World events permitting, I am going to take a few days off.

Many of you write to me asking for financial advice or for explanations of the pros and cons of different investments. I don't give financial advice and cannot answer such a large number of individual inquiries. However, I can call to your attention two books that provide different views from those available in the financial media. The Aftershock Investor by David Wiedemer, Robert A. Wiedemer, and Cindy S. Spitzer (John Wiley & Sons, 2014) explains the vulnerabilities of each kind of investment. The Money Bubble by James Turk and John Rubino (DollarCollapse Press, 2013) explains the possible consequences of the current economic policies. Both books are directed at a general audience and are readable.

As I have reported on several occasions, the US government pays foreign rulers to do Washington's bidding. There is no such thing as an independent government in the UK, Europe or Japan. On top of all the other evidence, it has now come to light that the US Agency for International Development has a large slush fund "where millions are paid to political figures in foreign countries."

If you have four hours, watch President Putin's amazing open press conference with the Russia people and then try to imagine an American or European leader capable of such a feat. <http://www.informationclearinghouse.info/article38254.htm> The Russians have a real leader. We have two-bit punks.

The Los Angeles Times has acquired its own Judith Miller. His name is Sergei L. Loiko. An incompetent Obama regime has botched its takeover of Ukraine with its Kiev coup. The White House Fool is embarrassed that so many Ukrainians prefer to be part of Russia than part of Washington's stooge "freedom and democracy" government in Kiev. The prostitute American and European media have thrown the propaganda into overdrive, demonizing Russia and President Putin, in order to cover up Washington's blunder.

The latest deception cooked up by Washington or by the anti-semitic neo-nazi Right Sector in western Ukraine consists of leaflets falsely issued under the name of one of the leaders of Russian secessionists in eastern Ukraine. The leaflet calls for Jews to sign a registration and list their property. However, no such registration office exists. Washington's ambassador to Ukraine, Geoffrey Pyatt who assisted Assistant Secretary of State Victoria Nuland in orchestrating the overthrow of the elected Ukrainian government and installing Washington's stooges, declared the leaflets to be "the real deal." But the Jewish community is suspicious and has issued a statement that the leaflet "smells like a provocation." Jewish residents of the Russian territories that Soviet leaders added to the Ukraine Soviet Republic say that anti-semitism has not been a feature of their lives in the Russian speaking areas.

Washington and the prostitute media are purveyors of misinformation. Remember, Washington and its media prostitutes told you that Saddam Hussein had weapons of mass destruction and was a threat to America. Washington and its media prostitutes told you that Syria's President Assad used chemical weapons against his own people. Washington and its media prostitutes told you that "we are not spying on you." Remember, the New York Times sat on the first leak from a top NSA official that Americans were being illegally spied upon for one year until George W. Bush was safely reelected.

A government that relies on propaganda cannot be believed about anything. Americans misinformed by a prostitute media are in no position to protect the US Constitution and their liberty. Misinformed, they become tyranny's allies and their own worst enemy.
