Jan. 18, 2023 - Mukwonago, WI - Gregory Aprahamian died suddenly on Jan.18, 2023 "due to an enlarged heart". He was a highly respected teacher and wrestling coach at Muskego and Kettle Moraine Schools.

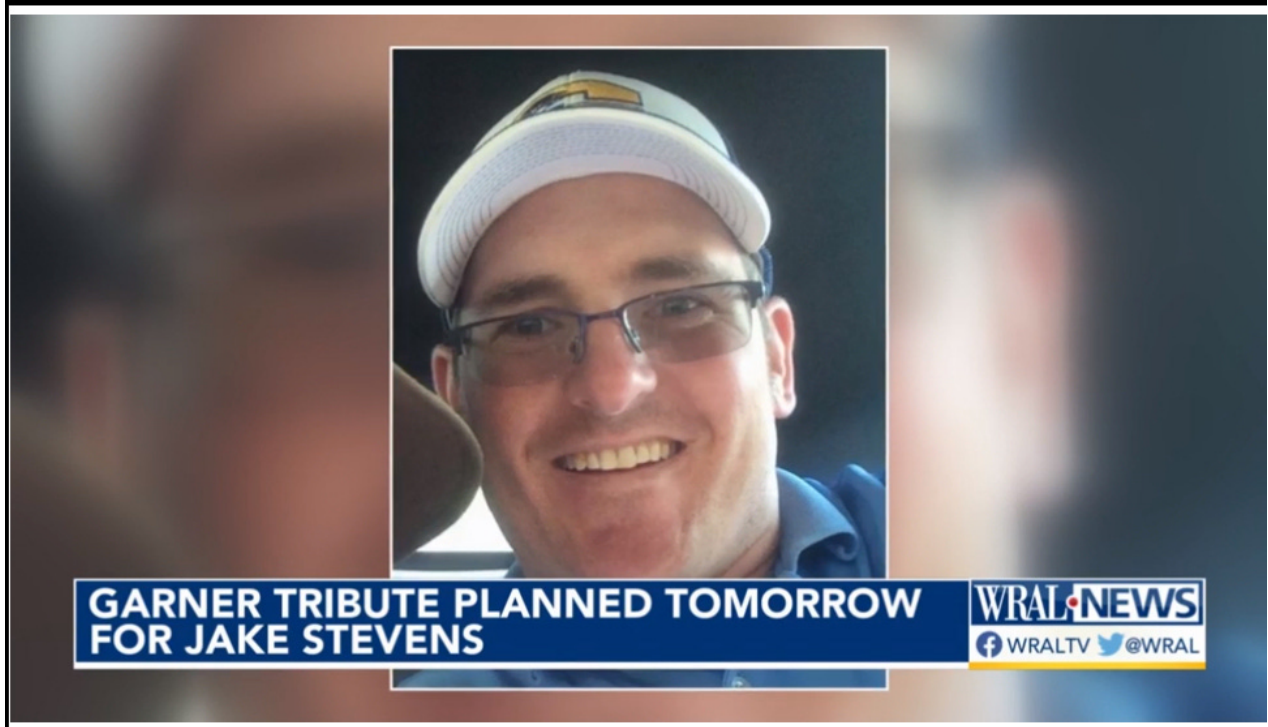

Greg died suddenly on January 18, 2023, due to an enlarged heart. Greg was married to the love of his life, Tammy (Iverson) Aprahamian for 34 happy years. He was the proud father of Brittany (Dan) Dubnicka Aprahamian, Ryan (Daysi) Aprahamian, Tyler Aprahamian, and Megan (Dan) Edwards. He was ecstatic to be Grandpa to Raylee Hope (22 months old), Maxton Gregory (14 months old), and Andrew Roger (almost 8 months old). Greg is additionally survived by his mother, Patricia Aprahamian, his brothers, George, Leonard, Steve, Charles, and Michael. He is preceded in death by his father, Dr. Charles Aprahamian and his mother-in-law, Bonita Iverson. Greg was a highly respected teacher and wrestling coach for over 30 years at Muskego and Kettle Moraine Schools. He was a positive influence on the lives of many of his students and wrestlers as well as a mentor to so many others. As head coach, Greg led Muskego to a team state title in 1994. Wrestling was a family affair as Greg coached both his sons, and his daughters were team managers, at Mukwonago High School. He also coached football and track through the years, but wrestling was always his passion. Even in "retirement," he kept himself more than busy. He invested in properties in Whitewater and made great strides in revitalizing the downtown area. He also kept building onto his dream house on the lake. Even with all that, he always found time to help with his children's home renovations. Whenever he could relax, Greg loved swimming in the lake, playing fetch with his dogs, and going to his condo in Ormond Beach, Florida. He was an avid Wisconsin sports fan and enjoyed having a beer and watching the Packers, Badgers, Bucks and Brewers. Greg accomplished many things, but anyone that knew him could tell that he was most proud of being a grandfather. He loved his three grandkids more than anything and was looking forward to spending as much time with them as he could. Greg lived his life for his family and passing due to an enlarged heart was painfully fitting. Everything he did was for them. The only thing

My Take...

All COVID-19 mRNA vaccine mandated professions are now seeing 550% increase in disabilities and 40% excess mortality (Source: Ed Dowd).

Looking at these 15 tragic deaths of teachers, ages 19 to 59:

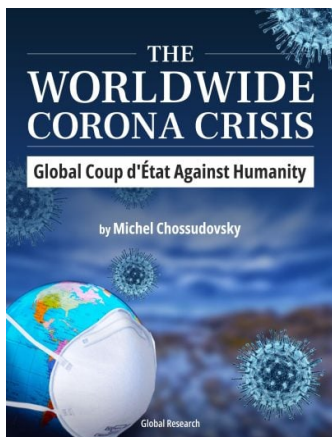

- 1 died in sleep
- 3 collapsed in school (1 playing basketball, 1 fixing baseball diamond, 1 in class)
- 2 died of cardiac arrest over weekend (1 while ice fishing with son)
- 1 died of enlarged heart
- 8 sudden deaths (no additional info)

This is an expected pattern of causes of death for a COVID-19 vaccinated population.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
