\*\*\*

*In a televised address on 24 February 2022, Russian President Vladimir Putin announced his decision to order Russian military forces to invade Ukraine in what he labeled a ‘special military operation’ to defend the recently declared self-proclaimed republics of Donetsk and Luhansk and ‘to demilitarise and denazify Ukraine’. [Watch President Putin’s speech here](#) or [read a transcript here](#).*

Since the invasion started, there has been a huge amount of commentary on it from a vast range of authors with a remarkably diverse range of perspectives. Beyond this, the cascading impacts of the war along with the changes that have been precipitated at various levels, have already been far-reaching and will be increasingly devastating for humanity as a whole.

In this article I will focus on some of the more obscure aspects of the deeper agenda that is driving this conflict to manifest in the way that it is occurring. This reflects my own long-standing interest in understanding how elite power manifests in the world.

As I have explained previously, since the dawn of human civilization 5,000 years ago, ‘ordinary’ people have been engaged in an ongoing struggle against elites, whether local, imperial, religious, economic, national or, now, global. See [‘Why Activists Fail’](#). But whatever the context, the elite intention is always the same: to kill undesired populations and/or control the lives of everyone else by depriving them of their fair share of political, economic, social and ecological resources.

Since about 1500CE, the intensity of this conflict has deepened considerably with elites

intent on killing off a substantial proportion of the human population and enslaving those left alive. This has been done through imperial conquest precipitating genocidal campaigns against indigenous peoples, wars, control of food supplies and other resources to generate mass starvation, medical technologies, the deployment of lethal technologies notably now including 5G and, most recently, an injectables program, ostensibly to protect against a 'virus'.

See ['Killing Off Humanity: How the Global Elite Is Using Eugenics and Transhumanism to Shape Our Future'](#).

In essence, elite intention has never really wavered. To reiterate: Whatever ideology supposedly guided any elite in a particular context, the elite has usually wanted a substantial proportion of any local human population killed off and the bulk of those left alive reduced to slavery, in one form or another, while endlessly commandeering planetary resources for elite use.

The only differences between earlier eras and the present is that the assault on humanity is now genuinely global and it is in its final stage.

Unfortunately, too, this assault is happening in plain sight with the bulk of the population completely unaware of what is taking place and those who are at least concerned and resisting in some way focused on the 'smoke and mirrors' distraction presented by the 'virus'/'vaccine' narrative and the antics of politicians.

Which means that the Elite's kill and control agenda, being implemented through the World Economic Forum's 'Great Reset', proceeds with minimal resistance. And those not killed by the various measures being used to depopulate humanity will be enslaved in a technological prison from which there will be no escape. *After all, the absolutely minimum requirements for effective resistance are life, a mind with free will and food to eat, none of which can be taken for granted any longer.*

So where does the war in Ukraine fit into all this?

Well, at immediate and great personal cost to those soldiers and civilians killed or otherwise adversely impacted by the fighting, the war is being used as a smokescreen to obscure a highly orchestrated sequence of events that accelerate the Global Elite's kill and control agenda, in just the same way that the Covid-19 narrative has done.

Using two wealthy members of the World Economic Forum – [President Vladimir Putin of Russia](#) (see ['All Putin's Men: Secret Records Reveal Money Network Tied to Russian Leader'](#)) and [President Volodymyr Zelensky of Ukraine](#) (see ['What Pandora Papers revealed about Zelensky offshore accounts and funding from Ukranian kleptocracy'](#)) – backed by a supporting cast of key elite agents and unwitting accomplices throughout institutions such as NATO, the European Union, the US and other governments, the corporate media and elsewhere, the military conflict rages on in clear public view, with much debate about various measures being implemented as part of this conflict – such as sanctions by many countries on Russia – while several vitally important outcomes are obscured from general view or accepted as 'unfortunate' consequences of the war rather than planned measures of the elite to kill or control us all.

'What outcomes are these?' you might ask.

Well, while this war rages on, generating enormous emotion among those siding with either Russia or Ukraine – and thus, in extremely simplified terms, outraged by either NATO's precipitating encroachment and military buildup over recent decades or Putin's 'unjustified' aggression – here is a short, partial list of rapidly accelerated key outcomes, all compliments of this war, that bring you closer to death or technological slavery in the near term, wherever in the world that you live.

1. The war, by accident (given that other key elite agents are well aware of what is happening and probably won't precipitate it deliberately), could 'go nuclear', and kill off a huge proportion of humanity and, depending on its severity, starve most or even all of those left alive. But, assuming this outcome is avoided, there are plenty of other unpalatable options to contemplate.
2. Russia and Ukraine supply 30% of the world's wheat and significant percentages of other grains, sunflower oil, fertilizers, oil and gas, and strategic minerals (such as palladium and platinum), among other products. The war, as well as the sanctions imposed on Russia by many countries, has exacerbated the already seriously interrupted supply chains of these products, which either cannot be alternatively sourced or not as cheaply. And the previously generated supply chain collapses in all sectors, causing food (and other) shortages, price hikes and energy crises around the world, cannot be restored in any timeframe that is short. Millions will starve to death because of these supply chain collapses.

According to one recent report: 'We believe we are at the onset of a global famine of historic proportions.' See ['Farmers on the Brink'](#).

To repeat: 'we are at the onset of a global famine of historic proportions.'

And the thoughtful account by Riley Waggaman includes this comment from Anatoly Nesmiyan: 'That is why the "special [military] operation" is a minor episode of little importance against the background of impending cataclysms.... The fact that Ukraine and Russia have been used as a tool speaks not so much about the mind of the West, but about the impenetrable stupidity of the direct participants in the current competition.' See ['Up next: Global food crisis?'](#)

If you want to keep close track of the destruction of your food supply, now being dramatically accelerated by the war in Ukraine, check out the daily updates shared by the [Ice Age Farmer](#) (Christian Westbrook) on various channels.

3. Intended deaths from the injectable continue to climb rapidly, despite concerted efforts by elite agents such as the World Health Organization, politicians, official medical systems, the pharmaceutical industry and the corporate and government media to conceal these deaths from public view. For just two recent attempts to compile a list of reports, see ['UPDATED: How Many People Are the Vaccines Killing?'](#) and ['COVID-19 Vaccine Massacre: 68,000% Increase in Strokes, 44,000% Increase in Heart Disease, 6,800% Increase in Deaths Over Non-COVID Vaccines'](#).

Of course, many eminent experts, heavily suppressed by the corporate media, have long ago warned that these 'death shots' will 'decimate humanity'. For a small sample, see ['The Truth about the Covid-19 Vaccine'](#), ['A Final Warning to Humanity'](#), ['I Accuse! The Gene-](#)

[based “Vaccines” Are Killing People. Governments Worldwide Are Lying to You the People, to the Populations They Purportedly Serve](#), [‘COVID Shots to “Decimate World Population,” Warns Dr. Bhakdi](#)’ and [‘BREAKING – Over 150,000 people including 600 children have died due to the Covid-19 Vaccines in the USA’](#).

But a quick check reveals that the Russian and Ukrainian governments have both enthusiastically participated in the entire Covid-19 ‘virus’/‘vaccine’ scam imposing the familiar range of measures – mandatory vaccinations, QR codes... – implemented elsewhere to fulfil the elite’s kill and control agenda.

This includes elite Russian participation in the Global Preparedness Monitoring Board (GPMB) which, as noted by Robert F. Kennedy Jr. in his recent book *The Real Anthony Fauci* is

‘the real-life authoritative collective for imposing rules during the... pandemic. This so-called “independent” monitoring and accountability body’s purpose was to validate the imposition of police state controls by global and local political leaders and technocrats...: subduing resistance, ruthlessly censoring dissent, isolating the healthy, collapsing economies, and compelling vaccination during a projected worldwide health crisis.’

See [‘I Believe We Are Facing an Evil That Has No Equal in Human History’](#) and [‘Sputnik V is a scam: “A socioeconomic experiment on the Russian population”’](#).

The government of Ukraine is no different, using coercive measures to force vaccination on its citizens despite an unusually high level awareness of the dangers of vaccines – leading to substantial resistance – among the general population. See [‘As COVID Surges, Protesters Hit Streets of Ukraine to Decry Vaccine Mandates’](#).

Are you keeping track of the ever-lengthening list of those who are injured or killed by the injection, which is taking place in the background of this war?

4. The rollout of 5G, essential to elite creation of their surveillance and control grid, gathers pace under cover of the ‘virus’/‘vaccine’ narrative and now the Russia/Ukraine war. Of course, the electromagnetic radiation will also kill vast numbers of people, both outright and via decimation of the insect population (thus further reducing global food supplies), and the surveillance and control grid it will make possible will trap you in your home and immediate neighborhood, with any semblance of human freedom and human rights consigned to memory. See [‘Sleepwalking into Hell: The Global Elite’s Technological Coup d’état Against Humanity’](#) and [‘Deadly Rainbow: Will 5G Precipitate The Extinction Of All Life On Earth?’](#)
5. And, unless you have been ignoring the World Economic Forum’s ‘Great Reset’, you are well aware that the Global Elite plans to transform 200 areas of human life using technologies associated with the fourth industrial revolution and transhumanism (including 5G and 6G, military weapons, artificial intelligence [AI], big data, nanotechnology and biotechnology, robotics, the Internet of Things [IoT], and quantum computing). These technologies will subvert human identity, human freedom, human dignity, human volition and human privacy reducing those left alive to transhuman slavery in which you will have a digitized personal identity. This digitized identity will be connected to your banking, health, legal and other records to establish your personal ‘social credit score’, like that used

in China, to determine what you can, and cannot, do while living in your 'smart city' eating food-like substances synthesized from trash and insects. See ['The Great Reset'](#).

In Ukraine, the government is simply using the war to rapidly expand what was already 'one of the most expansive government-run digital ID systems in the world', making the country the 'world leader' in some aspects of digitization via their Diia app, with all that this portends for the human future.

See ['How Ukraine Government Is Converting Digital ID System Into Wartime Tool'](#).

Of course, there will be no backtracking from this at war's end.

Russia is equally committed to its digitization program, although it is also playing a key role in developing the elite-controlled banking system, complete with digitized currencies, that will supersede the current model. It is hosting the annual Cyber Polygon simulations.

See ['Taking Control by Destroying Cash: Beware Cyber Polygon as Part of the Elite Coup'](#).

If all of this sounds preposterous, here are two other geopolitical analysts who offer a similar conclusion based on their own analyses: ['The Ukraine Crisis: What You Need to Know'](#) and ['Ukraine-Russia: A Proxy-War, Advancing the Agenda of the Great Reset?'](#)

## What About the War in Ukraine?

Like many people, I am concerned about the war too. In drawing attention to the deeper elite program that is rapidly trapping humanity in a nightmarish future, I am not suggesting that the war does not matter.

But I also know from long experience that the anti-war movement remains devoid of the capacity to act to prevent or halt wars because it lacks the analysis, strategic orientation, tenacity and courage to do so. I wish it was otherwise.

Still, if you want to participate in a strategy to end this war, particularly given the possibility of it morphing into a longer term insurgency - see ['Ukraine And The New Al Qaeda'](#) - you can read how to do so here: [Nonviolent Defense/Liberation Strategy](#).

And if you want to participate in a strategy to end all war, you can read how to do so here: [Nonviolent Campaign Strategy](#).

Having noted this, let me highlight that key aspects of these strategies are the need to recognize that violence is built deeply into human society by a parenting model that, in essence, is based on demanding obedience from a child, rather than nurturing the child's Self-will. See ['Why Violence?'](#) and ['Fearless Psychology and Fearful Psychology: Principles and Practice'](#).

And this generates a society in which many people are so adversely impacted that they are rendered effectively insane. Unfortunately, some of these people end up in situations where they exercise extraordinarily levels of control. See ['The Global Elite is Insane Revisited'](#).

Hence, if you want to reduce violence and war in the future, consider making ['My Promise to Children'](#).

## So what does all of this mean?

Whatever your concerns about the war in Ukraine however, I encourage you to not let it distract you from acting powerfully to defeat the deeper elite agenda. If you get caught up in the war hysteria and fail to defend yourself and those you love, you will soon find that everything about the life you have known has been taken away, irrespective of the outcome of this war.

## So what can you do?

Ideally, if you wish to strategically resist the elite agenda, your most powerful option is to participate in the [‘We Are Human, We Are Free’](#) campaign.

The simplest version of this strategy is explained on the one-page flyer that identifies a short series of crucial nonviolent actions that anyone can take. This flyer, now available in 15 languages (Czech, Danish, English, Finnish, French, German, Greek, Hebrew, Hungarian, Italian, Polish, Romanian, Russian, Spanish & Slovak) with more in the pipeline, can be downloaded from here: [‘The 7 Days Campaign to Resist the Great Reset’](#).

# WE ARE HUMAN WE ARE FREE

WORLDWIDE NONVIOLENT RESISTANCE TO ELITE CONTROL \_ *THE GREAT RESET*

**We Are Human, We Are Free** is a worldwide nonviolent resistance movement to free ourselves from elite control and resist the forces of fear and dehumanisation. Our aim is to build a mass civil resistance movement to undermine the power of the criminal Global Elite to control us,

and to regain the freedoms that make our lives worth living. Because we are human, we are free to make choices. The time has come to choose - are we on the side of love, life and freedom or fear, self-imprisonment and tyranny?

## WHAT CAN YOU DO?

Refuse Covid-19 injections, tests and passports. Big Pharma is not honest or safe. Choose natural health.

Keep your small business open in lockdown. Buy from small businesses. Don't use contact-tracing QR codes.

Don't wear masks or social distance. Staying human is more important than living in fear.

Boycott corporate & government media that misinform & censor. Choose uncensored media & social media.

Don't buy 5G or smart devices/systems. Resist the fourth industrial revolution. Defend our humanity.

Don't pay Covid-19 related fines. Risk becoming a prisoner of conscience. Seek support.

Pay with cash & switch to community owned banks. Grow your own food. Join local trading schemes.

Wear an orange armband, scarf, or ribbon to show solidarity with the movement.

## Conclusion

The war in Ukraine is a tragedy for those immediately impacted but for all of us as well. Particularly if we do not recognise the threat it conceals and act powerfully in response to this deeper threat.

For 5,000 years elites have been pitting us against each other – at work, on the battlefield, in life generally – by drawing attention to, and magnifying, superficial differences (based on gender, race, religion, class, nationality....), exacerbating conflicts and convincing us that they are acting in our own best interests when we do what they tell us via their agents in

government, the corporate media and elsewhere, and that human solidarity is worth nothing.

Well, one day very soon now, we would do well to realize that in the end only three things matter: Human solidarity is essential if we are to survive this existential crisis, our true enemy is not each other but the insane Global Elite, and we must act powerfully and nonviolently if we are to defeat it.

A human future worth living will be short otherwise.
