The more laws and restrictions there are,
the poorer the people become.
The sharper men's weapons,
The more trouble in the land.
The more ingenious and clever men are,
The more strange things happen. The more rules and regulations,
The more thieves and robbers. Lao Tsu. "The Tao Te Ching" (#

Humanity obliges us to be affected with the distresses and
Miserys of our fellow creatures.... Abigail Adams, 1763

After several weeks of peaceful assembly of countless people gathered near Wall Street, mainstream media has been forced to report that this is no small event. Finally! We the people are waking from our long geo-engineered, drug-induced apathy. If little of substance was reported by managed-and-controlled news (85 percent of which is now in the hands of five corporations), the alternative press and Internet have spread the word:

*We have had enough!
Enough lies and deceit.
Enough rigging of and stealing trillions of our taxpayer dollars.
Enough invading countries for their natural resources.
Enough of poisoning our food, air, soil, and water.
Enough of breaking of all laws and treaties.
Enough of all the rogue actions by those in charge!
Enough of destroying our constitution.*

I am reading Woody Holton's biography, "Abigail Adams: A Life" (published in 2009). It is a fascinating account of a woman who was far ahead of her times in Revolutionary America, still then part of the British Colonies and London bank control. She spoke her mind and wrote a good deal; and much of her correspondence has come down to us. She had a unique partnership with her husband, John, in ways that most eighteenth-century women did not. Abigail Adams was one of our extraordinary Founding Mothers. It seems propitious that I'm reading this at this particular time, as I watch our country go under. Another of her comments, written in 1774 to her husband John on the eve of the Revolutionary War, seems particularly valid now (given all the contrived wars):

"Man is Generally Called out to the full display of his Abilities but how often do they Exhibit the Most Mortifying instances of Neglected Opportunities and their Minds appear Not with standing the Advantages of what is Called a Liberal Education, as Barren of Culture and Void of Every useful aquirement..."

We need to remember that we once used to be a country of laws. Other countries looked up to us and respected what we did.

Now, over the past decade, all has been trashed: for unending wars of Imperial Conquest; for theft of millions of our homes; for enormous invasion of our privacy (from monitoring our phone calls and emails to the TSA sexually assaulting us at the airports –even small children and elders in diapers); for theft by the banksters of trillions of our hard-earned tax dollars; for injecting us with dangerous and untested vaccines; for poisoning us with tons of chemicals in our food, soil, and water and overhead with deadly and daily attacks of aerosolized Chemtrails and geo-engineered weather; and for the deliberate destruction of our Constitution and our country.

Millions of us are out of work. Millions of us are ill. Millions of us have lost our homes and our life savings.

It has all been well orchestrated by the criminals in charge. Do we really want to turn over our country to a world government with these kinds of people in charge? Just look at the chaos within the European Union –run by non-elected officials and the banksters.

This was all planned by the wealthy and well-connected elite insiders [less than 1 percent of our population] in business, law, corporations, and government. They have been working on wrecking everything we had, including: the total destruction of the middle class and every financial benefit we had; the total destruction of our educational system; and the total destruction of our health and what used to be our gorgeous environment.

The tragedies surrounding Nature are epic in scope and created by the destructive plans of insiders.

None of it is natural. Whales beach themselves. Bees are dying by the millions. Birds fall out of the sky and millions of fish mysteriously die. Animals are hunted to extinction. Our own web of life is under constant military siege, while (just as one example) 11.7 million marine mammals, fish, sea turtles, and ocean habitats are at risk for being killed by the US Navy's multiple 5-year warfare plan! Please help stop this insanity. See Rosalind Peterson's report: www.agriculturedefensecoalition.org/us-navy

The "End of Nature" as Bill McKibben wrote has been created by nefarious human behavior. In just the past year-and-a-half, the entire web of sea life has been contaminated and destroyed in both the Gulf of Mexico by the oilrig explosion last year and in the Pacific Ocean by Fukushima's on-going nuclear disaster and its long-term radioactivity that now affects the entire globe. This is the worst nuclear accident in history. Do we want more nuclear facilities? It is a completely UNSAFE TECHNOLOGY! Seafood is radioactive in the Pacific Ocean and contaminated by oil and Corexit in the Gulf. None of it is safe to eat. Yet, this is not reported by the mass media and not monitored by the government. So, no one can be held accountable for extensive damage and death. The Gulf's new genetically engineered "Blue Plague" and the horrors of Morgellons are both synthetic and replicating and have affected possibly millions of humans and other animals throughout our entire web of life. The latest news on the enormous ecosystem collapse of the entire Gulf of Mexico is here: www.globalresearch.ca/index.php?context=va&aid=26947

This is part of the epic dis-order of an Orwellian wrecked world that has been accelerated by the elite's deadly and secret timetable to destroy our country and pit everyone against

everyone else. Hatred has been instilled in media reports as well as the militarized and often privatized police (often now consisting of returning “vets” who have been damaged by wars, DU [radioactive Depleted Uranium] bombs, and forced toxic vaccinations). Neighbors are asked to “rat” on one another. Children and “scouts” are asked to “report anything suspicious.” They do not have the life experience to determine this. The mass media feeds us lies, violence, and destruction. This is now tragically endemic to our broken society. Is this what we stand for? Here’s a reminder from Thomas Jefferson:

“If a nation expects to be ignorant & free, in a state of civilization, it expects what never was & never will be. The functionaries of every government have propensities to command at will the liberty & property of their constituents. [See: mortgage-home theft and the UN’s Agenda 21 being brought here by stealth.] There is no safe deposit for these but with the people themselves; nor can they be safe without information.” Monticello. Jan. 6, 1816.

Here are the very first words of our Constitution: “We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense [this does not mean invading other countries, one after another, illegally], promote the general Posterity [now only for the rich], do ordain and establish this Constitution for the United States of America.”

None of our Constitution is any longer in existence. The “Republic” is long gone. So, too, is Democracy. The façade crumbled long ago; and every part of society is in a huge free-fall. Not one criminal in charge, in any of the branches of government, has yet to be held accountable.

US Constitution. Article 1, Section 8: [other quotes below are also from this section.] “To establish Post Offices and post Roads.”

The US Postal System was privatized; and it looks like the entire system is soon headed for bankruptcy. If that does happen, how will these laid-off people find other jobs? The old “post” roads, now part of the Eisenhower Interstate Highway System in more and more places, have been privatized with tolls. The tolls have doubled in price over the past year, while thousands of miles of toll roads are full of potholes. This makes travel now very hard on millions of people who are out of work [the real unemployment figure is more than 25 percent], as they can’t make ends meet for even basics. In addition, over the past two or more years, barricades have now been set up throughout our nation’s roads. Large Warning Signs (in yellow or white) with lights have been put in, stating: “When flashing, exit here.” Fines and jail await anyone who does not comply. In addition, if you continue on the road, new gates (like those at railroad crossings) have been built to stop you. Thousands of these gates [many installed with their own solar batteries] are now at on-ramps, as well. What for? Are we going to be “penned in” or “not allowed” to travel? Is this where more of our destroyed tax-dollars go?

New jobs will not be happening, because the whole manufacturing and job infrastructure has been destroyed and sent off shore. It’s not just “blue” collar workers, it’s everyone –but the rich– who are affected. Schools continue to be closed and thousands of teachers fired. Last month, in San Diego County there were several news reports of 10 more public schools to be closed. The Board of Education there also plans to stop teaching cursive writing! In Maine, perfectly good schools have been shut down, and the children are bused 20 or more miles away. Unions, which once were strong, have now been gutted so corporations can do

what they want. Their bottom line is profit. Nothing else matters.

“To coin money, regulate the Value thereof...” This was destroyed when the Federal Reserve (not answerable to anyone!) took over, by theft, the financial workings of the entire US. This goes back to Andrew Jackson, Woodrow Wilson and John F. Kennedy (all of whom tried to get rid of the banksters). The final nail in the financial coffin was in 1971 when the US went off the Gold Standard. Gold and silver prices are deliberately rigged from behind the scenes. The “almighty buck” is mere green toilet paper (fiat money)...and this too is rigged. Today, the US “dollar” is worth less than 5 cents.

Professor Peter Dale Scott has written eloquently (he’s also a poet) about what he calls the “Deep Events” in our history [see author references below] that have changed the direction of our country: Lincoln’s and Kennedy’s assassinations; the destruction of NY’s Twin Towers and a Building 7 in this complex, and some object [not a plane] hitting the Pentagon. There are many “events” that were orchestrated from behind the scenes. Answers and those supposedly responsible were quick to be reported by a compliant press; but the Truth of what really happened is covered in lies, distortions, published so-called “Blue Ribbon Commissions” that are rigged, and no real FOI [Freedom of Information, where relevant info is blacked out, or actually destroyed].

In all of the mainstream writings about what needs to be “gutted” or trimmed in the already destroyed budget, not ONE WORD is ever written about cutting the out-of-control military budget. This is now more than 75 percent of US expenditures. The entire war machine is more “economically vital” than education, health and/or elder care, or any other social services: More than 13-million US children are on food stamps (and this figure does not include many formerly middle class parents who have lost their jobs and also are in need of food stamps). There is no money for food for our children, but there’s always war money to kill. The entire military system could be truly brought into the 21st century by turning it into a Peaceful Resource: getting rid of all the bombs, dismantling more than 800 bases around the globe, and for rebuilding what it has systematically destroyed. The nuclear industry continues to destroy our health and our planet. Both bombs and hazardous facilities continue to be used no matter what the long-term price of decades of radioactive contamination.

“To promote the Progress of Science and useful Arts...” Science has been taken over by corporate money. Universities, no long independent institutions of higher learning, count on enormous corporate “donations” as tuition goes sky-high, but real education and critical thinking are trashed. The rare independent scientists are hounded and threatened, if they do not conform to the status quo lies of global warming [now discredited by thousands of scientists...but this is the cover for all the real harm and ongoing dangers of geo-engineered weather modification, poisonous Chemtrails, and haarp technology]. We no longer have environmental “protection.” This actually means privatizing public lands and more of UN Agenda 21. Millions of doses of various pharmaceuticals and vaccines put us all in jeopardy –just read the list of toxic ingredients. We are the uninformed experimental lab rats, while corporate profits are sky high.

Here’s the latest vaccine news from Barbara Loe Fisher, the highly respected Director of NVIC [National Vaccine Information Center]: www.youtube.com/watch?v=m4HkwCA7ft4 and

“No State shall, without the Consent of Congress...enter into any Agreement or Compact with another State, or with a foreign Power, or engage in War, unless invaded...”

In Orwellian fashion, the US military empire has invaded many countries...who have posed absolutely NO THREAT to us, but whose natural resources are wanted. The press and officials lie to us repeatedly about the “reasons” for these invasions. Millions of innocent Iraqis, Afghanis, Pakastanis, and now Libyans have been killed by US/NATO military. Those who have not died yet from exposure to illegal DU bombs, have already been toxically exposed. This also includes US and other military personnel. For what? Is it not treason when American citizens meet behind closed doors to plan who knows what kind of war and destruction at private meetings?

US Constitution. Amendment 1: “Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people to peaceably assemble, to petition the Government for a redress of grievances.”

We no longer have free speech. The press is rigged with propaganda and useless “Hollyweird” escapades, while everything we had/have is being taken from us by those in charge. The “spin” keeps millions of poorly educated, dysfunctional, and brain damaged people distracted.

We have had decades of trying to get “redress of grievances” –all to no avail. From letters to governors, mayors, and Congress there is not one public official who has responded to our concerns of billions of us being used as uninformed laboratory subjects for hundreds of thousands of tons of geo-engineered poisons being sprayed on us 24/7/365 by public, private, and military jets. Thousands of us have tested our soil, artificial “sno” and water and soil to find a horrific assortment of deadly chemicals in them. None of this is “naturally occurring.” The list goes on and on.

In another example, I know from personal experience that public officials do NOT respond to our concerns. We do not matter –except to vote in rigged elections. During the 2003, 1-million-acre, 15-arson southern California FIRESTORM that destroyed my neighborhood of 2,000 people, I called 50 public officials (including the governor, several mayors, numerous fire chiefs, and state congress people). Only one person returned my call for help for our community.

We cannot make any sound decisions about our lives, our health, our precious children and grandchildren, our family and friends, if we are poorly educated, uninformed, and often invisibly harmed by the horrific assortment of hazardous poisons (in our air, and water, and food). Our cognitive functioning is affected. No one can think clearly or cogently, if a person is poisoned. Now, the planned so-called “smart” utility grid to be set up nationwide and worldwide, everyone will be exposed to extremely high levels of dangerous RF [Radiofrequency Radiation] that is not only an invasion of our privacy in our homes, it is also carcinogenic and damages cognitive and neurological functioning. Next year, all of your home appliances will have to be replaced with “chipped” ones that will conform to these meters on this deadly grid. None of this is safe technology. [It’s “smart” for the corporations that are making millions of dollars profits at our expense, while getting rid of employees who used to be meter readers.] It’s all about off-the-scale corporate greed. Everyone will be harmed!

So, here's a list of ESSENTIAL READING that connects many of the dots of our multiple crises. We must peacefully DEMAND a return to a peaceful civil society. The system we have now is now in shreds and is entirely broken. The corruption is systemic. It is not fixable by those in charge, because they are the problem.

What else can we do? We have huge and untapped power as consumers that we've barely used. Now is the time to use our Consumer Power. The buck really does stop at the cash register. We do not have to buy companies' products that cause us harm, that poison our children, or that cause obesity and hormone disruption. It is as simple as that! No GMOs. No pesticides. No dangerous drugs and/or vaccines! No fluoride or chlorine or mercury. No aspartame and other synthetic sweeteners. No chemicals that damage your DNA [children are now born with a "Body Burden" of poisonous chemicals in their DNA], wreck your immune systems and health, destroy your ability to reproduce [male sperm count is down 50 percent in the past 25 years; women have trouble conceiving or maintaining a pregnancy], and change your hormones.

This is all a planned multi-pronged attack by insiders to wreck everything across the entire web of life.

Boycott the corporations that are poisoning us and stealing our jobs and livelihoods. Shop locally. Don't use big-box stores. Go to your local Farmer's Market. Support local organic farmers. Ask them to test their no longer "organic" soil for heavy metals! Our soils need massive remediation. Don't buy Genetically Engineered foods (including corn, soy, and wheat). Don't buy foods with chemical additives. Can you imagine what can happen if the corporations can't sell their poisonous products?

In the words of the great Greek tragedian Euripides (c.480 BCE-406 BCE): "A slave is he [she, too] who cannot speak his [her] thoughts." Now, we are slaves of the bankers, and so will all our progeny be for a very long time –unless, we find other alternatives. We must disentangle ourselves from the perpetual vice-grip of the bankers. Here are two choices: 1. Find local credit unions not connected to the banks –supposedly, too big to fail. 2. Set up local money systems not related to the banks. This has been done before: www.smallisbeautiful.org/publications/essay_orion.html

The power of love and peace and caring is what makes humans extraordinary! This is the direction we must go. The opposite is where we are now: a world devoid of ethics, moral behavior, and/or justice. Remember also: there are more of us than the criminals.

In Thomas Jefferson's words:

"No Government ought to be without censors; & where the press is free, no one ever will."
