TRUMP PULLS U.S. OUT OF PARIS CLIMATE ACCORD.

World's second largest greenhouse gas emitter will remove itself from global treaty as Trump claims accord 'will harm' American jobs. 'A reassertion of America's Sovereignty'.

Statement by Former Vice President Al Gore on Today's Decision by the Trump Administration to Withdraw from the Paris Agreement

June 1, 2017

"Removing the United States from the Paris Agreement is a reckless and indefensible action. It undermines America's standing in the world and threatens to damage humanity's ability to solve the climate crisis in time. But make no mistake: if President Trump won't lead, the American people will.

Civic leaders, mayors, governors, CEOs, investors and the majority of the business community will take up this challenge. We are in the middle of a clean energy revolution that no single person or group can stop. President Trump's decision is profoundly in conflict with what the majority of Americans want from our president, but no matter what he does we will ensure that our inevitable transition to a clean energy economy continues."
