I have had cardiologists from time to time look perplexed and say they "never" see COVID-19 vaccine induced myocarditis. Two prospective cohort studies show the rate of COVID-19 vaccine myocarditis is ~2.5% per shot.

More Bad News for Vaccinated: Myocarditis Studies

By Dr. Peter A. McCullough

I am seeing cases nearly every day in the office as a practicing internist and cardiologist. How can other cardiologists be blind to this tidal wave of cases?

Here are a some simple explanations:

1. When a patient suddenly dies in the field, many times the physician is never notified. Distant family members may not know the treating doctors. In the case of young persons, there may be no doctor at all. So the medical examiner signs off on the death certificate, many times, with no autopsy.
2. Electronic medical records in clinics and hospitals are not well-linked to state or national death registries. So by looking in a chart by chance, it would be impossible to know if someone had died.

It seemed to me that these were not enough. Something else must explain the blindness among cardiologists particularly to nonfatal cases. So I undertook a Twitter (X) poll.

If your cardiologist recommended COVID-19 vaccination and you developed vaccine-induced myocarditis, would you go back to the same cardiologist for evaluation and management of the problem?

As you can see, once a patient suffers vaccine-myocarditis, they do not return to the same doctor who recommended the vaccine. Patients feel disappointed and burned in not receiving full, free informed consent. They go to another doctor who likely would have warned them not to take the shot from the very beginning.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, exposed by the PCR test, producing up to 97% proven false positives, combined with a relentless media campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
