The Delta variant of COVID is on the rise. Apparently, more contagious and deadly than the original. Please. COVID is NOT a hoax. Get the vaccination. Pfizer and Moderna are apparently more effective than J&J. But J&J is better than nothing.

For those who haven't yet heard...

Secord has lost another Alumni member.

Sarah Mann (who went by Sarah Martin in high school) died unexpectedly last week, in her home, at the age of 37.

Sarah was a student at Secord in the early 2000s, and was, as my friend Jill described, "a force".

Arrangements are still being planned, but her mother has asked that we pass on this news to anyone who knew her.

I will miss her forever.

Heidi Nelson Fields Greer, 56, passed from this life on April 5, 2023, after a courageous battle against

myocarditis. Heidi is survived by her husband, Gordon; her boys, Tate and Teague;

In 2000, Heidi returned to Michigan and went to work as a third grade teacher at Alto Elementary School in Lowell. At Alto, she worked her magic as a creative, determined, loving educator for the next 23 years, teaching several different grade levels. She never, ever gave up on a child.

Heidi's courage and dignity in the last several months humbled us. She endured great pain and fought hard against a vicious disease, all the while making the most of the time she had left by focusing love

My Take...

All COVID-19 mRNA vaccine mandated professions are now seeing 550% increase in disabilities and 40% excess mortality (Source: Ed Dowd)

Looking at these 14 tragic deaths of teachers, ages 25 to 56:

- 3 died in their sleep
- 4 collapsed with cardiac arrest (1 while driving, 1 while swimming in an Ironman, 1 while watching school basketball game, 1 on school playground)
- 1 died of cardiac injury (myocarditis)
- 3 sudden deaths (cause not specified)
- 1 died with her stillborn baby
- 1 died from complications of diabetes
- 1 died from immune damage (COVID pneumonia)

This is an expected pattern of causes of death for a COVID-19 vaccinated population.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
