lies about Salisbury, about Communism, Russia, China, Iran, Venezuela, Cuba, North Korea, Syria, Yugoslavia, Rwanda, South Africa, Libya, refugees. There are lies about the past, present and even about the future.

Nobody is laughing, seeing such imperialist thugs like the U.K. and France preaching, all over the world and with straight face, about both freedom and human rights. Not laughing, yet. But many are slowly getting outraged.

People in the Middle East, Africa, Asia and Latin America are beginning to realize that they have been fooled, cheated, lied to; that the so called 'education' and 'information' coming from the West have been nothing else other than shameless indoctrination campaigns. For years I worked on all continents, compiling stories and testimonies about the crimes of imperialism, and about the awakening of the world, 'summarized' in my 840-page book: [*"Exposing Lies Of The Empire"*](#).

Millions can now see, for the first time, that media outlets such as BBC, DW, CNN, Voice of America, Radio Free Europe/Radio Liberty, have been encoding them mercilessly and thoroughly, for years and decades. Reuters, AP, AFP and several other Western press agencies, have managed to create a uniformed narrative for the entire planet, with local newspapers everywhere in the world now publishing identical fabrications that originate from Washington, London, Paris and other Western capitals. Totally false pictures about such important subjects as the Soviet Union, Communism, China, but also freedom and democracy, have been engraved into billions of human brains.

The main reason for the opening of the eyes of people of the world which is still oppressed by Western imperialism is the relentless work of media outlets such as the Russian-based New Eastern Outlook (NEO), RT and Sputnik, as China-based CGTN, China Radio International and China Daily, Venezuela-based TeleSur, Lebanese Al-Mayadeen, and Iranian Press TV. Of course, there are many other proud and determined anti-imperialist media outlets in various parts of the world, but the above-mentioned ones are the most important vehicles of the counter-propaganda coming from the countries that fought for their freedom

and simply refused to be conquered, colonized, prostituted and brainwashed by the West.

One mighty anti-imperialist coalition of truly independent states has been forming and solidifying. It is now inspiring billions of oppressed human beings everywhere on Earth, giving them hope, promising a better, optimistic and just future. Standing at the vanguard of many positive changes and expectations is the 'new media'.

And the West is watching, horrified, desperate and increasingly vitriolic. It is willing to destroy, to kill and to crush, just in order to stop this wave of 'dangerous optimism' and strive for true independence and freedom.

*

There are now constant attacks against the new media of the free world. In the West, RT is being threatened with expulsion, brilliant and increasingly popular New Eastern Outlook (NEO) came just recently under vicious cyber-attack from, most likely, professional Western hackers. TeleSur is periodically crippled by sanctions shamefully unleashed against Venezuela, and the same banditry is targeting Iranian Press TV.

You see, the West may be responsible for billions of ruined lives everywhere in the world, but it is still faces no sanctions, no punitive actions. While countries like Russia, Iran, China, Cuba, DPRK or Venezuela have to 'face consequences' mainly in the form of embargoes, sanctions, propaganda, direct intimidation, even military bullying, simply for refusing to accept the insane Western global dictatorship, and for choosing their own form of the government and political as well as economic system.

The West simply doesn't seem to be able to tolerate dissent. It requires full and unconditional obedience, an absolute submission. It acts as both religious fundamentalist and a global thug. And to make things worse, its citizens appear to be so programmed or so indifferent or both, that they are not capable of comprehending what their countries and their 'culture' are doing to the rest of the world.

*

When being interviewed, I am often asked: "is the world facing real danger of WWII?"

I always reply "yes". It is because it appears that both North America and Europe are unable to stop forcing the world into obedience and to virtual slavery. They appear to be unwilling to accept any rational and democratic arrangement on our Planet. Would they sacrifice one, tens or hundreds of millions of human beings, just in order to retain control over the universe? Definitely they would! They already have, on several occasions, without thinking twice, with no regret and no mercy.

The gamble of the Western fundamentalists is that the rest of the world is so much more decent and much less brutal, that it could not stomach yet another war, another carnage, another bloodbath; that it rather surrenders, rather gives up all its dreams for a much better future, instead of fighting and defending itself against what increasingly appears to be an inevitable Western military attack.

*

Such calculations and 'hopes' of the Western fanatics are false. Countries that are now being confronted and intimidated are well aware what to expect if they give up and surrender to Western insanity and imperialist designs.

People know, they remember what it is like to be enslaved.

Russia under Yeltsin, collapsed, being plundered by Western corporations, being spat at, in the face, by the European and North American governments; its life expectancy dropped to sub-Saharan African levels.

China survived unimaginable agony of "humiliation period", being ransacked, plundered and divided by French, British and the U.S. invaders.

Iran robbed of its legitimate and socialist government, having to live under a sadistic maniac, the Western puppet, the Shah.

The entire 'Latin' America, with its open veins, with ruined culture, with Western religion forced down its throat; with literally all democratically-elected socialist and Communist governments and leaders either overthrown, or directly murdered, or at least manipulated out of power by Washington and its lackeys.

North Korea, survivor of a beastly genocide against its civilians, committed by the U.S. and its allies in the so-called Korean War.

Vietnam and Laos, raped and humiliated by the French, and then bombed to the stone ages by the U.S. and its allies.

South Africa... East Timor... Cambodia...

There are living carcasses, decomposing horrid wrecks, left after the Western deadly 'liberating' embraces: Libya and Iraq, Afghanistan and Honduras, Indonesia and the Democratic Republic of Congo, to name just a few. These are serving as warnings to those who still have some illusions left about the Western 'good will' and spirit of justice!

Syria... Oh Syria! Just look what the West has done to a proud and beautiful country which refused to fall on its knees and lick Washington's and London's feet. But also, look how strong, how determined those who truly love their country can be. Against all odds, Syria stood up, it fought foreign-backed terrorists, and it won, surrounded and supported by the great internationalist coalition! The West thought it was triggering yet another Libyan scenario, but instead, it encountered an iron fist, nerves of steel, another Stalingrad. Fascism was identified, confronted and stopped. At an enormous cost, but stopped!

The entire Middle East is watching.

The entire world is watching.

People now see and they remember. They are beginning to remember clearly what happened to them. They are starting to understand. They are emboldened. They clearly comprehend that slavery is not the only way to live their lives.

*

The Anti-Western or more precisely, anti-imperialist coalition is now solid like steel. Because it is one great coalition of victims, of people who know what rape is and what plunder is, and what thorough destruction is. They know precisely what is administered by the self-proclaimed champions of freedom and democracy – by the Western cultural and economic fundamentalism.

This coalition of independent and proud nations is here to protect itself, to protect each other, as well as the rest of the world.

It will never surrender, never back up. Because the people have spoken and they are sending clear messages to their leaders: “Never again! Do not capitulate. Do not yield to the Western intimidations. We will fight if attacked. And we will stand, proudly, on our own feet, no matter what, no matter what brutal force we have to face. Never on our knees, comrades! We will never again fall to our knees in front of those who are spreading terror!”

And the media in these wonderful countries that are resisting Western imperialism and terror is spreading countless optimistic and brave messages.

And the Western establishing is watching and shaking and soiling its pants.

It knows the end of its brutal rule over the world is approaching. It knows those days of impunity are ending. It knows the world will soon judge the West, for the centuries of crimes it has been committing against humanity.

It knows that the media war will be won by ‘us’, not by ‘them’.

The battlefield is being defined. With some bright exceptions, the Westerners and their media outlets are closing ranks, sticking to their masters. Like several other writers, I had been unceremoniously kicked out from Counterpunch, one of the increasingly anti-Communist, anti-Russian, anti-Syrian and anti-Chinese U.S.-based publications. From their point of view, I was writing for several ‘wrong’ publications. I am actually proud that they stopped publishing me. I am fine where I am: facing them, as I am facing other mass-circulation media outlets of the West.

The extent of Western ideological control of the world is degenerate, truly perverse. Its media and ‘educational’ outlets are fully at the service of the regime.

But the world is waking up and confronting this deadly cultural and political fundamentalism.

A great ideological battle is on. These are exciting, bright times. Nothing could be worse than slavery. Chains are being broken. From now on, there will be no impunity for those who

have been torturing the world for centuries.

Their lies, as well as their armor, will be confronted and stopped!
